Libraries and the Mobile Web Cody Hanson,2011-03 In 2011 cell phones and mobile devices are ubiquitous The vast majority of Americans now own cell phones and over half of them have mobile access to the Internet through a phone or other mobile device For libraries to stay relevant they must be able to offer content and services through the mobile web In this issue of Library Technology Reports Cody Hanson provides a foundation for moving your library into the mobile world He provides a data based comprehensive explanation of why now is the time to get mobile and gives you the information you
