Macdonald, Anne McWhir, 2010-03-04 The selections from 132 authors in this anthology represent gender social class and racial and national origin as inclusively as possible providing both greater context for canonical works and a sense of the era s richness and diversity In terms of genre poetry non fiction prose philosophy educational writing and prose fiction are included Geographically America Canada Australia India and Africa are represented along with Britain emphasizing Romantic literature as a world literature Biographical headnotes explanatory footnotes and an extensive bibliography clarify and illuminate the texts for readers , **The Cambridge Companion to the Novel** Eric Bulson, 2018-06-28 This Companion focuses on the novel as a global genre and examines its role impact and development **The Matrophobic Gothic and Its Legacy** Deborah D. Rogers, 2007 Although in recent years maternity has become a contested site of political discourse the matrophobia that characterizes many mother daughter bonds has hardly been theorized This book defines matrophobia as fear of mothers as fear of becoming a mother and as fear of identification with and separation from the maternal body Deborah D Rogers argues that matrophobia is the central metaphor for women s relationships with each other within a patriarchal culture Analyzing different contexts in which matrophobia problematizes feminism this book begins with matrophobic discourse in eighteenth century England Significantly the self sacrificing construction of motherhood emerges at the same time as the novel a genre that develops as a locus for the radical displacement of matrophobia Coining the term Matrophobic Gothic to describe works in which inadequately mothered heroines reconcile with maternal figures that the narrative has repressed Rogers focuses on this phenomenon in the works of Ann Radcliffe and Jane Austen Her consideration

of matrophobia extends to early modern male authored texts including Samuel Richardson's representation of maternity and Sir Walter Scott's exploration of gender roles and identity. These issues continue unabated in televised serial drama. All told, this book powerfully argues for the necessity of confronting the matrophobia at the heart of feminism. *The New Werner Twentieth Century Edition of the Encyclopaedia Britannica*, 1907

Handbook of British Romanticism Ralf Haekel, 2017-09-11 The Handbook of British Romanticism is a state of the art investigation of Romantic literature and theory, a field that probably changed more quickly and more fundamentally than any other traditional era in literary studies. Since the early 1980s, Romantic studies has widened its scope significantly. The canon has been expanded; hitherto ignored genres have been investigated and new topics of research explored. After these profound changes, intensified by the general crisis of literary theory since the turn of the millennium, traditional concepts such as subjectivity, imagination, and the creative genius have lost their status as paradigms defining Romanticism. The handbook will feature discussions of key concepts such as history, class, gender, science, and the use of media, as well as a thorough account of the most central literary genres around the turn of the 19th century. The focus of the book, however, will lie on a discussion of key literary texts in the light of the most recent theoretical developments. Thus, the Handbook of British Romanticism will provide students with an introduction to Romantic literature in general and literary scholars with a discussion of innovative and groundbreaking theoretical developments.

Translating For Singing Ronnie Apter, Mark Herman, 2016-05-19 Translating for Singing discusses the art and craft of translating singable lyrics, a topic of interest in a wide range of fields including translation, music, creative writing, cultural studies, performance studies, and semiotics. Previously, such translation has most often been discussed by music critics, many of whom had neither training nor experience in this area. Written by two internationally known translators, the book focusses mainly on practical techniques for creating translations meant to be sung to pre-existing music, with suggested solutions to such linguistic problems as those associated with rhythm, syllable count, vocal burden, rhyme, repetition, and sound. Translation theory and translations of lyrics for other purposes, such as surtitles, are also covered. The book can serve as a primary text in courses on translating lyrics and as a reference and supplementary text for other courses and for professionals in the fields mentioned. Beyond academia, the book is of interest to professional translators and to librettists, singers, conductors, stage directors, and audience members.

Romanticism, Medicine and the Natural Supernatural Gavin Budge, 2012-10-17 This fascinating interdisciplinary study examines the relationship between literary interest in visionary kinds of experience and medical ideas about hallucination and the nerves in the first half of the nineteenth century, focusing on canonical Romantic authors, the work of women writers influenced by Romanticism, and visual culture.

Gothic Antiquity Dale Townshend, 2019-09-26 Gothic Antiquity History Romance and the Architectural Imagination 1760 1840 provides the first sustained scholarly account of the relationship between Gothic architecture and Gothic literature fiction poetry drama in the late eighteenth and early nineteenth centuries Although the relationship between literature and architecture is a topic that has long preoccupied scholars of the literary Gothic there remains to date no

monograph length study of the intriguing and complex interactions between these two aesthetic forms Equally Gothic literature has received only the most cursory of treatments in art historical accounts of the early Gothic Revival in architecture interiors and design In addressing this gap in contemporary scholarship Gothic Antiquity seeks to situate Gothic writing in relation to the Gothic architectural theories aesthetics and practices with which it was contemporary providing closely historicized readings of a wide selection of canonical and lesser known texts and writers Correspondingly it shows how these architectural debates responded to and were to a certain extent shaped by what we have since come to identify as the literary Gothic mode In both its survivalist and revivalist forms the architecture of the Middle Ages in the long eighteenth century was always much more than a matter of style Incarnating for better or for worse the memory of a vanished Gothic age in the modern enlightened present Gothic architecture be it ruined or complete prompted imaginative reconstructions of the nation's past a notable visionary turn as the antiquary John Pinkerton put it in 1788 in which Gothic writers architects and antiquaries enthusiastically participated The volume establishes a series of dialogues between Gothic literature architectural history and the antiquarian interest in the material remains of the Gothic past and argues that these discrete yet intimately related approaches to vernacular antiquity are most fruitfully read in relation to one another
