The Digital Transformation of Labor Anthony Larsson, Robin Teigland, 2019-11-11 Through a series of studies the overarching aim of this book is to investigate if and how the digitalization digital transformation process causes or may cause the autonomy of various labor functions and its impact in creating or stymieing various job opportunities on the labor market This book also seeks to illuminate what actors groups are mostly benefited by the digitalization digital transformation and which actors groups that are put at risk by it This book takes its point of departure from a 2016 OECD report that contends that the impact digitalization has on the future of labor is ambiguous as on the one hand it is suggested that technological change is labor saving but on the other hand it is suggested that digital technologies have not created new jobs on a scale that it replaces old jobs Another 2018 OECD report indicated that digitalization and automation as such does not pose a real risk of destroying any significant number of jobs for the foreseeable future although tasks would by and large change significantly This would affects welfare as most of its revenue stems from taxation and particularly so from the taxation on labor directly or indirectly For this reason this book will set out to explore how the future technological and societal advancements impact labor conditions The book seeks to provide an innovative enriching and controversial take on how various aspects of the labor market can be and are affected the ongoing digitalization trend in a way that is not covered by extant literature As such this book intends to cater to a wider readership from a general audience and students to specialized professionals and academics wanting to gain a deeper understanding of the possible future developments of the labor market in light of an accelerating digitalization digital transformation of society at large

Chinese Law: Context and Transformation Jianfu Chen, 2015-12-04 China has changed and the continuing changes have not just been about economic development Among the many transformations there has been another quiet peaceful and largely successful but far from perfect revolution in the area of law whose deficiencies have been more often mercilessly examined and documented than have its historical achievements and significance This legal revolution is the subject matter of the present book Like the previous edition in 2008 it examines the historical and politico economic context in which Chinese law has developed and transformed focusing on the underlying factors and justifications for the changes It attempts to sketch the main trends in legal modernisation in China offering an outline of the principal features of contemporary Chinese law and a clearer understanding of its nature from a developmental perspective It provides comprehensive coverage of topics legal culture and modern law reform constitutional law legal institutions law making administrative law criminal law criminal procedure law civil law property family law contracts torts law on business entities securities bankruptcy intellectual property law on foreign investment and trade Chinese investment overseas dispute settlement and implementation of law Fully revised updated and considerably expanded this edition of Chinese Law Context and Transformation is a valuable and important resource for researchers policy makers and teachers alike

Service Learning, Educational Innovation and Social Transformation Bibiana Regueiro, Robert G. Bringle, Miguel A. Santos-Rego, 2022-02-15 *Change, Transformation and Development* J. Stan Metcalfe, Uwe Cantner, 2012-12-06 For as long as one can remember the edifice of the neoclassical economic synthesis has been under attack Critiques have focused on the extreme unreality of the assumptions that underpin the Arrow Debreu theorems of welfare economics They have queried the excessive formalism of the edifice and the lack of practical significance of many of the results They have castigated the neoclassical synthesis for its internal incoherence lacking an independent theory of capital for example one of the favorite topics of the Cambridge school its lack of a dynamic element its non evolutionary character its lack of any conception of market process and so the list could be continued Blaug 1997 Through all this the neoclassical synthesis remains as strong as ever impervious it seems to these or any other attacks In this paper a different tack is taken The neoclassical edifice is left alone standing as a representation of what goes on in a certain kind of economy namely the economy where goods and services are produced and exchanged The paper then introduces another kind of economy namely an economy of productive entities called resources that are needed to produce the economy of goods and services Out of Africa: Fashola-Reinventing Servant Leadership to Engender Nigeria's Transformation John M. O. Ekundayo PhD, 2013-04-30 This book focuses on the Servant Leadership practice as exemplified by Governor Babatunde Raji Fashola of Lagos State Nigeria Lagos State is the most populated about 21 million people in Nigeria Transformational strides have been witnessed by the people of Lagos State which are showcased in this book Dr Ekundayo John did his PhD on the Governor's leadership style conducting both quantitative and qualitative research studies spanning three years The outcome is the production of this book On China's Cultural Transformation Keping Yu, 2015-11-24 China's economy and social system has witnessed tremendous transformations since late 1970s So is China's culture Centering on the cultural transformations of China since late 1970s and covering diverse topics in the field this collection of articles presents a multi dimensional narrative on the dynamics dilemmas and characteristics involving this giant process
