Harold Scheub

What Are Some Fantasy S:

The Hysterical Sublime Matthew Flisfeder, 2025-06-26 Developing the concept of the hysterical sublime first theorised by Fredric Jameson to challenge posthumanist perspectives on the Anthropocene this book facilitates the rethinking of universal and dialectical humanism as concepts for grappling with 21st century capitalism In recent years posthumanist theories have been concerned with the overlapping dilemmas of global climate change digital automation and artificial intelligence corresponding to the age of the Anthropocene Matthew Flisfeder explores how the fear of technology becomes for Jameson a substitute for the fears of the capitalist system and shows that posthumanism displaces such fears onto the figure of the human and anthropocentrism Drawing on Hegelian Lacanian theory the book argues that to rethink dialectical humanism requires moving past the historicist versions of Marxist humanism that imagine a complete reconciliation with non human nature that includes a process of dis alienation Flisfeder also studies posthumanism s performative contradiction of dismissing humanism while at the same time depending on the very concepts that constitute the core of humanist thought freedom equality responsibility and autonomy Through the concept of the hysterical sublime this book argues that not only is anthropocentrism and humanism the unconscious core of posthumanist theory emancipatory politics must take ownership of this perspective and renew universalist and dialectical humanism as the core of the political project resistant to capitalism and the Capitalocene

Handbook of Aggressive and Destructive Behavior in Psychiatric Patients Robert T. Ammerman, Michel Hersen, L.A. Sisson, 2012-12-06 Scarcely a day passes without the media detailing some form of human aggression whether it be on its grandest scale in the form of war random bombings and shootings in the streets torture in a prison camp murder by gangs wife abuse resulting in the murder of the husband or the physical abuse of children sometimes resulting in their death Frequently perpetrators of human aggression when arrested and tried in court resort to a psychiatric defense But are all such aggressors indeed appropriately psychiatric patients And if so what are their particular diagnoses and how do these relate to aggression Also of concern is aggression directed against self as evidenced in the rising incidence of suicide among young people or the self mutilation of patients suffering from certain personality disorders Both violence directed outward and aggression toward oneself pose considerable challenges to clinical management whether in the therapist s office or in the inpatient unit Although we have not been able to find successful deterrents to aggression a sizeable body of evidence does exist certainly of a descriptive nature Such data for psychiatric patients are scattered however and can be found in literatures as diverse as the biological ethological epidemiological legal philosophical psychological psychiatric and criminological Therefore given the increased frequency with which mental health professionals encounter cases of violence in their day to day work we believed it important that existing data be adduced in one comprehensive volume

Book Review Digest, 1927

What Does It Mean to 'Make' Love? Gérard Pommier, 2024-10-25

What Does It Mean to Make Love shows how the choice of gender does not conform to anatomy and is based on an often

unrecognised psychic bisexuality Everyone chooses a gender by repressing another gender which becomes the site of both an attraction and a conflict a war of the sexes the contingencies of which animate desire G rard Pommier explores phantasy desire and perversion and their role in sexual machinery before considering the question of orgasm Pommier s work demonstrates that the analysis of orgasm brings out a political dimension and that aspects of both social and personal life are illuminated by the study of how we think consciously and unconsciously about orgasm and the role we ascribe to it This book makes valuable contributions to the study of sexuality and will be of interest to all psychoanalysts and students of

psychoanalysis as well as those in the fields of gender studies anthropology and psychology **Reading Freud** Tony Thwaites, 2007-07-12 Cultural theory has found a renewed interest in psychoanalysis bringing many new readers to Freud and his work This book is an introductory guide to Freud and brings together for the first time an overview of Freud s work which enables the reader to see quickly where and in which texts Freud develops his main ideas a guide to reading Freud and to what can be done with the complexities of his texts an examination of what recent cultural theory draws from Freud and of why psychoanalysis is of interest for it a discussion about the Freud revealed by recent cultural theory an extensive selection of extracts from Freud s texts with commentary This book is the definitive guide to the content of Freud s texts what s there and where to find it It will have wide appeal to students new to Freud in cultural studies literary theory philosophy and sociology [Handbook of Therapeutic Imagery Techniques](#) Anees Ahmad Sheikh, 2020-02-20 Consists of a

description of a multitude of imagery techniques that have been grouped into four categories hypno behavioral cognitive behavioral psychodynamic humanistic and humanistic transpersonal **Living Together - Roland Barthes, the Individual and the Community** Knut Stene-Johansen, Christian Refsum, Johan Schimanski, 2018-09-13 Is it possible to create a community where everyone lives according to their own rhythm and yet respects the individual rhythms of others This volume contains new essays which investigate and actualize the concepts that Roland Barthes discussed in his famous 1977 lecture series on How to Live Together at the Coll ge de France The anthology presents original and thought provoking approaches to questions of conviviality and idiorrhythmic life forms in literature arts and other media The essays are written by 32 highly competent scholars from seven countries representing literary studies philosophy social sciences theology church history psychoanalysis art history architecture media studies history of ideas and biology *Disorders of the Self*

James F. Masterson, M.D., Ralph Klein, M.D., 2013-06-17 A testament to the vitality of the Masterson Approach to the study and treatment of the disorders of the self this incisive volume documents the evolution of Masterson s theoretical and clinical work during the past five years It is comprised of writings by a second generation of clinicians who both carry on and expand the horizons of the Masterson Approach Disorders of the Self addresses four new areas of great clinical importance from the perspective of developmental self and object relations theory First Ralph Klein Clinical Director of the Masterson Institute has combined the work of Fairburn and Guntrip with the Masterson Approach to develop and updated broader original and

clinically useful concept of the Schizoid Disorders of the Self The force of his approach is illustrated by the focus on the schizoid dilemma and the schizoid compromise vividly depicted with detailed clinical applications Candace Orcutt Senior Faculty Member in the Masterson Institute along with a colleague then apply the Masterson Approach to the controversial topic of early abuse physical and or sexual to the developing self Diagnosis and treatment of narcissistic pathology is the focus of section three Chapters further refine and expand how the disorders of the self triad self activation leads to anxiety and depression which lead to defenses operate in both the patient s life and in the therapeutic relationship The authors identify and illustrate critical points in treatment detail the technical approach to the closet narcissistic personality disorder and address the therapeutic management of devaluation and disappointment reactions along with the countertransference reactions they evoke The volume concludes by delving into arenas beyond individual psychotherapy for disorders of the self An innovative approach to group therapy combines the Masterson Approach with that of W Bion and authors examine the complexities of drug therapy and comorbidity and their interaction with psychodynamic forces Disorders of the Self will be a vital addition to the armamentarium of any clinician who works with personality disorders It demonstrates the continued expansion and evolution of a profound theoretical and clinical paradigm the Masterson Approach aimed at penetrating and healing the disorders of the self

The Psychosis of Race Jack Black,2023-12-01 The Psychosis of Race offers a unique and detailed account of the psychoanalytic significance of race and the ongoing impact of racism in contemporary society Moving beyond the well trodden assertion that race is a social construction and working against demands that simply call for more representational equality The Psychosis of Race explores how the delusions anxieties and paranoia that frame our race relations can afford new insights into how we see think and understand race s pervasive appeal With examples drawn from politics and popular culture such as Candyman Get Out and the music of Kendrick Lamar critical attention is given to introducing as well as explicating on several key concepts from Lacanian psychoanalysis and the study of psychosis including foreclosure the phallus Name of the Father sinthome and the objet petit a By elaborating a cultural mode to psychosis and its understanding an original and critical exposition of the effects of racialization as well as our ability to discern the very limits of our capacity to think through or even beyond the idea of race is provided The Psychosis of Race speaks to an emerging area in the study of psychoanalysis and race and will appeal to scholars and academics across the fields of psychology sociology cultural studies media studies and the arts and humanities

Sex for Structuralists Shanna de la Torre,2018-08-03 This book argues that structuralism makes itself useful when it engages with the non Oedipal logics of femininity and psychosis Building from the psychoanalytic belief that norms repress unconscious desire while structures open onto the creative resources of the symbolic *Sex for Structuralists* looks to key texts in myth trauma and unconscious fantasy by Sigmund Freud Jacques Lacan and Claude L vi Strauss It also examines innovative writings by contemporary Lacanian thinkers in order to discover what becomes of structuralism when the ground upon which it ostensibly stands namely that of

the zero symbol or the incest prohibition drops out from under it **The Journal of Mental Science** ,1925

Counselling People on the Autism Spectrum Katherine Paxton,Irene Estay,2007-04-15 This manual provides counselling techniques that work for professionals but also for individuals coping with being on the spectrum themselves or living with someone with an ASD It shows how to develop the tools to help people on the spectrum cope with their emotions anxieties and confusion about the often overwhelming world around them **Humanity in a Black Mirror** Jacob

Blevins,Zahi Zalloua,2023-01-03 The presentation of technology as a response to human want or need is a defining aspect of Black Mirror a series that centers the transhumanist conviction that ontological deficiency is a solvable problem The articles in this collection continue Black Mirror s examination of the transhuman need for plentitude addressing the convergence of fantasy the posthuman and the dramatization of fear The contributors contend that Black Mirror reveals both the cracks of the posthuman self and the formation of anxiety within fantasy s empty yet necessary economy of desire The strength of the series lies in its ability to disrupt the visibility of technology no longer portraying it as a naturalized unseen background affecting our very being at the ontological level without many of us realizing it This volume of essays argues that this negative lesson is Black Mirror s most successful approach It examines how Black Mirror demonstrates the Janus like structure of fantasy as well as how it teaches unteaches and reteaches us about desire in a technological world

Exploring the Dimensions of Human Sexuality , *The New Statesman* ,1917 **Reading Freud** Jean-Michel Quinodoz,2005 Reading Freud provides an accessible outline of the whole of Freud s work which succeeds in expressing even the most complex of Freud s theories in clear and simple language whilst avoiding over simplification **The Uncoiling**

Python Harold Scheub,2010-06-05 There are many collections of African oral traditions but few as carefully organized as The Uncoiling Python Harold Scheub one of the world s leading scholars of African oral traditions and folklore explores the ways in which oral traditions have served to combat and subvert colonial domination in South Africa From the time colonial forces first came to southern Africa in 1487 oral and written traditions have been a bulwark against what became 350 years of colonial rule characterized by the racist policies of apartheid The Uncoiling Python South African Storytellers and Resistance is the first in depth study of oral tradition as a means of survival In open insurrections and other subversive activities Africans resisted the daily humiliations of colonial rule but perhaps the most effective and least apparent expression of subversion was through indigenous storytelling and poetic traditions Harold Scheub has collected the stories and poetry of the Xhosa Zulu Swati and Ndebele peoples to present a fascinating analysis of how the apparently harmless tellers of tales and creators of poetry acted as front line soldiers *The Journal of Neurology and Psychopathology* ,1925

Lacan with the Philosophers Ruth Ronen,2018-03-01 Closely examining Jacques Lacan s unique mode of engagement with philosophy Lacan with the Philosophers sheds new light on the interdisciplinary relations between philosophy and psychoanalysis While highlighting the philosophies fundamental to the study of Lacan s psychoanalysis Ruth Ronen reveals

how Lacan resisted the straightforward use of these works Lacan's use of philosophy actually has a startling effect in not only providing exceptional entries into the philosophical texts of Aristotle Descartes Kant and Hegel but also in exposing the affinity between philosophy and psychoanalysis around shared concepts including truth the unconscious and desire and at the same time affirming the irreducible difference between the analyst and the philosopher Inspired by Lacan's resistance to philosophy Ruth Ronen addresses Lacan's use of philosophy to create a fertile moment of exchange Straddling the fields of philosophy and psychoanalysis with equal emphasis Lacan with the Philosophers develops a unique interdisciplinary analysis and offers a new perspective on the body of Lacan's writings
