The Quest for

a Historical Jesus Methodology Michael Vicko Zolondek, 2023-10-13 Throughout the quest for the historical Jesus there has been a parallel quest aimed at discovering new and improved methodologies for studying his life This methodological quest was originally driven by the belief that the Gospels are so unique even sui generis among the literary works of their time that such historical experimentation to use Schweitzer's words is necessary for the task of reconstructing Jesus's life Although most scholars today characterize the Gospels as a form of Graeco Roman biography rather than sui generis literature they nevertheless have continued this quest for new methodologies This has left historical Jesus studies in a problematic methodological state In this book Zolondek argues that if the Gospels are indeed types of Graeco Roman biographies of Jesus then no such experimentation is necessary Rather historical Jesus scholars should instead be adopting the standard methodological practices that historians and classicists have for decades used to effectively reconstruct the lives of other ancient persons who were also the subjects of Graeco Roman biographies After providing examples of three

such methodological practices Zolondek goes on to offer suggestions as to how scholars might apply them to the study of Jesus and in doing so end their long running methodological quest

The Oxford Handbook of History and International Relations Mlada Bukovansky, Edward Keene, Christian Reus-Smit, Maja Spanu, 2023-08-08

Historical approaches to the study of world politics have always been a major part of the academic discipline of International Relations and there has recently been a resurgence of scholarly interest in this area This Oxford Handbook examines the past and present of the intersection between history and IR and looks to the future by laying out new questions and directions for research Seeking to transcend well worn disciplinary debates between historians and IR scholars the Handbook asks authors from both fields to engage with the central themes of modernity and granularity Modernity is one of the basic organising categories of speculation about continuity and discontinuity in the history of world politics but one that is increasingly questioned for privileging one kind of experience and marginalizing others The theme of granularity highlights the importance of how decisions about the scale and scope of historical research in IR shape what can be seen and how one sees it Together these themes provide points of affinity across the wide range of topics and approaches presented here The Handbook is organized into four parts The first Readings gives a state of the art analysis of numerous aspects of the disciplinary encounter between historians and IR theorists Thereafter sections on Practices Locales and Moments offer a wide variety of perspectives from the longue dur e to the ephemeral individual moment and challenge many conventional ways of defining the contexts of historical enquiry about international relations Contributors come from a range of academic backgrounds and present a diverse array of methodological and philosophical ideas as well as their various historical interests

The Oxford Handbooks of International Relations is a twelve volume set of reference books offering authoritative and innovative engagements with the principal sub fields of International Relations The series as a whole is under the General Editorship of Christian Reus Smit of the University of Queensland and Duncan Snidal of the University of Oxford with each volume edited by specialists in the field The series both surveys the broad terrain of International Relations scholarship and reshapes it pushing each sub field in challenging new directions Following the example of Reus Smit and Snidal s original Oxford Handbook of International Relations each volume is organized around a strong central thematic by scholars drawn from different perspectives reading its sub field in an entirely new way and pushing scholarship in challenging new directions
