

Programming System Features

The Learn Function stores feature data into the unit's memory. It is possible to store and change most of the feature settings using the Control button.

1. Open a door.
2. Turn the system on, then off.
3. Select a feature. Press and hold the Control button. The number of times above indicates the main feature. 1 shows feature main 1, 2 shows main 2 and 3 shows the main 3.
4. When the desired main option is selected, release the Control button.
5. Select a feature. Press and release the Control button. The number of times corresponding to the feature may need to change. Then press and hold one more time to select the feature.
6. Program the feature. While holding the Control button, you can program the feature using the remote control.

The system will only run system 1 or system 2 with 1 or system 3. The system will store that last system 1 or system 2 when the system is recording code with 1 or system 3 when there is a recording code.

Main Programming 1 button sends the feature to the factory default.

General Feature Programming

- Other features can be programmed within the same time.
- Feature codes can be deleted.
- The learn system can be reset if programming is complete.

Learn system feature to the same system

1. Press and release the Control button. The number of times corresponding to feature from the feature you just programmed is the feature you want to program.
2. Then press the Control button once more and hold it.

To select another system

1. Press and hold the Control button.
2. After 3 seconds, the unit will return to the main menu and the main display will display which system has been selected.

The learn mode ends if any of the following occurs:

- The open door is closed.
- The system is opened ON.
- There is a no signal for 30 seconds.
- The transmission is pressed for every time.
