International Reflections on the Netherlands Didactics of Mathematics Marja van den Heuvel-Panhuizen, 2019-08-13 This open access book inspired by the ICME 13 Thematic Afternoon on European Didactic Traditions takes readers on a journey with mathematics education researchers developers and educators in eighteen countries who reflect on their experiences with Realistic Mathematics Education RME the domain specific instruction theory for mathematics education developed in the Netherlands since the late 1960s Authors from outside the Netherlands discuss what aspects of RME appeal to them their criticisms of RME and their past and current RME based projects It is clear that a particular approach to mathematics education cannot simply be transplanted to another country As such in eighteen chapters the authors describe how they have adapted RME to their individual circumstances and view on mathematics education and tell their personal stories about how RME has influenced their thinking on mathematics education Enriching Mathematics in the Primary Curriculum Sue Pope, Pablo Mayorga, 2019-03-11 How do I enrich children s learning of primary mathematics to bring the subject to life This book inspires and supports you the new and beginning teacher to use talk rich and open tasks that bring mathematics to life in your classroom Tried and loved practical tasks that engage and motivate Supports you to create confident and resilient mathematicians in your classroom Explores ways to engage children in mathematics across the primary curriculum Focuses on understanding key mathematical concepts and the connections between them Artificial Intelligence and Responsible Management Education Noha El-Bassiouny, Wolfgang Amann, Dina El-Bassiouny, Christian Hauser, 2025-10-23 Artificial Intelligence and Responsible Management Education Artificial Intelligence AI offers considerable opportunities as well as challenges to management education and research This book brings together case studies and best practice examples of the use of AI in advancing diverse fields relating to Responsible Management Education RME Moving beyond the conceptual questions about the use of AI in management education the book identifies the real world application of AI and showcases exemplary policies related to AI and its role in advancing responsible management in higher education institutions Interesting cases include the development of curricula AI powered personalized learning the implications of using AI in short answer grading and the utilization of AI in auditing and investment The book is relevant to educators and scholars worldwide as well as managers of universities and business schools as they navigate what it entails to advance responsible management education in the AI era **The SAGE Handbook of Responsible Management Learning and Education** Dirk C. Moosmayer, Oliver Laasch, Carole Parkes, Kenneth G. Brown, 2020-08-10 Reflecting the rapid rise in popularity of recent initiatives such as the UN Principles for Responsible Management Education PRME this handbook exhaustively covers a variety of responsible management learning and education topics and provides an invaluable roadmap for this fast developing field Covering various perspectives on the topic right through to contexts methods outcomes and beyond this volume will be an invaluable integrative resource for

practitioners and researchers alike and is designed to serve a range of communities that deal with topics related to sustainability responsibility and ethics in management learning and education **Universities, Sustainability and Society: Supporting the Implementation of the Sustainable Development Goals** Walter Leal Filho, Amanda Lange Salvia, Luciana Brandli, Ulisses M. Azeiteiro, Rudi Pretorius, 2021-05-03 In order to yield the expected benefits sustainability initiatives need to be undertaken by means of a close cooperation between universities on the one hand and societal partners on the other The principle of co creation and co execution of sustainability initiatives increases the value for all by mutual learning and the sharing of expertise and resources But pursuing sustainability initiatives with a community and societal involvement is not simple There is a perceived need for a better understanding of how universities can interact with society in order to support the implementation of the UN Sustainable Development Goals This book is an attempt to address this need by a novel approach which focuses on current potentials and challenges across a wide range of fields and expertise The book focuses on how the theory and practice of sustainable development interact and shows the need for a continuation of the dialogue among sustainability academics and practitioners so as to address the issues matters and problems at hand The spectrum of themes addressed on this book also entails how environmental values and ethics are applied and the relationship between social biological and cultural diversity It also includes a broad disciplinary approach to sustainability including education research and case studies and the links with human environment relations in a sustainable development context

Amongst Mathematicians Elena Nardi, 2008 This book offers a unique perspective on ways in which mathematicians perceive their students learning teach reflect on their teaching practice Elena Nardi achieves this by employing two fictional yet entirely data grounded characters to create a conversation on these important issues The construction of these characters is based on large bodies of data including intense focused group interviews with mathematicians and extensive analyses of students written work collected and analyzed over a substantial period **Educating for Responsible**

Educational Innovation in Vietnam Trung Tran, Cuong Huu Nguyen, Loc Thi My Nguyen, 2022-10-14 This edited collection, one of the first to be written chiefly by Vietnamese scholars, explores innovation in Vietnamese education under the impact of the Fourth Industrial Revolution. Vietnam is considered a booming country with its continued economic rise, and the contributors explore one of Vietnam's strategies to achieve further economic growth, which is the innovation and modernization of its education system. The content is split into two parts: the first focusing on innovations in educational policy and management, and the second looking at innovation in teaching theories and methods. It shows the vitality and innovation coming from developing countries like Vietnam, where necessity breeds fast adoption of education technology and development. This insightful edited volume will help researchers in comparative education, educational development and Asian studies understand the achievements and challenges of
