The Metamorphosis Bantam Classics:

The Metamorphosis Franz Kafka, 2004 Writings by and about Kafka and textual notes accompany his translations of his early twentieth century work

Metamorphosis Franz Kafka, 2014-03-20 Few 20th century novelists can have been subjected to quite as much dissection and analysis as Franz Kafka Nor can many have bestowed such a powerful and pervasive version of reality through their writing so much so that the term Kafkaesque is now commonly used to describe situations or environments in modern society Being a Czech Jew trapped approximately between Stalin's Russia and Hitler's Germany both temporally and geographically it is perhaps not surprising he was obsessed with state control and persecution of individuals All three of his novels *The Trial* *The Castle* and *Amerika* reflect this and perhaps foreshadow what was about to happen in a world that became even more nightmarish than even Kafka's universe The novella *Metamorphosis* arguably his most famous work looks at a more microcosmic example of alienation and rejection All of Kafka's writings are hugely allegorical devising elaborate metaphors for authority society and the human condition In *Metamorphosis* the metaphor is for illness and difference when the story's protagonist awakes one morning to find himself transformed into a giant insect How his life and relationships change and how people react to him over a period of time is a parable of human callousness and indifference and could be seen as a chilling precursor to the Holocaust and Stalin's terror Being a Jew himself Kafka would already have known something of anti-Semitism and discrimination even hatred The Russians had been persecuting the Jews with their pogroms for centuries the German attempt at genocide was about to start and perhaps Kafka had a foreboding of the way the world was heading and the tragic and pivotal role that Jews would unwillingly play *Metamorphosis* stands as a fascinating exploration of difference cruelty and ultimately inertia Nazi Germany gave it an unlooked for and terrible manifestation in the real world where the stuff of horror and twisted fantasy became sickening reality for many while others denied or passed by on the other side of the street

The Metamorphosis Franz Kafka, 1972-02-01 When Gregor Samsa woke up one morning from unsettling dreams he found himself changed in his bed into a monstrous vermin With this startlingly bizarre yet surprisingly funny first sentence Kafka begins his masterpiece *The Metamorphosis* It is the story of a young man who transformed overnight into a giant beetlelike insect becomes an object of disgrace to his family an outsider in his own home a quintessentially alienated man A harrowing though absurdly comic meditation on human feelings of inadequacy guilt and isolation *The Metamorphosis* has taken its place as one of the most widely read and influential works of twentieth century fiction As W H Auden wrote Kafka is important to us because his predicament is the predicament of modern man

From Freud To Kafka Philippe Refabert, 2018-05-15 This book takes the reader on a captivating journey leading from an erroneous founding assumption inherited from Freud to the proposal of a principle better suited to allowing the

psychoanalyst to accompany the patient out of his impasse The founding assumption of the book already questioned by many analysts among whom Sandor Ferenczi figures as a brilliant forerunner was the author's starting point in re-examining the basic precepts of psychoanalysis Reading Kafka made the author conclude that this masterful storyteller describes borderline situations so familiar to him better than anyone An avid reader of Freud Kafka suggests that the human capacity to bear a paradoxical position between life and death is not given to the child naturally at birth Kafka seems to say that giving life is easy but that giving it the necessary support in the form of the trace of death is more problematic
