the DWP has taken steps to address this problem for example in the design of Pension Credit simplifying claim processes for several benefits and better sharing of information with local authorities these are rather piecemeal developments and it is difficult to tell whether the system as a whole has become more or less complex as there is currently no objective way of measuring it Some of the steps taken to simplify processes for customers are a way of managing complexity rather than eliminating it Managing complexity requires well trained staff supported by accessible guidance and assistance and efficient information technology systems and the DWP should also improve its written communications with customers
