Sociology David M. Newman, 2018-01-17 In *Sociology Exploring the Architecture of Everyday Life* David M Newman shows students how to see the unfamiliar in the familiar to step back and see organization and predictability in their take for granted personal experiences With his approachable writing style and lively personal anecdotes the author s goal from the first edition has always been the same to write a textbook that in his words reads like a real book Newman uses the metaphors of architecture and construction to help students understand that society is not something that just exists out there independently of themselves it is a human creation that is planned maintained or altered by individuals Using vivid prose examples from current events and the latest research findings this fully updated Twelfth Edition presents a unique and thought provoking overview of how society is constructed and experienced Instead of surveying every subfield in sociology the more streamlined coverage focuses on the individual and society the construction of self and society and social inequality in the context of social structures

Genus Americanus Loren Ghiglione, Alyssa Karas, Dan Tham, 2020-10-25 A seventy year old Northwestern journalism professor Loren Ghiglione and two twenty something Northwestern journalism students Alyssa Karas and Dan Tham climbed into a minivan and embarked on a three month

twenty eight state 14 063 mile road trip in search of America s identity After interviewing 150 Americans about contemporary identity issues they wrote this book which is part oral history part shoe leather reporting part search for America s future part memoir and part travel journal On their journey they retraced Mark Twain s travels across America from Hannibal Missouri to Chicago New York Boston Philadelphia Washington DC New Orleans Salt Lake City San Francisco and Seattle They hoped Twain s insights into the late nineteenth century soul of America would help them understand the America of today and the ways that our cultural fabric has shifted Their interviews focused on issues of race religion gender sexual orientation and immigration status The timely trip occurred as the United States was poised to replace president Barack Obama an icon of multiculturalism and inclusion with Donald Trump whose white identity agenda promoted exclusion and division What they learned along the way paints an engaging portrait of the country during this crucial moment of ideological and political upheaval *Cultivating Mentors* Todd C. Ream, Jerry Pattengale, Christopher J. Devers, 2022-10-11

Drawing on traditional theological understandings of mentor mentee relationships a distinguished group of contributors explores the practice of mentoring in Christian higher education With special attention to generational dynamics this book offers valuable insights and practical recommendations for faculty administrators and policy makers **Parents Without Papers** Frank D. Bean, Susan K. Brown, James D. Bachmeier, Susan Brown, James Bachmeier, 2015-10-01 For several decades Mexican immigrants in the United States have outnumbered those from any other country Though the economy increasingly needs their labor many remain unauthorized In *Parents Without Papers* immigration scholars Frank D Bean Susan K Brown and James D Bachmeier document the extent to which the outsider status of these newcomers inflicts multiple hardships on their children and grandchildren *Parents Without Papers* provides both a general conceptualization of immigrant integration and an in depth examination of the Mexican American case The authors draw upon unique retrospective data to shed light on three generations of integration They show in particular that the membership exclusion experienced by unauthorized Mexican immigrants that is their fear of deportation lack of civil rights and poor access to good jobs hinders the education of their children even those who are U S born Moreover they find that children are hampered not by the unauthorized entry of parents itself but rather by the long term inability of parents especially mothers to acquire green cards When unauthorized parents attain legal status the disadvantages of the second generation begin to disappear These second generation men and women achieve schooling on par with those whose parents come legally By the third generation socioeconomic levels for women equal or surpass those of native white women But men reach parity only through greater labor force participation and longer working hours results consistent with the idea that their integration is delayed by working class imperatives to support their families rather than attend college An innovative analysis of the transmission of advantage and disadvantage among Mexican Americans *Parents Without Papers* presents a powerful case for immigration policy reforms that provide not only realistic levels of legal less skilled migration but also attainable pathways to legalization Such measures combined with

affordable access to college are more important than ever for the integration of vulnerable Mexican immigrants and their descendants
