The Nature Of Things:

The Nature of Things William A. Magee, 2000-05-02 Nature is a topic in many Indian and Tibetan philosophical texts although its meaning varies considerably in both Hindu and Buddhist scriptures The discussion of nature pursued in this book begins with Nagarjuna first century founder of the Middle Way School who refuted a fabricated nature in his Treatise on the Middle In that seminal text he puts forth the three basic criteria for nature it must be something that is non fabricated independent and immutable This book presents Dzong ka ba s discussion of the overly narrow object in his Great Exposition and relates that discussion to Nagarjuna s verses in Treatise on the Middle When combined with an understanding of an overly broad object to be negated this topic brings the Middle Way practitioner to a precise identification of the nonexistent object of negation nature as being a thing s establishment by way of its own entity This book also presents Dzong ka ba s more mainstream commentary on the subject in the Ocean of Reasoning sections which are translated in Part Two It also describes Dzong ka ba s strong reaction to the positive and independent nature asserted by Tibet s greatest synthesist Dol po Shay rap gyel tsen fourteenth century

Anderson, 2012-04-27 Were all asking the same kinds of questions with the same goal in mind How do I fit in How can I navigate life gracefully How can my life be more satisfying How can I experience more love joy awe and wonder By learning understanding and applying the inherent wisdom that we find in the natural world we can connect with people and with our planet with our own hearts and souls and create a life that is not only better for us as individuals but perhaps together create a world that works for everyone With simplicity and humor Jeff shows how the wisdom of nature can free us untangle us from the complexity of our ego driven lives This is the wisdom of the ordinary for each of us to treasure Allow these clear and profound teachings to awaken you so that you can glimpse the divine that is within you and all around Llewellyn Vaughan Lee Ph D Sufi teacher and author like a friendly sharing across a backyard fence or an informal exchange of insights across a cup of coffee Jeff Anderson has written about the times we live in the challenges we face and the kind of life and consciousness that may help us not just survive but prosper David Spangler author of Apprenticed to Spirit and Facing the Future A thought provoking humorous and touching collection of truly helpful ideas Dr Edward Viljoen author of Practice the Presence and Spirit Is Calling

The Nature of Things Anthony M. Quinton, 2019-03-07 Originally published in 1973 In this systematic treatise Anthony Quinton examines the concept of substance a philosophical refinement of the everyday notion of a thing Four distinct but not unconnected problems about substance are identified what accounts for the individuality of a thing what confers identity on a thing what is the relation between a thing and its appearances and what kind of thing is fundamental in the sense that its existence is logically independent of that of any other kind of thing In Part 1 the first two problems are discussed while in Part 2 the third and fourth are considered Part 3 examines four kinds of thing that have been commonly held to be in some way non material abstract entities the un observable entities of scientific theory minds and their states and finally values The author argues
