Valentine's Day is one indignity too many. Instead, I begrudgingly attend a speed dating event with my co-worker. So you can imagine my surprise when my boss pulls me out of the event with some fantasies of his own. This boss says he wants forever but can I hope this will last longer than a few dates. Flirting with the Boss. What happens when the pin up flirts her way into the company president's heart. Camden Manning is hot, rich, and arrogant, exactly the kind of man my mother said would want to fuck me but never love me. He's also the CEO's brother, second in charge, and therefore my boss. I flirt with everyone. It's part of what makes me me. But after one stolen kiss last Christmas with him, I no longer merely flirt. I tease. I want him, and he knows it, but I can't give in to a man who will grow tired of me after a couple of weeks, even if I get great sex out of it. So instead, I avoid him. But when his brother leaves for his honeymoon, he's in charge and assigns me as his executive admin. Now there is no avoiding him. The more time we spend together, the more I see he's not the playboy I thought he was. He's so much more. Can I give in to my desires and trust this boss with my heart. Formerly titled *Flirt Like A Pin Up: Tempting the Boss*. What happens when you tempt your over-the-top sexy silver fox CEO while on a company retreat in Maui. Braedon Taylor, my father's frat brother, the company CEO, and twenty-three years my senior, which according to him means I'm off-limits. I disagree. Now we're on a company retreat where I flaunt my bikini-clad curves and tempt him into doing what we both really want each other. I think he's finally going to admit his feelings when he backs off, leaving me naked, alone, and completely devastated. But then he catches me flirting with other guys, and I meet a new side of him, a possessive side that lets me know exactly how he feels. Is this a tropical tryst or more. And if it's more, what's everyone else going to think when we get back at the office to include my father. Formerly titled *Hot CEO Summer Teasing the Boss*. What happens when you give into your desires and submit to a weekend fling with a man who has no intentions of letting you go. Monday morning. Three months ago, I had the best sex of my life while on a business trip with my boss, a man who is twenty years older and the president of the firm. Since then, I've avoided Tate Morvick, even though he's made it clear he wants more. But now we're on a tropical island where coconut rum and sheer sarongs are business attire. I know he's watching me, and I can't help tease him every chance I get. My body burns with the memory of his touch, and I'm wondering if we can have a little secret fun while on vacation. While I don't want to sleep my way into my next promotion, I can't deny he's the best lover I've ever had. Just this weekend, and then it's back to business as usual. Think he'll agree. Formerly titled *Hot Maui Nights: Forbidden Office Romance*. Forced proximity, opposites attract, age gap.

Retaining Your Best College Professors Jeffrey L. Buller, 2021-10-15. Faculty recruitment is a major expense for colleges and universities, and schools devote a considerable amount of their resources to the hiring process. But many of these institutions fail to devote the same attention to retaining college professors. We've learned through many studies that it's far less expensive to retain a student you have than to recruit a new one. Why is this lesson not also applied to the college faculty. This book addresses why higher education currently has a faculty retention problem and then explores the strategies needed to address that problem. But now all faculty members are alike. Minority faculty members have their own

retention challenges as do highly competitive researchers part time and temporary faculty members who excel at teaching and other key groups The best ways to retain the junior faculty are not necessarily the best ways to retain mid career and senior faculty By examining best practices currently in place in higher education and then combining those insights with research conducted in the corporate world the book encourages colleges and universities to develop a culture of retention that applies to students and faculty members alike

The Molecular Vision of Life Lily E. Kay, 1993 This fascinating study examines the rise of American molecular biology to disciplinary dominance focusing on the period between 1930 and the elucidation of DNA structure in the mid 1950s Research undertaken during this period with its focus on genetic structure and function endowed scientists with then unprecedented power over life By viewing the new biology as both a scientific and cultural enterprise Lily E Kay shows that the growth of molecular biology was a result of systematic efforts by key scientists and their sponsors to direct the development of biological research toward a shared vision of science and society She analyzes the motivations and mechanisms empowering this vision by focusing on two key institutions Caltech and its sponsor the Rockefeller Foundation Her study explores a number of vital sometimes controversial topics among them the role of private power centers in shaping scientific agenda and the political dimensions of pure research It also advances a sobering argument the cognitive and social groundwork for genetic engineering and human genome projects was laid by the American architects of molecular biology during these early decades of the project This book will be of interest to molecular biologists historians sociologists and the general reader alike
