Meaning of Adult Education Eduard Christian Lindeman,2013-08-08 The Meaning of Adult Education By Eduard Christian Lindeman Each of us wrote Anatole France must even be allowed to possess two or three philosophies at the same time for the purpose I presume of saving our thought from the deadly formality of consistency No one can write about education particularly adult education without deserting at various points all schools of pedagogy psychology and philosophy In congruities are obvious one cannot for example be a determinist and at the same time advocate education nor can idealism be made to fit the actualities of life without recognition of the material limitations which surround living organisms One cannot that is make use of these opposed points of view if they are conceived to be mutually exclusive But it is precisely because I do not so regard them that all are included in this essay Light comes from learning just as creation comes everywhere through integrations syntheses not through exclusions The essay which follows will be best understood in the light of personal experience My formal education began at the age of twenty one after I had spent twelve years in various occupations and industries I could of course speak the English language at least the Americanized version which workers used but it was not my natural medium of communication My initiation to formal education was next to the unsuccessful attempt to adjust myself to automatic machines the most perplexing and baffling experience of my existence The desire somehow to free education from stifling ritual formalism and institutionalism was probably born in those frantic hours spent over books which mystified and confused my mind I had already earned my way in the world from the age of nine had learned the ship building trade had participated in strikes and somehow none of the learning I was asked to do seemed to bear even the remotest relation to my experience Out of this confusion worse confounded confusion someone has called it grew the hope that someday education might be brought out of college halls and into the lives of the people who do the work of the world Later I came to see that these very people who perform productive tasks were themselves creating the experience out of which education might emerge In 1920 I visited Denmark not primarily to study education but to pick up lost ancestral threads a quest which arose from my dislocated youth Here I came into contact with a civilization which by sheer contrast with hate ridden Europe seemed like a cultural oasis in the desert of nationalism Whereas the victorious nations were grasping for territory Danish statesmen were conducting a scientific study to determine Windham Press is committed to bringing the lost cultural heritage of ages past into the 21st century through high quality reproductions of original classic printed works at affordable prices This book has been carefully crafted to utilize the original images of antique books rather than error prone OCR text This also preserves the work of the original typesetters of these classics unknown craftsmen who laid out the text often by hand of each and every page you will read Their subtle art involving

judgment and interaction with the text is in many ways superior and more human than the mechanical methods utilized today and gave each book a unique hand crafted feel in its text that connected the reader organically to the art of bindery and book making We think these benefits are worth the occasional imperfection resulting from the age of these books at the time of scanning and their vintage feel provides a connection to the past that goes beyond the mere words of the text The Meaning of Adult Education.
