 Matthew MacDonald,2006-12-27 Microsoft Excel continues to grow in power sophistication and capability but one thing that  
 has changed very little since the early 90s is its user interface The once simple toolbar has been packed with so many  
 features over the years that few users know where to find them all Microsoft has addressed this problem in Excel 2007 by  
 radically redesigning the user interface with a tabbed toolbar that makes every feature easy to locate and use Unfortunately  
 Microsoft s documentation is as scant as ever so even if users can find advanced features they probably won t know what to  
 do with them Excel 2007 The Missing Manual covers the entire gamut of how to build spreadsheets add and format  
 information print reports create charts and graphics and use basic formulas and functions Like its siblings in the Missing  
 Manual series this book crackles with a fine sense of humor and refreshing objectivity about its subject guiding readers  
 through the new Excel with clear explanations step by step instructions lots of illustrations and friendly time saving advice It  
 s a perfect primer for small businesses with no techie to turn to as well as those who want to organize household and office
