Summary of Security Transactions and Holdings United States. Securities and Exchange Commission, 1985 *Official*

Journals, India) Global Institutes Amritsar and University of Mauritius, *Self-Initiated Expatriates in Context* Maike
Andresen, Chris Brewster, Vesa Suutari, 2020-10-01 This edited volume builds on the previously published *Self Initiated*
Expatriation Individual Organizational and National Perspectives which served to give in depth insights into the concept and
the processes of self initiated expatriation and presented different groups undertaking self initiated foreign career moves
While more than a hundred articles on self initiated expatriation SIE have been published in the meanwhile an examination of
the research questions and samples of SIEs in published SIE research shows that the role of context and its impact on SIEs
career related decisions and behaviors has not been explored sufficiently This raises the question in how far existing
research results are comparable The aim of this follow up volume is to deepen the understanding of SIEs careers focusing on
the contextual influences of space time and institutions on the heterogeneous SIE population More specifically the editors
aim to shed light on spatial conditions in terms of the home and host country conditions on the self initiated expatriation
experience and examine developments over time in terms of temporality of conditions and SIEs life course Moreover the
influence of the institutional context in terms of occupational organisational and societal specificities will be analysed All
chapters are based on strong theoretical foundations that serve to conceptualise context and are written by both established
and emerging global academics and researchers *Self Initiated Expatriates in Context* contributes to conceptual clarity in the
burgeoning field of SIE research by drawing attention to the importance of exploring context and thus boundary conditions to
careers It offers specific guidance for an improvement of future SIE related research in order to enhance the validity of
future empirical studies as well as for an improvement of managerial practice It will be of interest to researchers academics
practitioners and students in the fields of international business human resource management organisational studies and
