The Masterpiece The Jorn Utzon A Secret Life:

The Masterpiece Philip Drew, 1999 *Jørn Utzon and Transcultural Essentialism* Adrian Carter, Marja Sarvimäki, 2021-11-04 This book introduces and defines the burgeoning concepts of transculturalism and essentialism and how they relate to one another as articulated with reference to the work of Jørn Utzon. It introduces critical contemporary perspectives of the design thinking and career of this renowned Danish architect internationally recognised for his competition winning iconic design for the Sydney Opera House, an outstanding exemplar of transcultural essentialism in architecture. Transcultural essentialism is analysed through the lens of critical regionalism and architectural phenomenology with emphasis on the sense of place and tectonics in Utzon's architectural works. It provides a new understanding of the Danish architect as an early proponent of a still emergent and increasingly relevant direction in architecture. Going beyond biographical studies, it presents a more comprehensive understanding of the broad range of transcultural influences that formed his thinking. The volume includes numerous previously unpublished photographs, drawings and interviews with Utzon's family members, former students and colleagues, offering a significant contribution to the existing body of knowledge for any architecture scholar interested in Utzon's work and design principles. The book also comprises a Foreword by eminent architecture theorist Juhani Pallasmaa in which he provides insights into the wider architectural and cultural context of Utzon's worldview.

The Saga of Sydney Opera House Peter Murray, 2003-09-02 Peter Murray's compelling and highly readable biography of the building presents both sides of the story. Using previously unpublished files and papers, Murray has managed to unravel one of the most intriguing architectural controversies of recent times: what really happened when they built Sydney Opera House.

The Opera House Peter FitzSimons, 2022-03-30 The sun did not know how beautiful its light was until it was reflected off this building. Louis Kahn, US architect. If only these walls and this land could talk. The Sydney Opera House is a breathtaking building recognised around the world as a symbol of modern Australia. Along with the Taj Mahal and other World Heritage sites, it is celebrated for its architectural grandeur and the daring and innovation of its design. It showcases the incomparable talents involved in its conception, construction and performance history. But this stunning house on Bennelong Point also holds many secrets and scandals. In his gripping biography, Peter FitzSimons marvels at how this magnificent building came to be, details its enthralling history and reveals the dramatic stories and hidden secrets about the people whose lives have been affected both negatively and positively by its presence. He shares how a conservative 1950s state government had the incredible vision and courage to embark on this nation-defining structure, how an architect from Denmark and construction workers from Australia and abroad invented new techniques to bring it to completion, how ambition, betrayal, professional rivalry, sexual intrigue, murder, bullying and breakdowns are woven into its creation, and how it is now acknowledged as one of the wonders and masterpieces of human ingenuity. In *The Opera House*, Peter FitzSimons captures the extraordinary stories around this building that are as mesmerising as the light catching on its white sails.

Le Corbusier in the Antipodes Antony Moulis,2020-12-30 This book considers the architect Le Corbusier s encounters with Australia and New Zealand as a two way exchange showing the impact of his ideas and projects on architects of the region whilst also revealing counterinfluences on Le Corbusier in his post war career that were activated by his contacts Compiled from detailed archival research undertaken at the Fondation Le Corbusier Paris and nationally based archives *Le Corbusier in the Antipodes* brings together a set of episodes placing them in context with the history of modern art architecture and urbanism in 20th century Australia and New Zealand Key exchanges between Le Corbusier and others never before described are presented and analyzed including Le Corbusier s contact with Australian architect Harry Seidler at Chandigarh Le Corbusier s drawing of the plan of Adelaide in 1950 and his creative collaboration with Jørn Utzon on art for the Sydney Opera House This book also includes analysis of previously unseen Le Corbusier artworks which formed part of the Utzon family collection In reading these personal and contingent moments of encounter the book puts forward new

ways of understanding the dissemination and mediation of Le Corbusier's ideas and their effects in post war Australia and New Zealand. These antipodean contacts are set against the broader story of Le Corbusier's career questioning received interpretations of his design methods and current assumptions about the influence of his work in national contexts beyond Europe.

Structures and Architecture - Bridging the Gap and Crossing Borders Paulo J.S. Cruz, 2019-07-08. Structures and Architecture Bridging the Gap and Crossing Borders contains the lectures and papers presented at the Fourth International Conference on Structures and Architecture ICSA2019 that was held in Lisbon Portugal in July 2019. It also contains a multimedia device with the full texts of the lectures presented at the conference including the 5 keynote lectures and almost 150 selected contributions. The contributions on creative and scientific aspects in the conception and construction of structures on advanced technologies and on complex architectural and structural applications represent a fine blend of scientific technical and practical novelties in both fields. ICSA2019 covered all major aspects of structures and architecture including building envelopes, facade comprehension of complex forms, computer and experimental methods, futuristic structures, concrete and masonry structures, educating architects and structural engineers, emerging technologies, glass structures, innovative architectural and structural design, lightweight and membrane structures, special structures, steel and composite structures, structural design challenges, tall buildings, the borderline between architecture and structural engineering, the history of the relationship between architects and structural engineers, the tectonic of architectural solutions, the use of new materials, timber structures among others. This set of book and multimedia device is intended for a global readership of researchers and practitioners including architects, structural and construction engineers, builders and building consultants, constructors, material suppliers and product manufacturers and other professionals involved in the design and realization of architectural, structural and infrastructural projects.

The Operatic State Ruth Bereson, 2003-09-02. The Operatic State examines the cultural, financial and political investments that have gone into the maintenance of opera and opera houses in Europe, the USA and Australia. It analyses opera's nearly immutable form throughout wars, revolutions and vast social changes throughout the world. Bereson argues that by legitimising the power of the state through universally recognised ceremonial ritual, opera enjoys a privileged status across three continents, often to the detriment of popular and indigenous art forms.

Sharper 1980-2013 Lowell Tarling, 2018-10-01. Martin Sharp was an integral part of international Pop Art in the 1960s, magnified through his covers for OZ magazine in Sydney and London, his covers for Cream and posters of Dylan, Hendrix and Donovan. His efforts at making The Yellow House and Luna Park cultural precincts were aided by his screen prints and exhibitions to flaunt the work of others, especially the singer Tiny Tim. In this second of two volumes, Lowell Tarling offers us a way into the enigmatic and reclusive artist through his extensive interviews with Sharp and all of his trusted friends, touching on the many dramas of life.

at Sharp's home studio. Wirian's productions and search for meaning with regard to the Luna Park Fire, his spiritual search and death in 2013. I think what Lowell has done here is admirable: removing himself from the narrative. This book will be of interest to a wider audience who don't even know who Martin is. I predict this book will become a genuine hit. Peter Kingston

Encyclopedia of Twentieth Century Architecture R. Stephen Sennott, 2004 For more information including the introduction, a full list of entries and contributors, a generous selection of sample pages and more, visit the Encyclopedia of 20th Century Architecture website. Focusing on architecture from all regions of the world, this three-volume set profiles the twentieth century's vast chronicle of architectural achievements both within and well beyond the theoretical confines of modernism. Unlike existing works, this encyclopedia examines the complexities of rapidly changing global conditions that have dispersed modern architectural types, movements, styles, and building practices across traditional geographic and cultural boundaries. Participatory Culture and the Social Value of an Architectural Icon: Sydney Opera House Cristina Garduno Freeman, 2017-09-22 This book develops new and innovative methods for understanding the cultural significance of places such as the World Heritage listed Sydney Opera House. By connecting participatory media, visual culture, and social value, Cristina Garduno Freeman contributes to a fast-growing body of scholarship on digital heritage and the popular reception of architecture. In this, her first book, she opens up a fresh perspective on heritage as well as the ways in which people relate to architecture via participation on social media. Social media sites such as YouTube, Pinterest, Wikipedia, Facebook, and Flickr, as well as others, become places for people to express their connections with places. For example, the Sydney Opera House. Garduno Freeman analyses real-world examples from souvenirs to opera house shaped cakes and untangles the tangible and intangible ways in which the significance of heritage is created, disseminated, and maintained. As people's encounters with World Heritage become increasingly mediated by the digital sphere, there is a growing imperative for academics, professionals, and policy makers to understand the social value of significant places. This book is beneficial to academics, students, and professionals of architecture. *New Directions in Copyright Law* Fiona Macmillan, Kathy Bowrey, 2006-08-29 This book, the third in the series, follows the themes considered in the first two volumes and brings together perspectives on copyright from law, politics, economics, cultural studies, and social theory in an effort to forge a truly coherent and meaningful agenda for the future of copyright. It comprises thoughtful, critical, and often challenging contributions from an international multidisciplinary network of scholars. Sydney I.
