The Master And His Emissary:

The Master and His Emissary Iain McGilchrist, 2019-03-26 A new edition of the bestselling classic published with a special introduction to mark its 10th anniversary This pioneering account sets out to understand the structure of the human brain the place where mind meets matter Until recently the left hemisphere of our brain has been seen as the rational side the superior partner to the right But is this distinction true Drawing on a vast body of experimental research Iain McGilchrist argues while our left brain makes for a wonderful servant it is a very poor master As he shows it is the right side which is the more reliable and insightful Without it our world would be mechanistic stripped of depth colour and value *Teaching in a World of Violent Extremism* Eleazar S. Fernandez, 2021-05-21 Violent extremism is not new but we have witnessed its rise to the point that it has become a defining issue of our time We cannot brush it aside any longer it characterizes who we are as a people and as a global society Why is violent extremism rising What are its drivers and triggers These questions must be asked and answered first and *Teaching in a World of Violent Extremism* takes up the questions and the answers In an effort to end violent extremism the next questions that must be pursued are these How shall we prevent and undo extremism especially the militant and violent kind In this world of violent extremism what curriculum designs educational programs and pedagogies shall we employ to develop competent citizens civic leaders and pastors as well as resilient communities **The Aesthetics of Discipleship** Adrian Coates, 2021-09-30 Discipleship is embodied Formation in the Christian life is not an otherworldly exercise but one that plays out in this world interwoven with everyday sensory experience in ordinary life *The Aesthetics of Discipleship* explores this dynamic through Kierkegaard s framing of aesthetic existence the sensory experience of being in the moment further developed by Bonhoeffer as operating within a realm of freedom encompassing not only art but play friendship and cultural formation In addition to Kierkegaard and Bonhoeffer the work of Iain McGilchrist Graham Ward and Nicholas Wolterstorff is employed to offer a fresh perspective on discipleship from below Everyday sensory experiences are integral not only to being human but to the practice of discipleship such that discipleship integrates aesthetic ethical and religious existence Aesthetic existence unhinged from a life of faith or fueled by distorted Christendom creates and sustains aestheticized pseudorealities centered on the self Mature aesthetic existence however anchored in love for God plays a fundamental role in the Christian life both as the incarnational celebration of being fully human and also through the preconscious formation of imaginaries by which we live *The Kingdom, the Power and the Glory : Western Yoga* Craig J. Leggat, Sally M. Blair, 2020-08-20 Western Yoga has been taught for about 3 000 years It is the source of western civilisation and democracy Western Yoga is very different to the yoga of India that is taught in yoga schools today around the world Pythagoras Socrates Plato and Aristotle learned Western Yoga and then taught it in their Mystery Schools *Themelios, Volume 36, Issue 1* D. Biolinguistics and Philosophy: Insights and Obstacles Elliot Murphy, 2012-11-09 This study explores the current stage of generative linguistics the Minimalist Program and examines its philosophical implications tracing the basic themes back to the seventeenth century scientific revolutions and the nineteenth century biological tradition of formalism Expositions of the philosophy of biolinguistics have previously been few and short and exploring the insights of recent theoretical linguists and neurobiologists can shed some much needed light on the problems posed by analytical philosophy such as traditional questions of reference and truth

Sacred Architecture in a Secular Age Marie Clausén, 2016-02-26 Having won more than one recent poll as Britain's best loved building the appeal of Durham Cathedral appears abiding which begs the question whether an iconic sacred building can retain meaning and affective pertinence for contemporary secular visitors Using the example of Durham Cathedral this book sets out to explore wherein the appeal of historic churches lies today and considers questions of how and why their preservation into a post Christian era should be secured By including feedback from visitors to the cathedral and the author's own very personal account of the cathedral in the form of an ekphrasis this work seeks to privilege an interpretation of architecture that is based on the individual experience rather than on more conventional narratives of architecture history and cultural heritage policy Recognising the implication of our choice of narrative on the perceived value of historic churches is crucial when deliberating their future role This book puts forth a compelling case for historical sacred architecture suggesting that its loss through imperceptive conservation practices as much as through neglect or demolition would diminish us all secularists atheists and agnostics included

Spatial Engagement with Poetry H. Yeung, 2015-03-05 Drawing from a broad range of contemporary British poets including Thomas Kinsella Kathleen Jamie and Alice Oswald this study examines the inherently spatial and affective nature of our

engagement with poetry Adding to the expanding field of geocritical studies Yeung specifically discusses ideas of space and constructions of voice in poetry **Rise Up - with Wings Like Eagles** Chris Sunderland,2016-12-09 At a time of great importance in the history of life on the planet human beings find themselves with enormous economic and technological power but also with a terrible inner weakness This book takes a careful look at our vulnerability and proposes some radical new pathways towards a life more in harmony with the natural world **The Divided Brain and the Search for Meaning** Iain McGilchrist,2012-07-15 In this 10 000 word essay written to complement Iain McGilchrist s acclaimed *The Master and His Emissary* the author asks why despite the vast increase in material well being people are less happy today than they were half a century ago and suggests that the division between the two hemispheres of the brain has a critical effect on how we see and understand the world around us In particular McGilchrist suggests the left hemisphere s obsession with reducing everything it sees to the level of minute mechanistic detail is robbing modern society of the ability to understand and appreciate deeper human values Accessible to readers who haven t yet read *The Master and His Emissary* as well as those who have this is a fascinating immensely thought provoking essay that delves to the very heart of what it means to be human

Hegel and Religious Faith Andrew Shanks,2011-04-14 This polemical advocacy of Hegel s religious thought It presents Hegel s religious thought as a living still urgent challenge for today and confronts the major theological and philosophical objections to Hegel in a fresh way **The Divided Therapist** Rod Tweedy,2020-10-06 This important new book explores the nature of the divided brain and its relevance for contemporary psychotherapy Citing the latest neuroscientific research it shows how the relationship between the two hemispheres of the brain is central to our mental health and examines both the practical and theoretical implications for therapy Disconnections dissociations and imbalances between our two hemispheres underlie many of our most prevalent forms of mental distress and disturbance These include issues of addiction autism schizophrenia depression anorexia relational trauma borderline and personality disorders psychopathy anxiety derealisation and devitalisation and alexithymia A contemporary understanding of the nature of the divided brain is therefore of importance in engaging with and treating these disturbances Featuring contributions from some of the key authors in the field *The Divided Therapist* suggests that hemispheric integration lies at the heart of the therapeutic process itself and that a better understanding of the precise mechanisms that underlie and enable this integration will help to transform the practice of psychotherapy and psychoanalysis in the twenty first century The book will be essential reading for any therapeutic practitioner interested in how the architecture of the brain informs and effects their client s issues and challenges

Wholeheartedness Chuck DeGroat,2016 I m being pulled in a thousand different directions As a therapist Chuck DeGroat hears that line all the time I hear it from students and software developers he says I hear it from spiritual leaders and coffee baristas And I hear it from my own inner self We all feel that nasty pull to and fro the frantic busyness that exhausts us and threatens to undo us And we all think we know the solution more downtime more relaxation more rest And we re all wrong

As DeGroat himself has discovered the real solution to what pulls us apart is wholeheartedness a way of living and being that can transform us from the inside out And that s what readers of this book will discover too **Religion at Play** Andre Droogers,2015-03-26 Is a powerful position a guarantee that a religion will continue Does God take sides in religious power struggles Can God survive religious exclusivity and diversity Is God migrating from out there to in here Is religion sustainable in the long run In seeking answers to these questions this book explores the possibilities afforded by playful religion Religion has playful origins but this aspect is forgotten as soon as institutional power becomes self serving instead of subservient Power changes the very essence of religion Virtually all religions are distorted versions of a playful original Institutionalization is religion s curse not its blessing Apparent success hides the failure of religion to be faithful to its original intent This book helps find the way back from bordering to inclusivity and openness **Cirpit Review.**

Monographs n. 3 - 2016 Aa. Vv.,2016-06-21T00:00:00+02:00 This book is a tribute to Scott Thomas Eastham from his family former students and colleagues at Massey University in Palmerston North New Zealand where he lectured in the department of English and Media Studies for 19 years Education as Gift Damian Ruth,2024-04-22 Education is about human flourishing and explores meaning purpose and values As a holistic and integral practice for developing sustained attention and concentration education is profoundly antithetical to the market and it is not a technological domain The combination of markets and technology in the pursuit of efficiency destroys the potential of education to help societies nurture well being This book dives deeply into the overlapping crises of education today The author draws on decades of experience and many disciplines to celebrate the spirit of education and to frame it as a gift **On the Mind and Freedom** Elliot Murphy, **Ecstatic Pessimist** Peter Dale Scott,2023-02-28 Ecstatic Pessimist is a timely book about the Central and Eastern European experience of the mid 20th century as told through the poetry and experiences of Czeslaw Milosz Nobel Laureate for literature who wrote on the horrors of war and the human experience Written by a colleague and friend of the poet it is part literary criticism and part memoir This biography memoir of Czeslaw Milosz is a first hand account of the poet s life and his relationship to the author beginning in the 1960s Milosz was a Polish American poet prose writer translator and diplomat Regarded as one of the great poets of the 20th century he won the 1980 Nobel Prize in Literature In its citation the Swedish Academy called Milosz a writer who voices man s exposed condition in a world of severe conflicts Ecstatic Pessimist expands on Czeslaw Milosz s commitment to unpolitical politics working for a revolution in culture and above all poetry as a necessary preparation for a revolution in politics This is a familiar notion in Poland which for two centuries was politically divided but poets preserved and enhanced a lively Polish consciousness And as the book shows Milosz took steps over two decades to help reunite Poles in the successful Solidarity movement whose struggle eventually changed the regime and forced the Soviet armies to withdraw But the book is designed to encourage a similar development in America Milosz s ambition for poetry may at first sound exotic but as the book says it is in the spirit of what John Adams wrote late in life to

Thomas Jefferson The American revolution was in the mind of the people and in the union of the colonies both of which were accomplished before the hostilities commenced Though the book is also designed for those who already know and love Milosz it is primarily written for those looking for someone whose genius could similarly inspire Americans of both left and right to unite in restoring the badly broken politics of this country The book argues that Czeslaw Milosz is that genius as perhaps the only person who has been praised by intellectual leaders like Chris Hedges on the left and has also spoken at Hillsdale College the intellectual citadel of the American right

When the Vibration Begins Sjahari Hollands, 2025-07-30 Most of the ancient myths and origin stories concur that before anything existed there was a vibration A light When I was 23 I was opened in Subud and began the Latihan making a connection to what I believe to be that same vibration My book is a collection of poems reflections and life stories flowing from this experience

The Ontological Self Dr. Cody Newman, Everyone has a different answer for what the Self is But do they have any idea what it really is Is the Self actually the fundamental unit of existence Many people are happy to believe that the universe is made of matter What would it mean to say that the universe is made of mind If material atoms are made of subatomic particles what would immaterial minds be made of The only thing a mind can be made of is thoughts After all that's what a mind does It thinks What does thinking mean It means using thoughts It means combining atomic thoughts into molecular thoughts In physics string theory claims that reality is made up of infinitesimally small one dimensional vibrating strings As the strings vibrate twist fold come together and split apart they produce all the effects that traditional physics addresses all the stuff to do with atoms and their interactions and including large scale material phenomena like gravity But what if the real strings were actually zero dimensional rather than one dimensional and immaterial rather than material What if they were actually what thoughts are and so to say that physics arises out of material strings could be replaced by the statement that physics is made out of immaterial thoughts Where strings are one dimensional extended and material thoughts are zero dimensional unextended and immaterial but their combinations produce dimensional material extended things thanks to the incredible properties of phase in ontological Fourier mathematics All you have to do to replace materialism reality is made of matter with idealism reality is made of mind is to reduce scientific strings to their analytic mental equivalents which turn out to be sinusoidal waves which exist in the mathematical precursor domain that serves as the origin the cause of the domain of physics Mathematics in itself is a dimensionless Singularity system Ontological mathematics is the subject that deals with the mathematical Singularity that precedes the Big Bang This Singularity when properly understood comprises autonomous selves called monads made of basis thoughts which are none other than sinusoidal waves The self is an eternal and necessary entity It has existed forever and it with its fellow selves is the author of everything We inhabit a universe of mental selves not of physical matter Selves create matter Matter does not create selves
