*Starfist: Firestorm* David Sherman, Dan Cragg, 2007-06-26 Combat vets David Sherman and Dan Cragg know firsthand the courage sacrifice and hell of war and their experiences have made the popular Starfist novels thrill rides of the highest order Now the explosive action continues on the remote planet Ravenette where the Marines of the Confederation s 34th Fleet Initial Strike Team FIST find themselves up against a full fledged rebellion and a lethally loose cannon of a commanding officer Desperate to thwart unrelenting aliens and their quest to obliterate humankind The Confederation has beefed up its defenses But to the citizens on the outer edges of Human Space

around Ravenette unaware that a deadly enemy even exists the government's move seems oppressive and ten planets have responded with a war of secession In touch and go battles with the seceding planets the 34th FIST has emerged battered but unbowed refusing to give up even while under the command of a fanatical general The enemy determined to strike a new mission must be carried out though the troops will likely return in body bags Should Ensign Charlie Bass and his Marines somehow survive the nightmarishly difficult amphibious landing they can expect to be outmanned outgunned and out armored in a fierce duel against fresh soldiers But like any Marine worth his salt Bass knows there's only one way to go when facing impossible odds on the offense with all guns firing There's no other choice because if life was easy there'd be no need to send in the Marines

*The Falklands War* Gordon Ramsey, 2009-03-30 In 1982 Argentina rashly gambled that a full scale invasion of the Falkland Islands ownership of which had been disputed with Great Britain for over a century would put an end to years of political wrangling However Britain's response was to immediately dispatch a task force to recover the islands by force if necessary The conflict which followed a formal declaration of war was never given lasted ten weeks from Argentine invasion to British liberation the white heat of battle using 20th century technology contrasting with bitter hand to hand bayonet fighting in inhospitable conditions Eyewitness accounts by the participants of both sides and islanders leave us in no doubt as to the ferocity of the combat on land sea and in the air Comparison photography in color of all the battlefields the crash sites of the aircraft shot down the relics and the remains together with portraits of those who lost their lives and the battlefield memorials serve as a graphic testimony to their endeavors 25 years after the battle A Roll of Honour lists the casualties of both sides and for the first time the graves of all the British fallen both on the islands and in the United Kingdom have been visited and photographed as a lasting record of all those who made the supreme sacrifice

*Struggle for Control of the Hinterland of the Bight of Biafra* Dr. Frank Nwabueze Ihekweaba, 2016-02-23 This book tells the story of the people of Igbo land at the middle of the nineteenth century when Europe and Europeans held the dominant power over the lives and affairs of many peoples in Africa This dominance however was never supposed to be total or absolute Nevertheless it managed to cast a constricting shadow with its associated if unhealthy ambience on the day to day lives of the people using the overwhelming military and economic power at its disposal at a time when Africans were either

recovering from five hundred years of stupor brought on by its own dark ages AD 1100-1600 or the shock and paralysis that followed the Moroccan Mohamedan and Spanish mercenary assisted mayhem and chaos of 1591 against the African kingdoms of West Africa. But the white man would soon lose most of his political and economic opportunities and some of the absolute attributes he had mustered over the years. The moment Britain and the other European races saw themselves as divinely appointed to right the wrongs of mankind, he would from then on render himself vulnerable to the tide of African enlightenment and progress which was then building up everywhere. Once the trade by which he had gained his ascendancy over the other races of mankind began to decline, in addition European ascendancy witnessed an unusual reversal of luck when its residual strengths recently boosted with the development of some newer types of weaponry, the Maxim machine gun in the UK 1883 and the Mauser Machine gun 1891 in Germany, weapons whose astonishing power and versatility had not previously been seen or tested in any battlefield, became more widely available to European and non-European troops. These however could not provide definitive answers to all the tactical and strategic imperatives of the developing new battlefield which European armies had sought. Nevertheless, these new weapons became celebrated after they were successfully used to hold the line and repel hordes of brave native fighters armed only with machetes and spears. South Africa and bows and arrows. Kitchener's Sudan enabling British forces to claim easy victories over the native forces; several Victoria Crosses would be won on both battlefronts by the British army. The success of the campaigns clearly went to the heads of the victorious army commanders. Thus were sown the seeds that would grow leading to the idea of invincibility of the white man in the battlefield and the tragic events that preceded the First World War 1914-1918.
