Transactions and Proceedings and Report of the Philosophical Society of Adelaide, South Australia Royal Society of South Australia, 1916 **Beyond the Dynamical Universe** Michael Silberstein, W. M. Stuckey, Timothy McDevitt, 2018-02-09 Theoretical physics and foundations of physics have not made much progress in the last few decades Whether we are talking about unifying general relativity and quantum field theory quantum gravity explaining so called dark energy and dark matter cosmology or the interpretation and implications of quantum mechanics and relativity there is no consensus in sight In addition both enterprises are deeply puzzled about various facets of time including above all time as experienced The authors argue that across the board this impasse is the result of the dynamical universe paradigm the idea

that reality is fundamentally made up of physical entities that evolve in time from some initial state according to dynamical laws Thus in the dynamical universe the initial conditions plus the dynamical laws explain everything else going exclusively forward in time In cosmology for example the initial conditions reside in the Big Bang and the dynamical law is supplied by general relativity Accordingly the present state of the universe is explained exclusively by its past This book offers a completely new paradigm called Relational Blockworld whereby the past present and future co determine each other via adynamical global constraints such as the least action principle Accordingly the future is just as important for explaining the present as is the past Most of the book is devoted to showing how Relational Blockworld resolves many of the current conundrums of both theoretical physics and foundations of physics including the mystery of time as experienced and how that experience relates to the block universe **Catalog of Copyright Entries. Moseley, 2024-06-25 Apart from a few famous stories like Peter walking on water most readers of the Bible have only a vague notion of who Jesus's apostles were and what they did. They had incredibly adventurous lives. This book, gleaned from over a decade of teaching and study, takes you on a magic carpet ride with the apostles, reveals the world through their eyes, and accurately retraces every known step of their lives. Imprisoned in Nero's Rome, Paul wrote, "I am an ambassador in chains." Apostle means ambassador, and these long-suffering ambassadors of Christ bore the gospel over tens of thousands of miles from Jerusalem to Africa, Europe, and Asia. They planted churches, had heavenly encounters, worked miracles, wrote all-time best sellers, were shipwrecked, flogged, imprisoned, and martyred, and turned empires and kingdoms upside down. This book is a journey of discovery back to the first century, experiencing how, against all odds, these embattled and triumphant ambassadors in chains so perfectly fulfilled the Great Commission of Jesus.
