Cutting-Edge Language and Literacy Tools for Students on the Autism Spectrum Beals, Katharine P.,2022-06-24 Providing all students particularly those with learning disabilities with the skills necessary to succeed in school and by extension the real world is vital in today's educational landscape. Due to this need, innovative language and literacy tools have been developed to support these students in their learning endeavors and ensure they are receiving the best education possible. Cutting Edge Language and Literacy Tools for Students on the Autism Spectrum covers the root causes of the language and learning challenges in autism, their consequences for language acquisition and literacy, and a variety of tools and strategies for addressing them, from teaching technologies to assistive technologies. Drawing on what the most current evidence shows about the nature of autism and which therapies and technologies are most successful, the book reviews the efficacy of existing language therapies, literacy strategies, and assistive technologies. Covering topics such as speech deficits, language learning, comprehension, and assistive communication tools, this reference work is ideal for clinicians, behavioral specialists, speech language pathologists, special educators, researchers, academicians, practitioners, scholars, educators, and students.

Reading Picture Books with Infants and Toddlers Jane Torr,2023-03-03 Reading picture books with infants and toddlers facilitates their early language development with far-reaching benefits for their later reading abilities and academic achievement. While the importance of reading books with children aged from 3 to 5 years is widely recognised, the benefits of reading with much younger children from 0 to 3 years, who are still engaged in learning their first language, are less well understood. This book will explore the seemingly simple practice of reading picture books with infants and toddlers aged 0-3 years from a range of perspectives. Not only do book-focused adult-child interactions support language and early literacy development in multiple ways, such interactions can also at the same time foster intellectual, social, emotional, and spiritual growth. By weaving together in an accessible manner the insights from several different discipline areas, this book will explain how and why reading with infants and toddlers has such power to enrich their lives. Providing an evidence-based, theoretically informed account, Reading Picture Books with Infants and Toddlers supports educators, parents, and caregivers with the knowledge, skills, and motivation to provide frequent, enjoyable, and language-rich reading experiences with infants and toddlers.

Assisting Students with Language Delays in the Classroom Francesca Bierens,2017-07-05 Assisting Students with Language Delays in the Classroom is a structured language programme designed for teachers and SENCOs to use in the classroom with children and adolescents with a range of language abilities. This resource caters to the needs of a broad range of students who require assistance with their language development, from the pre-verbal skills of language progressing through to the skills required for effective interactive conversation. The resource is accordingly structured within three key sections: the Pre-Verbal Skills of Language, the Building Bricks of Language, and the Skills of Conversation. Features include step-by-step instructions, language charts, 200 activities, and exercises. Francesca Bierens is a Qualified Speech and Language

Therapist and Primary School Teacher with over 33 years experience working with children with speech and language delays and or disorders in the Education Health and Private sectors
