

3. **Amplitude** – The height or depth of a wave. The amount of energy carried by a wave is related to amplitude. A high-energy wave is characterized by high amplitude, a low-energy wave by low amplitude.

energy waves by low amplitude.

Materials:

Slinky, meter stick, pencil

Purpose:

The purpose of the lab is to study the types of waves and their properties using a slinky.

Procedure:

1. Select a lab partner and gather the lab materials.
2. On a smooth floor, stretch the slinky out between you and your partner, to a length of about four meters. (Caution – Do not over stretch the slinky.)
3. Send a single wave to your partner (see below).

4. Observe what happens to the wave when it reaches your partner's end. Observe the reflected wave.
5. Move one end of the slinky back and forth on the floor repeatedly (see diagram below). Observe what happens as you vary the rate at which your hand moves or vibrates.

6. Next create a series of waves by moving your hand towards and away from your partner (see the diagram below). Observe this wave and how it travels.

7. Answer the questions on the science sheet.

Slinky Wave Lab Chapter 5 Answer Sheet

**Ralph M. Feather, Susan Leach
Snyder, Dale T. Hesser**

Slinky Wave Lab Chapter 5 Answer Sheet:

Resources for Teaching Middle School Science Smithsonian Institution, National Academy of Engineering, National Science Resources Center of the National Academy of Sciences, Institute of Medicine, 1998-04-30 With age appropriate inquiry centered curriculum materials and sound teaching practices middle school science can capture the interest and energy of adolescent students and expand their understanding of the world around them Resources for Teaching Middle School Science developed by the National Science Resources Center NSRC is a valuable tool for identifying and selecting effective science curriculum materials that will engage students in grades 6 through 8 The volume describes more than 400 curriculum titles that are aligned with the National Science Education Standards This completely new guide follows on the success of Resources for Teaching Elementary School Science the first in the NSRC series of annotated guides to hands on inquiry centered curriculum materials and other resources for science teachers The curriculum materials in the new guide are grouped in five chapters by scientific area Physical Science Life Science Environmental Science Earth and Space Science and Multidisciplinary and Applied Science They are also grouped by type core materials supplementary units and science activity books Each annotation of curriculum material includes a recommended grade level a description of the activities involved and of what students can be expected to learn a list of accompanying materials a reading level and ordering information The curriculum materials included in this book were selected by panels of teachers and scientists using evaluation criteria developed for the guide The criteria reflect and incorporate goals and principles of the National Science Education Standards The annotations designate the specific content standards on which these curriculum pieces focus In addition to the curriculum chapters the guide contains six chapters of diverse resources that are directly relevant to middle school science Among these is a chapter on educational software and multimedia programs chapters on books about science and teaching directories and guides to science trade books and periodicals for teachers and students Another section features institutional resources One chapter lists about 600 science centers museums and zoos where teachers can take middle school students for interactive science experiences Another chapter describes nearly 140 professional associations and U S government agencies that offer resources and assistance Authoritative extensive and thoroughly indexed and the only guide of its kind Resources for Teaching Middle School Science will be the most used book on the shelf for science teachers school administrators teacher trainers science curriculum specialists advocates of hands on science teaching and concerned parents
