**Who can read the Riddle of the Serpent?** Helena Petrovna Blavatsky, 2019-02-27

The serpent is the most ancient symbol because the reptile preceded the bird and the bird the mammal. He was honoured by the Gnostic Ophites because he taught primeval men the Mysteries of Cosmos and Man. Serpent and Dragon were some of the names given to the Wise Ones, the initiated adepts of olden times. The Nagas of the Hindu and Tibetan adepts were men, not reptiles. Perhaps when St. Patrick drove the snakes from Ireland, he was the cause of its soil having ever since produced more wit than wisdom. On the lowest plane of materiality, the Serpent was adopted as a type of feminine pubescence on account of its sloughing and self-renewal. The Serpent and the Tree of Life are indissolubly connected. These sacred symbols have never been so degraded by antiquity as they are now in this age of the breaking of idols, not for truth's sake but to glorify gross matter. In the beginning of their joint existence as a glyph of Immortal Being, the Tree and Serpent were divine imagery, truly. In the days of the divine Dynasties on Earth, the now dreaded reptile emblem of the heaven-born Logos was regarded as the first beam of light that radiated from the abyss of Divine Mystery. As the Serpent originally dwelling beyond absolute space and infinite time fell into the space and finite time, he was made to assume various forms: cosmic and astronomical, theistic and pantheistic, abstract and concrete. There is a universal belief that serpents are wise, cunning, and fascinating. The dragons and serpents of antiquity are seven-headed, one head for each root race. The Crocodile is the Egyptian Dragon, the pre-planetary form of Saturn. Sevek's Word, Logos, He was the dual symbol of Heaven and Earth, of Sun and Moon, made sacred to Osiris and Isis because of its amphibious nature. The Serpent was degraded as the symbol of evil and devil only during the middle ages, when the Sun Tree, Serpent, Crocodile, and other ancient symbols were imported wholesale by dogmatic Christianity and passed in full into the Christian Church. The True and Perfect Serpent, the Dark Serpent of Absolute Wisdom of the Ophite creed, is the seven-vowelled God represented by the Swastika, the seven-fold androgyne Logos unfolding out of

its own essence the faculties and powers latent in Saptaparna the seven leaved Man plant

**The Secrets of Spirituality & Occult** Helena Blavatsky, 2023-11-08 In *The Secrets of Spirituality Occult* Helena Blavatsky delves into the profound mysteries of spiritual knowledge and mystical practices that have been obscured from conventional understanding. Written in her distinctive evocative prose, Blavatsky's work intricately intertwines esoteric philosophy, comparative religion, and the metaphysical traditions of both Eastern and Western spirituality. This book not only elucidates the principles of the occult but also invites readers into a deeper contemplation of existence, advocating for the harmony between science and spirituality in an era often dominated by rationalism. Helena Blavatsky, a pivotal figure in the 19th-century occult revival, founded the Theosophical Society with the aim of promoting universal brotherhood and understanding of divine wisdom. Her travels across India and her profound study of ancient scripts significantly shaped her worldview, informing her writings. Blavatsky's exploration of universal laws and hidden truths offered readers an alternative perspective on spirituality amidst the encroachment of materialism and dogma. This book is highly recommended for those seeking a deeper understanding of spiritual truths and the unseen dimensions of reality. Blavatsky's groundbreaking insights remain relevant today, appealing to both seasoned seekers and newcomers wanting to explore the rich tapestry of spirituality and the occult.

*The Voudon Gnostic Workbook* Michael Bertiaux, 2007-07-01 A long-awaited new edition of the seminal text on the spiritual system that is a convergence of Gnosticism and Haitian voodoo. *The Voudon Gnostic Workbook* is a singular sacred work that is comprehensive in scope, from how to be a lucky Hoodoo to how magick and voodoo intersect energetically to esoteric time travel. Complete with charts and graphs and instructive interdimensional physics, *The Voudon Gnostic Workbook* is an object of desire among students of the occult. Weiser's long-anticipated republication of this rare text will be an event in the annals of esoteric publishing, as the book itself is somewhat of an unholy grail. There are listservers devoted to it and much discussion of the mysteries held within its pages. While *The Voudon Gnostic Workbook* has remained a controversial book, considered important for masters of metaphysics, it recently came into popular culture and renewed popularity when Grant Morrison revealed it had been the inspiration for his cult comics *The Invisibles*, using the cribbed time travel from Bertiaux's masterwork. Voodoo is not an evil religion and is much misunderstood. It derives from the Dahomean Gods called the Loa. Esoteric voodoo is actually a highly practical procedure for leading us into making contact with the deepest levels of our being and most ancient modes of consciousness. Michael Bertiaux's *Voudon Gnostic Workbook* is the most comprehensive and illuminating contemporary book on the subject. Launched out of a correspondence course and series of classes for students and followers of Voudon Gnosticism and the OTO, this seminal text is at once one of the most mysterious and magnificent of all esoteric books.

**The Occult Sciences** Eusèbe Salverte, 1847 *The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy (Complete)*

Helena Petrovna Blavatsky, 2020-09-28 Since the appearance of Theosophical literature in England it has become customary to call its teachings Esoteric Buddhism And having become a habit as an old proverb based on daily experience has it Error runs down an inclined plane while Truth has to laboriously climb its way up hill Old truisms are often the wisest The human mind can hardly remain entirely free from bias and decisive opinions are often formed before a thorough examination of a subject from all its aspects has been made This is said with reference to the prevailing double mistake a of limiting

Theosophy to Buddhism and b of confounding the tenets of the religious philosophy preached by Gautama the Buddha with the doctrines broadly outlined in Esoteric Buddhism Any thing more erroneous than this could hardly be imagined It has enabled our enemies to find an effective weapon against Theosophy because as an eminent P li scholar very pointedly expressed it there was in the volume named neither Esotericism nor Buddhism The esoteric truths presented in Mr Sinnett s work ceased to be esoteric from the moment they were made public nor did the book contain the religion of Buddha but simply a few tenets from a hitherto hidden teaching which are now explained and supplemented by many more in the present volumes And even the latter though giving out many fundamental tenets from the Secret Doctrine of the East raise but a small corner of the dark veil For no one not even the greatest living Adept would be permitted to or could even if he would give out promiscuously to a mocking unbelieving world that which has been so effectually concealed from it for long ons and ages Esoteric Buddhism was an excellent work with a very unfortunate title though it meant no more than does the title of this work The Secret Doctrine It proved unfortunate because people are always in the habit of judging things by their appearance rather than by their meaning and because the error has now become so universal that even most of the Fellows of the Theosophical Society have fallen victims to the same misconception From the first however protests were raised by Brahmans and others against the title and in justice to myself I must add that Esoteric Buddhism was presented to me as a completed volume and that I was entirely unaware of the manner in which the author intended to spell the word Budh ism

*An Abridgement by Katharine Hillard of The Secret Doctrine* Helena Petrovna Blavatsky,1907      **An Abridgment by Katharine Hillard of the Secret Doctrine** Helena Petrovna Blavatsky,1907      An Abridgment Katharine Hillard,Helena Petrovna Blavatsky,1907      **The Magic of Jewels and Charms** George Frederick Kunz,1915      **Arabic and the Case against Linearity in Historical Linguistics** Jonathan Owens,2023-09-28 This book explores the long history of the Arabic language from pre Islamic Arabic via the Classical era of the Arabic grammarians up to the present day While most traditional accounts have been dominated by a linear understanding of the development of Arabic this book instead advocates a multiple pathways approach to Arabic language history Arabic has multifarious sources its relations to other Semitic languages an old epigraphic and papyrological tradition a vibrant and linguistically original classical Arabic linguistic tradition and a widely dispersed array of contemporary spoken varieties These diverse sources present a challenge to and an opportunity for defining a holistic but not necessarily linear Arabic language history The geographical breadth and chronological depth of Arabic make it a fertile ground for a critical appraisal and application of perspectives from a range of subdisciplines including sociolinguistics typology grammaticalization and corpus linguistics Jonathan Owens draws on these approaches to investigate more than 20 individual case studies that cover more than 1500 years of documented and reconstructed history the results demonstrate that Arabic is a far more complex historical object than traditional accounts have assumed This complexity is further explored in a comparison of the historical morphology of three languages that can

be compared over roughly the same period 500 AD 2022 AD Icelandic English and Arabic Icelandic and English are diametrically opposed on a parameter of linearity Icelandic is effectively a-linear the morphology of the earliest Icelandic writings is the morphology of today English is linear having undergone a drastic change in morphology from its Old English stage to the Middle English period Arabic is shown to be a-linear in many important respects but multilinear in others with different sorts of linguistic changes being spread across many individual historical speech communities
