[Second-Class Saints](#) Matthew L. Harris, 2024 On June 9 1978 Church of Jesus Christ of Latter day Saints LDS president Spencer W Kimball announced a revelation lifting the church s 126 year old ban barring Black people from the priesthood and Mormon temples It was the most significant change in LDS doctrine since the end of polygamy almost 100 years earlier Drawing on never before seen private papers of LDS apostles and church

presidents including Spencer W Kimball Matthew L Harris probes the plot twists and turns the near misses and paths not taken of this incredible story **Reports and Documents** United States. Congress,1964 **The Body of Il Duce** Sergio Luzzatto,2006-05-02 Examines the legacy of Italian fascism discussing how Mussolini s execution the display of his corpse and his body s subsequent burial concealment and eventual enshrinement reflected the nation s struggle to become a republic **Menace of Our Time** Aaron J. Leonard,2025 Beginning at the turn of the century and ending only with communism s collapse the US government and major elements in the wider society undertook an unrelenting effort to suppress and criminalize domestic communism This book tracks those efforts from the state laws of the twenties that imprisoned the fledgling communist leadership the efforts by police and local authorities against communists as they fought for unions racial equality and the unemployed the trials and imprisonment of communist leaders mid century the extra legal efforts of the Counterintelligence Program COINTELPRO in the sixties and the ongoing relentless attention by the FBI afterward This is a long overdue book about the most extensive repressive effort ever undertaken by US authorities against a political organization that however problematic was largely operating within the scope of constitutionally mandated freedoms Provided by publisher **The Discourse of Character Education** Peter Smagorinsky,Joel Taxel,2005-05-06 In this book Peter Smagorinsky and Joel Taxel analyze the ways in which the perennial issue of character education has been articulated in the United States both historically and in the current character education movement that began in earnest in the 1990s The goal is to uncover the ideological nature of different conceptions of character education The authors show how the current discourses are a continuation of discourse streams through which character education and the national purpose have been debated for hundreds of years most recently in what are known as the Culture Wars the intense often passionate debates about morality culture and values carried out by politicians religious groups social policy foundations and a wide range of political commentators and citizens in which the various stakeholders have sought influence over a wide range of social and economic issues including education The centerpiece is a discourse analysis of proposals funded by the United States Department of Education s Office of Educational Research and Improvement OERI Discourse profiles from sets of states that exhibit two distinct conceptions of character are examined and the documents from particular states are placed in dialogue with the OERI Request for Proposals One profile reflects the dominant perspective promoted in the U S based on an authoritarian view in which young people are indoctrinated into the value system of presumably virtuous adults through didactic instruction The other reflects the well established yet currently marginal discourse emphasizing attention to the whole environment in which character is developed and enacted and in which reflection on morality rather than didactic instruction in morality is the primary instructional approach By focusing on these two distinct regions and their conceptions of character the authors situate the character education movement at the turn of the twenty first century in the context of historical notions about the nature of character and regional conceptions regarding the nature of societal organization This

enlightening volume is relevant to scholars practitioners policymakers and students across the field of education particularly those involved in character education moral development discourse analysis history and cultural foundations of education and related fields and to the wider public interested in character education *The Publishers' Trade List Annual* ,1966
