The New Right Michael Malice, 2019-05-14 The definitive firsthand account of the movement that permanently broke the American political consensus What do internet trolls economic populists white nationalists techno-anarchists and Alex Jones have in common Nothing except for an unrelenting hatred of evangelical progressivism and the so-called Cathedral from whence it pours forth Contrary to the dissembling explanations from the corporate press this movement did not emerge overnight nor are its varied subgroups in any sense interchangeable with one another As united by their opposition as they are divided by their goals the members of the New Right are willfully suspicious of those in the mainstream who would seek to tell their story Fortunately author Michael Malice was there from the very inception and in The New Right recounts their tale from the beginning Malice provides an authoritative and unbiased portrait of the New Right as a movement of ideas ideas that he traces to surprisingly diverse ideological roots From the heterodox right wing of the 1940s to the Buchanan Rothbard alliance of 1992 and all the way through to what he witnessed personally in Charlottesville The New Right is a thorough firsthand accounting of the concepts characters and chronology of this widely misunderstood sociopolitical phenomenon Today's fringe is tomorrow's orthodoxy As entertaining as it is informative The New Right is required reading for every American across the spectrum who would like to learn more about the past present and future of our divided political culture

Trial by Media Lieve Gies, 2025-02-24 This edited collection brings together scholars from criminology law media and communication studies politics and linguistics to consider the different meanings and dimensions of trial by media Trial by media remains an under researched and under conceptualised phenomenon This book sheds new light on the complex and evolving interfaces between courts media and justice It features original analysis of high profile cases of media trials including Nicola Bulley UK Lindy Chamberlain Australia Chris Dawson Australia Sanda Dia Belgium Dragan Vasiljkovi Australia and Roman Zadorov Israel Acknowledging the risks and benefits of heightened media scrutiny of the criminal justice system the book challenges the notion that trial by media is invariably incompatible with the requirements of natural justice It also foregrounds ways in which media trials routinely occur in the absence of a legal trial arguing that there is a need to broaden and rethink the concept of trial by media The book reflects on the enduring significance of legacy media for public perceptions of the law and the disruptive impact associated with digital media Furthermore the collection considers the implications of trial by media for the integrity of court proceedings and the protection of human rights It offers an assessment of the potential demise of court reporting and its traditional bridging function between courts and public opinion

Glass Ceilings and 100-hour Couples Karine S. Moe, Dianna J. Shandy, 2010 When significant numbers of college educated American women began in the early twenty first century to leave paid work to become stay at home mothers an emotionally charged national debate erupted Karine Moe and Dianna Shandy a professional economist and an anthropologist respectively decided to step back from the sometimes overheated rhetoric around the so called mommy wars They wondered what really inspired women to opt out and they wanted to gauge the phenomenon s genuine repercussions *Glass Ceilings and 100 Hour Couples* is the fruit of their investigation a rigorous accessible and sympathetic reckoning with this hot button issue in contemporary life Drawing on hundreds of interviews from around the country original survey research and national labor force data Moe and Shandy refocus the discussion of women who opt out from one where they are the object of scrutiny to one where their aspirations and struggles tell us about the far broader swath of American women who continue to juggle paid work and family Moe and Shandy examine the many pressures that influence a woman s decision to resign reduce or reorient her career These include the mismatch between child care options and workplace demands the fact that these women married men with demanding careers the professionalization of stay at home motherhood and broad failures in public policy But Moe and Shandy are equally attentive to the resilience of women in the face of life decisions that might otherwise threaten their sense of self worth Moe and Shandy find for instance that women who have downsized their careers stress the value of social networks of running with a pack of smart women who ve also chosen to emphasize motherhood over paid work

Fight to Win A.J. Withers, 2021-11-10T00:00:00Z AJ Withers draws on their own experiences as an organizer, extensive interviews with the Ontario Coalition Against Poverty (OCAP) activists and Toronto bureaucrats and freedom of information requests to provide a detailed account of the work of OCAP. This book shows that poor people's organizing can be effective even in periods of neoliberal retrenchment. Fight to Win tells the stories of four key OCAP homelessness campaigns: stopping the criminalization of homeless people in a public park, the fight for poor people's access to the Housing Shelter Fund, a campaign to improve the emergency shelter system and the City's overarching but inadequate Housing First policy and the attempt by the City of Toronto to drive homeless people from encampments during the COVID pandemic. This book shows how power works at the municipal level including the use of a multitude of demobilization tactics devaluing poor people as sources of knowledge about their own lives and gaslighting poor people and anti-poverty activists. AJ Withers also details OCAP's dual activist strategy: direct action casework coupled with mass mobilization for both immediate need and long-term change. These campaigns demonstrate the validity of OCAP's longstanding critiques of dominant homelessness policies and practices. Each campaign was fully or partially successful; these victories were secured by anti-poverty activists through the use of and the threat of direct disruptive action tactics.

Interactivity, Collaboration, and Authoring in Social Media

Krystina Madej, 2016-01-22 This book includes a short history of interactive narrative and an account of a small group collaboratively authored social media narrative, Romeo and Juliet on Facebook. After Love Comes Destruction, at the forefront of narrative innovation are social media channels: speculative spaces for creating and experiencing stories that are interactive and collaborative. Media, however, is only the access point to the expressiveness of narrative content. Wikis, messaging, mash-ups and social media (Facebook, Twitter, YouTube and others) are on a trajectory of participatory story creation that goes back many centuries. These forms offer authors ways to create narrative meaning that reflects our current media culture as the harlequinade reflected the culture of the 18th century and as the volvelle reflected that of the 13th century. Interactivity, Collaboration and Authoring in Social Media first prospects the last millennium for antecedents of today's authoring practices. It does so with a view to considering how today's digital manifestations are a continuation, perhaps a reiteration, perhaps a novel pioneering of humans abiding interest in interactive narrative. The book then takes the reader inside the process of creating a collaborative interactive narrative in today's social media through an authoring experience undertaken by a group of graduate students. The engaging mix of blogs, emails, personal diaries and fabricated documents used to create the narrative demonstrates that a social media environment can facilitate a meaningful and productive collaborative

authorial experience and result in an abundance of networked personally expressive and visually and textually referential content The resulting narrative After Love Comes Destruction based in Shakespeare s Romeo and Juliet shows how a generative narrative space evolved around the students use of social media in ways they had not previously considered both for authoring and for delivery of their final narrative artifact
