The Niburian Sequence Gary Furnas, 2014-11-07 Setting Date 1921 Susan Woolsey is a third generation explorer and one of the few women in the burgeoning field of archeology After six years of digging in the deserts of the Middle East she is rewarded with an unprecedented discovery To her amazement she has unearthed a pristine tomb bearing not only the remains of a Sumerian goddess but also a trove of invaluable relics and most important of all ancient clay tablets that tell a most incredible story If Susan can prove that the story is true it will not only change history as we know it but will forever alter mankind's view of itself changing the very fabric of our existence Her secret puts Susan in direct conflict with numerous world governments religious factions and various clandestine secret societies all with the sole purpose of using the new knowledge for their own twisted agendas She quickly learns that these people will stop at nothing to achieve their nefarious goals When a mysterious stranger appears to warn her of the impending dangers he advises her to seek out help from another archeologist named Will Furness As soon as Will arrives they both discover that their very lives are at stake Their only chance for survival is to prove Susan's theory and make it public before they are caught Now it's a race against time and across two continents Can she survive the onslaught caught up in world powers beyond her belief Has she found the man that can truly stand with her in all aspects of her life Can she live with the knowledge that she is about to unleash on the world Can she live with the knowledge that she discovers about herself This debut novel by a talented new novelist explores many previously unanswered questions about the origins of the entire human race and how we fit in this world that we thought was ours alone If you enjoy high adventure scientific intrigue and old fashioned treasure hunting then this is one story not to be missed

unleash on the world Can she live with the knowledge that she discovers about herself This debut novel by a talented new novelist explores many previously unanswered questions about the origins of the entire human race and how we fit in this world that we thought was ours alone If you enjoy high adventure scientific intrigue and old fashioned treasure hunting then this is one story not to be missed **Max Quick: The Two Travelers** Mark Jeffrey, 2012-10-08 Five quiet years have passed in Starland California since the the time of the Pocket But when a crazed old man shows up with a warning Max Casey Ian and Sasha suddenly find themselves on the run Max and Ian go through an Arch back to 1912 where a mysterious Machine is under construction that seems connected to Max s unremembered secret Meanwhile Casey and Sasha follow the old man to the strange town of Arturo Gyp But there is more afoot than meets the eye the enemies of Mr E the nefarious Archons are abroad And when Max is at last eye to eye with his secret he realizes nothing will ever be the same again This is the second book in the Max Quick Series A New Order of the Ages Collin Robert q Bowling, 2011-08-01 Evil has been discharged hither and thither and as a result a war is being waged between the Light and the Dark Powerful occult reptilian bloodlines have commandeered the corporate mass media and the military industrial complex the everyman no longer a free entity Why these torturing gifts and wherefore lent to the people No reason except for the desire to dominate and suppress It is an inkling the beasts of prey within man and reptile cannot control Secret societies are the gatekeepers to a much greater secret that encompasses extraterrestrials and cultures spanning across dimensions The labyrinth has already been entered next stop a closer inspection at money and the big business of Big Brother Are there more cards up the magicians sleeve Only one and that is the possibility for enlightenment A New Order of the Ages Collin Robert Bowling, 2011 For millennia the human race has been controlled and manipulated by forces beyond our own dimension or awareness A carefully managed human extra dimensional breeding program has produced a hybrid slave race that isn t aware of its true origins or fate Few know that these shadow puppeteers are actually in control or that they even exist They are not human but then again neither are we As the epic battle of consciousness expands into the outer dimensions we know that one thing is for certain When the Liberty Bell rings once again their empire will be reduced to a heap of ashes There will be an army of forces backed by the highest of forces in the heavens which will conduct this re awakening of the masses This story recounts the takeover of planet Earth by the Snake of Zion and shares everything you need to know to be truly free The battleground is within each of us and our captors are but a reflection of humanity Unless we change ourselves how will the reflection be changed Hopefully after this enduring encounter deep into the rabbit hole you will realize how this reality has been manipulated by forces in the fourth dimension In order to succeed we must propel ourselves through the heart chakra and into the fifth dimension where the beloved Terra will find the peace and dignity that she deserves The fate of the world hangs in the balance All we have to do now is make a choice The Abyss, The Rebellion of Sakla Frederick Guttmann, This first part of this saga summarizes the references of the most significant mythologies in the world that speak about the Creation of the world and the

The Gods of Nibiru in the Ancient Near East Ryan Moorhen, No direct explanation is given for the origin and nature of the luminous bodies the sun the planets and the stars Because as far back as our written sources go the Sumerians regarded the moon god who went by the names Sin and Nanna as the son of the air god Enlil it does not seem unreasonable to suggest that they saw the moon as a bright air like body fashioned from the atmosphere As the sun god Utu and the Venus goddess Inanna are always referred to in the texts as children of the moon god these luminous bodies were probably imagined as having come from the moon after the latter had been formed from the atmosphere The big ones walk around the moon like wild oxen and the little ones that are scattered around the moon like grain are considered the rest of the planets and stars
