Emotional Intelligence at Work Chi-Sum Wong, 2015-08-27 Emotional intelligence is a very popular concept since it was made known to the general public in 1995 However it was under severe criticisms among scientific researchers and a lot of them did not believe that it should be accepted by scientists as true knowledge. The author of this book who is one of the pioneers in this topic spent sixteen years to study this concept Together with other researchers they gradually changed the conclusion of early researchers Using rigorously scientific standards this research team demonstrated that emotional intelligence is an intelligence dimension that has significant impact on various life outcomes such as life satisfaction and job performance They developed testable theoretical framework for emotional intelligence in the workplace and attempted to show that the trainability of emotional intelligence is larger than traditional intelligence concept The book looks at not only the scientific reports but all the stories behind some of the rigorous scientific studies in the author s 18 year journey Their choice of research designs and how the designs are suitable to provide scientific evidence to demonstrate the validity of emotional intelligence are also described Through this book the process of scientific enquiry and important issues concerning the emotional intelligence concept are revealed in details by vivid stories and rigorous scientific reports Well-Being of Chinese Older Adults Vivian W. Q. Lou, 2015-02-04 There are several unique features of this book on the spiritual well being of Chinese older adults First based on qualitative methodology a conceptual model of spiritual well being was proposed Besides through a Delphi study different dimensions of spiritual well being were identified Conceptually such effort is important because there is a general lack of well articulated models of spiritual well being for Chinese people Although Western models can be transplanted to Chinese contexts indigenous concepts are needed As such this is a pioneer conceptual contribution Second the author developed and validated the Spiritual Scale for Chinese Elders In view of the lack of related measurement tools in the field this is a pioneer attempt which is important for social work education research and practice Third a Spiritual Enhancement Group for Chinese Elders was developed and its effectiveness was evaluated In contrast to ordinary elderly programs this program was based on solid theoretical grounds In addition process evaluation and outcome evaluation were conducted The intervention program is a beautiful link between theory and practice whereas the evaluation is a good outgrowth of practice. The present project is especially valuable because evidence based practice is at its infancy in different Chinese communities The Wiley Encyclopedia of Personality and Individual Differences, Clinical, Applied, and Cross-Cultural Research, 2020-11-03 Volume 4 Clinical Applied and Cross Cultural Research of The Wiley Encyclopedia of Personality and Individual Differences The Encyclopedia of Personality and Individual Differences EPID is organized into four volumes that look at the many likenesses and differences between individuals Each of these four volumes focuses on a major content area in the study of personality psychology and individuals differences The first volume Models

Judd, Eona Bell, 2018-12-13 When humans cooperate what are the social and psychological mechanisms that enable them to do so successfully Is cooperativeness something natural for humans built in to our species over the course of evolution or rather something that depends on cultural learning and social interaction This book addresses these central questions concerning human nature and the nature of cooperation The editors present a wide range of vivid anthropological case studies focused on everyday cooperation in Chinese communities for example between children in

Nanjing playing a ballgame parents in Edinburgh organising a community school villagers in Yunnan dealing with common pool resource problems and families in Kinmen in Taiwan worshipping their dead together On the one hand these case studies illustrate some uniquely Chinese cultural factors such as those related to kinship ideals and institutions that shape the experience and practice of cooperation They also illustrate on the other hand how China's recent history not least the rise and fall of collectivism in various forms continues to shape the experience of cooperation for ordinary people in China today Finally they show that in spite of the cultural and historical particularity of Chinese cooperation it does share some underlying features that would be familiar to people coming from radically different backgrounds
