The Moabites who are the Moors Sheik Way-El, 2017-06-04

The Moors are descendants of the ancient Moabites For many years this claim made by Prophet Noble Drew Ali founded of the Moorish Science movement in America was laughed at and scoffed at The thoughts of Moab strictly being confined to a people invented by the biblical codex writers seemed absurd and rather obscure However Noble Drew Ali was not linking the people falsely called Black to a biblical people instead he was linking them to a historical people whom the bible mentions in a distorted way within its texts From here the plan of these seeking racism and oppression via their Bibles become clear especially here in America This book squashes all doubt about the Moors of America also called African Americans and their connection to the ancient Moabites

Making Sense of the Intercultural Adrian Holliday, Sara Amadas, 2019-11-19 In this book we wish to find a new way of talking about connecting and operationalising the third space narratives positioning and interculturality Our purpose is to shake established views in what we consider to be an urgent quest for dealing with prejudice We therefore seek to draw attention to the following How Centre structures and large culture boundaries are sources of prejudice How deCentred intercultural threads address prejudice by dissolving these boundaries How in everyday small culture formation on the go the cultural and the intercultural are observable and become indistinguishable How agency personal and grand narratives discourses and positioning become visible in unexpected ways How we researchers also bring competing narratives in making sense of the intercultural How third spaces are discordant and uncomfortable places in

which all of us must struggle to achieve interculturality This book is therefore a journey of discovery with each chapter building on the previous ones While throughout there are particular empirical events interviews reconstructed ethnographic accounts and research diary entries with their own detailed analyses and insights they connect back to discussion in previous chapters *The modern part of An universal history, from the earliest accounts to the present time*, 1784 **Reports of**
