Images of the Art Museum Eva-Maria Troelenberg, Melania Savino, 2017-02-06 In recent years the emerging field of museum studies has seen rapid expansion in the critical study of museums and scholars started to question the institution and its functions To contribute differentiated viewpoints to the currently evolving meta discourse on the museum this volume aims to investigate how the institution of the museum has been visualized and translated into different kinds of images and how these images have affected our perception of these institutions In this interdisciplinary collection scholars from a variety of academic backgrounds including art history heritage museums studies and architectural history explore a broad range of case studies

stretching across the globe The volume opens up debate about the epistemological and historiographical significance of a variety of different images and representations of the Art Museum including the transformation or adaptation of the image of the art museum across periods and cultures In this context this volume aims to develop a new theoretical framework while proposing new methodological tools and resources for the analysis of museological representations on a global scale

Curating Worlds Emma Bond,2024-12-15 Showing how museum practices shed new light on literary form How and why do books deploy objects in order to narrate the past To answer this question Emma Bond sifts through collections of objects stored in boxes drawers baskets and displayed on shelves in contemporary texts by authors such as Valeria Luiselli Maaza Mengiste Orhan Pamuk and Olga Tokarczuk and interprets them using a framework of museum practices These practices which include collection curation conservation and display have helped to turn real life museums into three dimensional narrative spaces Curating Worlds Museum Practices in Contemporary Literature shows how we can use this same set of practices to shed light on literary form itself how stories are created shaped and communicated Harnessing museum practices as an innovative lens for critical interpretation Bond provides a fresh theoretical framework to engage with the meanings of object collections in literature and to make sense of the lives and afterlives of things today Pamuk's Istanbul Pallavi Narayan,2022-04-28 This book reconstructs Istanbul through the prism of Orhan Pamuk's fiction It navigates the multiple selves and layers of Istanbul to present how the city has shaped the writings of Pamuk and has in turn been shaped by it Through everyday objects and architecture it shows how Pamuk transforms the city into a living museum where different objects converse along with characters to present a rich tapestry across space and time Further the monograph explores the formation of communal and literary identity within and around nation building narratives informed by capitalism and modernization The book also examines how Pamuk uses the postmodern city to move beyond its postmodern confines and utilizes the theories and universes of Bakhtin Benjamin and Foucault to open up his fiction and radically challenge the idea of the novel The volume will be of great interest to scholars and researchers of literature literary theory museum studies architecture and cultural studies and especially appeal to readers of Orhan Pamuk *Handbook of Research on Museum Management in the Digital Era* Bifulco, Francesco,Tregua, Marco,2022-03-25 While digital tools are not new to museum management more activities are being performed through their use in order to attract visitors enrich the cultural experience vary the experience context and innovate the cultural industry However these tools need to be tested in order to understand the effects they have on both museum offerings and visitors Further perspectives and insights are needed on the implementation of these digital instruments in museums The *Handbook of Research on Museum Management in the Digital Era* combines theoretical efforts and empirical research to contribute to the debate on museum management in a digital context It further observes tracks and assesses the ongoing changes brought on by digital solutions Covering topics such as organizational change catalysts sustainability of cultural heritage and phygital experience this book is an excellent resource

as the thriving urban centres of Melbourne New York City London Chicago and Istanbul Together the volume contributions demonstrate how the contemporary city is an urban palimpsest comprised by archaeological assemblages of the built environment the surface and buried sub surface that are traces of the various pasts entangled with one another in the present This volume aims to position the city as one of the most important and dynamic arenas for archaeological studies of the contemporary by presenting a range of theoretically engaged case studies that highlight some of the major issues that the study of contemporary cities pose for archaeologists

Authenticity and Authentication of Heritage Deepak Chhabra, 2021-05-27 Authenticity and Authentication of Heritage presents an assimilation of chapters that critically address some of the key emerging areas associated with authenticity It presents a variety of inspiring pieces of work that range from host guest authentication and intangible heritage to knowledge transfer processes authenticating heritage in fairy tale settings authenticity and anxiety in the smell of death and life understanding the boundaries of authenticity nostalgia sustainability marketing destination competitiveness examining affective connotations of authenticity and their contribution towards optimizing hedonic and eudaimonic well being during times of disruption The contentious concept of authenticity continues to be valorised in heritage tourism This scholarly initiative seeks to broaden the discursive parameters of authenticity and identify power mechanisms that shape the way authenticity is produced marketed and consumed This is an attempt to share contemporary views on how the contemporary notions of authenticity are derived interpreted applied processed and legitimised in local and global contexts Furthermore the significant relationship between health and authenticity is explored To put it simply this pandemic has significantly halted the way people connect with their cultural resources and seek authenticity within their inner selves and the outside realms in the heritage tourism system Heightened sense of global consciousness is a call to polish our authentic selves and elevate above inauthenticity or moral hypocrisy So is authenticity an evolving story or is it a story of floating immobility Who can tell the story and who decides what elements to fossilise How can existentialist authenticity and self authentication promote moral selving and well being of the self and the society Many questions like these have emerged in recent literature and this book uses conceptual empirical and theoretical explorations to identify and engage with such inquiries The chapters in this book except for the concluding chapter were originally published as a special issue of the Journal of Heritage Tourism

Eros and Thanatos. Love across Civilizations Alberto Castelli, 2024-02-06 Eros and Thanatos is about the deadly nature of love It is remarkable that literary critics have paid so little attention to the combination between love and death in literature This book seeks to address this significant scholarly lacuna by exploring key literary texts of the last two hundred years as exemplary of a consistent tendency toward love and death Its emphasis on singular characters and close readings suggests the spectrum of an arbitrary dichotomy never fully resolved The existential discussion triggered by each plot is so intense that the erotic and the merely sexual seem inappropriate Indeed each writer chose to reduce it to the setting and background of a story that takes place elsewhere With

this in mind the author intends to reflect love's paradoxical nature. If love is triggered by beauty, beauty can be immoral and love must die to preserve the illusion of beauty. **The Cultural Heritage of Sikkim** Sarit K. Chaudhuri, Sameera Maiti, Charisma K. Lepcha, 2020-03-10 Sikkim has been a region of anthropological interest since the 1930s when Geoffrey Gorer and John Morris did their fieldwork among the Lepchas of Dzongu, north Sikkim. While it was mentioned in various writings of travellers and administrators during the British period, there is a dearth of literature even today on the rich heritage of Sikkim. This collection of twenty-five essays presented first at the international conference on Cultural Heritage of Sikkim organized by the Department of Anthropology, Sikkim University, Gangtok, goes a long way in breaching this gap. The book will be of immense interest to scholars and students of Anthropology, Sociology and Cultural Studies and will lead to new research on the people and the places of Sikkim and India's North East. Please note: This title is co-published with Manohar Publishers, New Delhi. Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka. ***Conversations with Orhan Pamuk*** Erdağ Gökner, Pelin Kıvrak, 2024-01-18 In over thirty interviews conducted between 1982 and 2022, *Conversations with Orhan Pamuk* reveals a writer of intense literary and political engagement. Nobel laureate Orhan Pamuk, b. 1952, is a foremost practitioner of the global novel today. His books have been translated into over sixty languages and sold over fifteen million copies globally. The interviews in this volume open windows onto Pamuk's everyday life, craft and process, constituting an alternative literary history that provides insights into the novelist's influences, method, form and content. These conversations reveal that a Pamuk novel is predicated on methodical research at times archival and scholarly, investigative and journalistic or ethnographic. They are necessarily instructive and edifying as much as they are entertaining, providing a discursive space of literary history where writing, politics and the everyday intersect and where the politics of literature can be located. ***Exhibiting Craft and Design*** Alla Myzelev, 2017-06-14 *Exhibiting Craft and Design: Transgressing the White Cube Paradigm* investigates the firmly established manner in which craft and design have typically been presented by museums and galleries, what strategies curators have employed throughout the twentieth century and especially in more recent years, how exhibiting design and craft objects challenges the notion of the modernist White Cube display paradigm. ***The Materiality of Love*** Anna Malinowska, Michael Gratzke, 2017-09-27 Drawing on love studies and research in material cultures, this book seeks to re-examine love through materiality studies, especially their recent incarnations: new materialism and object-oriented philosophy, to spark a debate on the relationship between love objects and forms of materializing affection. It focuses on love as a material form and traces connections between feelings and materiality, especially in relation to the changing notion of the material as marked by digital culture as well as the developments in understanding the nature of non-human affect. It provides insight into how materiality in its broadest sense impacts the understanding of the meanings and practices of love today and reversely how love contributes to the production and transformation of the material world. ***Memories of Distant Mountains*** Orhan

History and Myth: Postcolonial Dimensions Arti Nirmal, Sayan Dey, 2022-02-01 This anthology History and Myth Postcolonial Dimensions seeks to interrogate and dismantle the colonially structured symmetrical interpretations of the histories and mythological narratives of the former European colonies through depolarization pluriversality and border thinking Here the concepts of history and myth have been addressed from different perspectives and spatiotemporal zones by scholars from different parts of the world which add to the global value of the book It has been argued in this volume that the understanding of postcolonial histories and myths in the contemporary era is highly influenced by the colonially fashioned binaries valid invalid civilized barbaric inclusive exclusive relevant irrelevant good bad etc which continue to preserve the epistemic citadels of coloniality and selectively promote such historical and mythological narratives that celebrate the superiority of the Global North and the inferiority of the Global South This book will be of particular interest to scholars researchers teachers and those interested in understanding history postcolonial studies decolonial studies cultural studies literature and sociology
