The Orb Iraqi Deaths Report:

Erasing Iraq Michael Otterman, Richard Hil, Paul Wilson, 2010-03-03 For nearly two decades the US and its allies have prosecuted war and aggression in Iraq Erasing Iraq shows in unparalleled detail the devastating human cost of the war in Iraq Western governments and the mainstream media continue to ignore or play down the human costs of the war on Iraqi citizens This has allowed them to present their role as the benign guardians of Iraqi interests The authors deconstruct this narrative by presenting a portrait of the total carnage in Iraq today From Iraqi refugees in Syria Jordan and the West to civilians left behind and other witnesses this the story of the war told by those who experienced it firsthand

Algorithms of Power Peter Ludes, 2011 The literature on bridging the semantic gap between mass and network mediated visuals and algorithms for their automatic identification and classification is growing and requires transdisciplinary contributions in Part I by eminent computer and social scientists In Part II scholars from the social sciences and journalism explore a few major landmarks of the vastly neglected and more challenging areas of soundscapes and multi sensory experiences as well as censorship

Censored 2010 Peter Phillips, Mickey Huff, Project Censored, 2011-01-04 The yearly volumes of Censored in continuous publication since 1976 and since 1995 available through Seven Stories Press is dedicated to the stories that ought to be top features on the nightly news but that are missing because of media bias and self censorship The top stories are listed democratically in order of importance according to students faculty and a national panel of judges Each of the top stories is presented at length alongside updates from the investigative reporters who broke the stories

The Contemporary US Peace Movement Laura Toussaint, 2008-11-04 As peace activists have faced increased government repression and accusations of being unpatriotic since 9 11 Toussaint examines how current attempts to control dissent impact the peace movement This study offers an analysis of self identified peace activists in terms of their demographic characteristics motivation for activism political opportunities and views of the peace movement It also discusses the processes involved in successfully mobilizing an increasingly diverse constituency and how broad based support can be sustained beyond reacting to crises

NEWSPEAK in the 21st Century David Edwards, David Cromwell, 2009-08-20 Media Lens mission is to correct the distorted vision of the liberal media A thorn in the side of the Guardian Independent Channel 4 and the BBC among many others it is constantly under counterfire by those it attacks These responses are collected in Newspeak They expose the arrogance and servility to power of our leading journalists and editors starring Andrew Marr Alan Rusbridger Roger Alton Jon Snow Jeremy Bowen and even George Monbiot Packed with forensic media analysis revealing the lethal bias in balanced reporting Even the best UK media turn out to be cheerleaders for government business and war Alongside an A Z of BBC propaganda and chapters on

Iraq and climate change Newspeak focuses on the demonisation of Iran and Venezuela the Israel Palestine conflict the myth of impartial reporting and the dark art of smearing dissidents **Censored 2011** Mickey Huff, Peter Phillips, Project Censored, 2011-01-04 The yearly volumes of Censored in continuous publication since 1976 and since 1995 available through Seven Stories Press is dedicated to the stories that ought to be top features on the nightly news but that are missing because of media bias and self censorship The top stories are listed democratically in order of importance according to students faculty and a national panel of judges Each of the top stories is presented at length alongside updates from the investigative reporters who broke the stories Iraq, Lies, Cover-Ups, and Consequences Rodney Stich, 2005-05 The author a former government agent and other former government agents detail the pattern of lies by White House politicians to support the invasion of Iraq the massive cover ups of the lies by U S politicians and most of the U S media and the dire consequences of these wrongful acts **Accountability for Killing** Neta Crawford, 2013-10 The unintended deaths of civilians in war are too often dismissed as unavoidable inevitable and accidental And despite the best efforts of the U S to avoid them civilian casualties in Afghanistan Iraq and Pakistan have been a regular feature of the United States wars after 9 11 In Accountability for Killing Neta C Crawford focuses on the causes of these many episodes of foreseeable collateral damage and the moral responsibility for them The dominant paradigm of legal and moral responsibility in war today stresses both intention and individual accountability Deliberate killing of civilians is outlawed and international law blames individual soldiers and commanders for such killing An individual soldier may be sentenced life in prison or death for deliberately killing even a small number of civilians but the large scale killing of dozens or even hundreds of civilians may be forgiven if it was unintentional incidental to a military operation The very law that protects noncombatants from deliberate killing may allow many episodes of unintended killing Under international law civilian killing may be forgiven if it was unintended and incidental to a militarily necessary operation Given the nature of contemporary war where military organizations training and the choice of weapons doctrine and tactics create the conditions for systemic collateral damage Crawford contends that placing moral responsibility for systemic collateral damage on individuals is misplaced She develops a new theory of organizational moral agency and responsibility and shows how the US military exercised moral agency and moral responsibility to reduce the incidence of collateral damage in America s most recent wars Indeed when the U S military and its allies saw that the perception of collateral damage killing was causing it to lose support in the war zones it moved to a population centric doctrine putting civilian protection at the heart of its strategy Trenchant original and ranging across security studies international law ethics and international relations Accountability for Killing will reshape our understanding of the ethics of contemporary war *The Oxford Handbook of the Economics of Peace and Conflict* Michelle R. Garfinkel, Stergios Skaperdas, 2012-04-20 This Handbook brings together contributions from leading scholars who take an economic perspective to study peace and conflict Some chapters are largely empirical exploring the correlates and

quantifying the costs of conflict Others are more theoretical examining the mechanisms that lead to war or are more conducive to peace
