

# The Outsiders

by S. E. Hinton

Please answer the following questions on a separate sheet of paper.

## Chapter 1

1. Who are the Socs? Who are the Greasers?

Socs - rich, madras, mustangs, East side

Greasers - poor, t-shirts and jeans, West side

2. How is Pony's relationship with Darry different from his relationship with Soda?

Darry is more like a father-figure to Pony. He loves him, but they argue a lot and he is hard on him. Soda and Pony are friends. He really understands Pony and they have a lot in common.

3. Why is the "gang" so important to Johnny?

He relies on them like family, because his father abuses him and his mother ignores him.

4. Do you think Darry loves Pony? Why does he treat Pony the way he does?

Yes, he does love Pony. He is hard on Pony because he doesn't want him to get in trouble because then the boys would be split up. He wants Pony to have a good life.

5. Explain what Pony means when he says, "I lie to myself all the time". Why do you think people lie to themselves?

He tries to convince himself something is truth. For example, he tries to convince himself that he doesn't care that Darry doesn't love him, but he does care whether or not Darry loves him.

## Chapter 2

1. Who are Cherry and Marcia?

Two Socy girls Pony and Johnny picked up at the drive-in.

2. Why is it strange that Cherry and Pony get along so well?

Socs and Greasers shouldn't get along, but Cherry and Pony have a lot in common - sunsets, dreamers, school.

3. According to Two-Bit, what is a "fair fight"? Why don't Socs fight fair?

**Women, Power, and Politics** Lori Cox Han, Caroline Heldman, 2023-05-29 As women continue to gain more prominence as active participants in the American political and electoral process as voters candidates and officeholders it becomes even more important to understand how gender shapes political power and the distribution of resources within our society There are many areas of research in a variety of disciplines focusing on women gender and feminism and many of them intersect with a discussion of women in American politics Our goal in writing this book is to present these topics in an interesting lively and timely way through an analysis of

contemporary political gender related issues We hope to have provided just enough of an historical context to get students interested in the evolution of women in American political life and enough theory and analysis to inspire them to seek more information and knowledge about gender justice today The study of women and U S politics as well as the role gender plays in the broader political context has emerged as a powerful voice within the discipline of Political Science in the last few decades As such we hope that readers find this text a useful addition to the ongoing dialogue while instructors find it to be a useful pedagogical tool for their courses on women gender and politics

The Equitable Cultural Tourism Handbook Dr. Alf H. Walle, 2010-03-01 The goal of this book is to deal in a provocative way with a number of key issues involving the increased participation of the private sector within cultural tourism My goal is not to write a complete overview of the field Instead this short book deals with a fairly circumscribed set of issues involving contemporary changes within cultural tourism Since modern business largely focuses on serving customers a major focus of this book concerns marketing thought and its implications in regard to cultural tourism In large measure this book seeks to help host communities and their advocates to become familiar with and comfortable within a private sector context as well as being able to interact in such an environment The book starts with a two chapter introduction that focuses upon the distinctive role of cultural tourism As emphasized in chapter 1 a dilemma arises because cultural tourism must simultaneously serve multiple stakeholders and do so in equitable ways This is much more complex than the more typical task of concentrating upon the needs wants and desires of customers These ideas are refined in chapter 2 where the discussion centers primarily upon the importance of serving host communities in addition to customers Certainly catering to customers continues to be an issue but it should be envisioned as an ad hoc method of serving the host community
