Animal Crossing: New Horizons Noah Wardrip-Fruin,2025-10-09 Can a game take care of us And do we want it to Animal Crossing New Horizons was released on March 20 2020 just as a pandemic kept many from family work restaurants and the rest of their regularly scheduled lives At its height the game averaged one million copies sold per day as players sought comfort escape and a virtual means of connection In this book game scholar Noah Wardrip Fruin isolated with his family by both lockdown and disability explores the power of this game and the mixed emotions of a player and a parent trying to make it from one day to the next while his kids obsession with Animal Crossing creates conflicts between them and pushback against family rules Wardrip Fruin helps both Animal Crossing fans and newcomers understand the unexpected beneath the game s surface like the story of the first Animal Crossing codesigned by an absent father seeking connection like the hallmarks of video game manipulation from streak bonuses to game determined playtimes like the appeal of endless shopping in a kind of safe capitalism and of course like the character quirks of a raccoon dog Tom Nook who provides a world of both safety and strange paternalism For many this blockbuster game offered a comforting world compared to a reality of danger In this first entry in the Replay series
