Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1957 Includes Part 1 Number 1 2 Books and Pamphlets Including Serials and Contributions to Periodicals January December United States Army Aviation Digest, 1985 **Unmanned Combat Air Systems in Future Warfare** C. Wills, 2016-04-29 Control of the air is the foundation for all conventional military operations against an adversary with an air defence capability In future warfare will it be possible for Unmanned Combat Air Systems to undertake the tasks and accept most of the risks that until now have been the lot of military aviators **Conflict Law** William H. Boothby, 2014-07-08 Topics as diverse as the evolving spectrum of conflict innovations in weaponry automated and autonomous attack the depersonalisation of warfare detention operations the influence of modern media and the application of human rights law to the conduct of hostilities are examined in this book to see to what extent existing legal norms are challenged The book takes each topic in turn explains relevant provisions of contemporary law and analyses exactly where the legal problem lies The analysis then develops the theme examining for example the implications of current rules as to deception operations for certain applications of cyber warfare The text is written in an accessible style and demonstrates the continuing relevance of established rules and the importance of compliance with them Useful for academics military governments ministries of defence ministries of foreign affairs libraries diplomats think tanks policy units NGOs and all others with an interest in law of armed conflict issues such as journalists and students *Prison Librarianship Policy and Practice* Suzanna Conrad, 2016-11-10 Prisoners are in a grey area regarding library services Prison libraries violate many tenets of librarianship with the justification of maintaining order The field is de professionalized many positions are filled by persons without degrees in library science and corrections administrators often write policy for services Critics cite the need to implement public library service models despite practical difficulties This book investigates state national and international policies on prison libraries reviews literature on the topic and describes partnerships between prisons and public libraries Results from a national survey and follow up interviews are included providing a full narrative of policy outcomes in U S prisons **Rootes Cars of the 1950s, 1960s and 1970s - Hillman, Humber, Singer, Sunbeam and Talbot** David Rowe, The only full colour comprehensive guide to all Hillman Humber Sunbeam Singer Talbot cars and vans from 1950 until the end of production in the 1970s With model by model descriptions and detailed technical information this is an invaluable Rootes resource *Queer Alliances* Erin Mayo-Adam, 2020-07-14 A unique investigation into how alliances form in highly polarized times among LGBTQ immigrant and labor rights activists revealing the impacts within each rights movement *Queer Alliances* investigates coalition formation among LGBTQ immigrant and labor rights activists in the United States revealing how these new alliances impact political movement formation In the early 2000s the LGBTQ and immigrant rights movements operated separately from and sometimes in a hostile manner towards each other Since 2008 by contrast major alliances have formed at the national and state level across

these communities Yet this new coalition formation came at a cost Today coalitions across these communities have been largely reluctant to address issues of police brutality mass incarceration economic inequality and the ruthless immigrant regulatory complex Queer Alliances examines the extent to which grassroots groups bridged historic divisions based on race gender class and immigration status through the development of coalitions looking specifically at coalition building around expanding LGBTQ rights in Washington State and immigrant and migrant rights in Arizona Erin Mayo Adam traces the evolution of political movement formation in each state and shows that while the movements expanded they simultaneously ossified around goals that matter to the most advantaged segments of their respective communities Through a detailed multi method study that involves archival research and in depth interviews with organization leaders and advocates Queer Alliances centers local coalition based mobilization across and within multiple movements rather than national campaigns and court cases that often occur at the end of movement formation Mayo Adam argues that the construction of common political movement narratives and a shared core of opponents can help to explain the paradoxical effects of coalition formation On the one hand the development of shared political movement narratives and common opponents can expand movements in some contexts On the other hand the episodic nature of rights based campaigns can simultaneously contain and undermine movement expansion reinforcing movement divisions Mayo Adam reveals the extent to which inter and intra movement coalitions formed to win rights or thwart rights losses represent and serve intersectionally marginalized communities who are often absent from contemporary accounts of social movement formation
