The New Evangelism And Other Papers:

The New Evangelism Henry Drummond, 2014-05-12 Professor Drummond's influence on his contemporaries is not to be measured by the sale of his books great as that has been. It may be doubted whether any living novelist has had so many readers and perhaps no living writer has been so eagerly followed and so keenly discussed on the Continent and in America. The New Evangelism contains his most important writings: The New Evangelism and its Relation to Cardinal Doctrines, The Method of the New Theology and some of its Applications, Survival of the Fittest, The Third Kingdom, The Problem of Foreign Missions, The Contribution of Science to Christianity, Spiritual Diagnosis. *The New Evangelism, and Other Addresses*

Henry Drummond, 2013-02-19 The question you will naturally ask at the outset is: What is the new Evangelism? Now that is a question that I cannot answer. I do not know what the new Evangelism is and it is because I do not know that I write this paper. I write because I ought to know and am trying to know. Many here and all the most earnest minds of our Church are anxiously asking this question and each who has once asked it feels it to be one of the chief objects of his life to answer it. Included here are: The New Evangelism and its Relation to Cardinal Doctrines, The Method of the New Theology and some of its Applications, Survival of the Fittest, The Third Kingdom, The Problem of Foreign Missions, The Contribution of Science to Christianity and Spiritual Diagnosis. It offers fresh perspectives on conversionism and the life of faith, biblical and theological perspectives, social engagement and mission. Tracing these trajectories through a period of great turbulence in world history.

we see the deepening of an evangelical diversity And as events unfold we notice the spectrum of evangelicalism fragments in varied and often competing strands Dividing the era into two phases before 1914 and after 1918 draws out the impact of the Great War of 1914 18 as evangelicals renegotiated their identity in the modern world By accenting his account with the careers of selected key figures Geoffrey Treloar illustrates the very different responses of evangelicals to the demands of a critical and transitional period The Disruption of Evangelicalism sets out a case that deserves the attention of both professional and arm chair historians

Communicating Physics Josep Simon,2015-07-22 The textbooks written by Adolphe Ganot 1804 87 played a major role in shaping the way physics was taught in the nineteenth century Ganot s books were translated from their original French into more than ten languages including English allowing their adoption as standard works in Britain and spreading their influence as far as North America Australia India and Japan Simon s Franco British case study looks at the role of Ganot s two textbooks *Traité élémentaire de physique expérimentale et appliquée* 1851 and *Cours de physique purement expérimentale* 1859 and their translations into English by Edmund Atkinson The study is novel for its international comparison of nineteenth century physics its acknowledgement of the role of book production on the impact of the titles and for its emphasis on the role of communication in the making of science

Miller,2013-06-11 This latest addition to the Library of Hidden Knowledge series provides a modern understanding of Henry Drummond s powerful philosophical writings about the harmony between science and spirituality Is there not reason to believe that many of the Laws of the Spiritual World hitherto regarded as occupying an entirely separate province are simply the Laws of the Natural World Henry Drummond Using spiritual experience to explain
