Constitutions Charles R. Kesler, 2021-02-16 American politics grows embittered because it is increasingly torn between two rival constitutions two opposed cultures two contrary ways of life American conservatives rally around the founders Constitution as amended and as grounded in the natural and divine rights and duties of the Declaration of Independence American liberals herald their living Constitution a term that implies that the original is dead or superseded and that the fundamental political imperative is constant change or transformation as President Obama called it toward a more and more

perfect social democracy ruled by a Woke elite *Crisis of the Two Constitutions* details how we got to and what is at stake in our increasingly divided America It takes controversial stands on matters political and scholarly describing the political genius of America s founders and their efforts to shape future generations through a constitutional culture that included immigration citizenship and educational policies Then it turns to the attempted progressive refounding of America tracing its accelerating radicalism from the New Deal to the 1960s New Left to today s unhappy campus nihilists Finally the volume appraises American conservatives efforts so far unavailing despite many famous victories to revive the founders Constitution and moral common sense From Ronald Reagan to Donald Trump what have conservatives learned and where should they go from here Along the way Charles R Kesler argues with critics on the left and right and refutes fashionable doctrines including relativism multiculturalism critical race theory and radical traditionalism providing in effect a one volume guide to the increasingly influential Claremont school of conservative thought by one of its most engaged and engaging thinkers

Kuznar, 2008-09-11 This second edition of *Reclaiming a Scientific Anthropology* arrives at just the right time as new advances in science increasingly affect anthropologists of all stripes Lawrence Kuznar begins by reviewing the basic issues of scientific epistemology in anthropology as they have taken shape over the life of the discipline He then describes postmodern and other critiques of both science and scientific anthropology and he concludes with stringent analyses of these debates This new edition brings this important text firmly into the 21st century it not only updates the scholarly debates but it describes new research techniques such as computer modeling systems that could not have been imagined just a decade ago In a field that has become increasingly divided over basic methods of research and interpretation Kuznar makes a powerful argument that anthropology should return to its roots in empirical science The Rule of Law Michael Neumann, 2002 The rule of law neither celebrates human rights nor simply ratifies whatever happens to be on the statute books At its core it simply guarantees that laws however immoral or unjust penalise people only for what they do and never for what they are Yet even when its moral accretions are stripped away the rule of law offers protections that morality itself has trouble maintaining This book draws on contemporary moral theory philosophy of law and political theory to explore the rule of law Offering new perspectives on contemporary moral issues particularly those related to race relations cultural diversity and political

correctness Neumann argues that the rule of law does not compete with morality but complements it suggesting how if we cannot find principles suitable to our societies perhaps we can make societies that fit our principles **The Farmers'**

Register, 1841 Edmund Ruffin,1841 **The Promise of Liberty** Tibor R. Machan,2009-04-16 Tibor Machan s central political imperative in The Promise of Liberty is one that he has found borne out by history analysis and personal experience to recognize that individuals have unalienable rights to their lives liberty and property which includes of course the pursuit of their happiness their life agendas that the only limitations on these rights should be others equal rights and that the proper function or role of the legal authorities in a country is to secure or protect these rights As Machan points out however that imperative cannot survive scrutiny all on its own it needs to be grounded on other true notions on facts about us the world and the nature of community life As a result this book touches on a wide ranging array of topics and addresses basic issues in ethics and the possibility of moral and ethical knowledge This book will be of interest to students of politics and political economy as well as those interested in what kind of human community is best suited for human living as such with all its variety and multiplicity **Social Work Treatment** Francis J.
