The Creative Process Charlotte L. Doyle, 2021-12-22. The Creative Process: Stories from the Arts and Sciences asks how celebrated works of art and breakthroughs in science came to be. What was the first inkling? What were the steps and missteps along the way? How was the process experienced by the creative person as it proceeded? And what are the implications for the psychology of the creative process? Each chapter focuses on a specific creative endeavor, situating the work in the context of domain, culture, and historical era. Then it traces the development of the work from what we know of its beginnings to its fulfillment. Qualitative materials, interviews, notebooks, diaries, sketches, drafts, and other writings allow a story of the creative process as lived to emerge.
