de Romanis Book 1 (2nd edition) Katharine Radice, Sonya Kirk, Angela Cheetham, George Lord, 2025-03-20 Now endorsed by OCR and Eduqas this popular Latin course for students aged 11-16 is breathing new life into Latin teaching and learning. *de Romanis* is a vibrant and accessible introduction to both the Latin language and the cultural world of the Romans. Throughout the course students gradually build their proficiency in Latin while exploring cultural topics through background notes, primary sources and engaging stories. This new edition of Book 1 has been revised throughout based on teacher feedback. Chapter introductions and core language sections are more accessible; you will find new boxes to offer opportunities for quick practice and enhance literacy through derivation skills. New primary sources expand your experience of the material world; revised stories support understanding of the darker side of Roman history. What makes *de Romanis* so special? Language learning is split between Core and Additional to ensure effective differentiation and flexible timetabling. Fun and varied exercises include word identification, word manipulation and source analysis to encourage wider discussion. Two-way translation exercises, derivation tasks and grammar explanations develop key literacy skills, promoting the understanding of English as well as Latin. Vocabulary is consistently consolidated and the clear and systematic explanations of grammar encourage steady progress to GCSE and beyond. Early introduction of Latin stories rather than isolated sentences builds student confidence from the start. The course is supported by over 300 additional online resources to support your teaching. In Book 1 students meet the gods and heroes of the Roman world introduced through stories from the very beginning so that they can immediately read passages of Latin. From myths about the gods to stories about religious customs and festivals, this is the perfect way to learn about the religious framework of Roman daily life. The final chapter on prophecy, including stories of historical figures such as Caesar interpreting messages from the gods, prepares for the transition in Book 2 to the world of Roman men and women. A Companion Website is available at <https://bloomsbury.pub/de/romanis>. *Exploring the Mid-Republican Origins of Roman Military Administration* Elizabeth H. Pearson, 2021-03-22 This volume demonstrates the development of Roman military bureaucracy during the Middle Republic, expanding on recent research to examine these administrative systems that made possible Rome's expansion in this period. Bringing together literary works, epigraphy, archaeology, topography and demography, the study reveals a complex and well-structured bureaucratic system developing in parallel with the army during the Middle Republic, propelled in no small part by the stresses of the Hannibalic War. Not only the contents of documents but the physical objects, individuals and spaces are discussed to re-create the administrative processes in maximum detail. *Exploring the Mid-Republican Origins of Roman Military Administration* provides an invaluable resource for students and scholars of Rome's military and administrative history as well as anyone working on the Republican period. *The Peoples of Ancient Italy* Gary D. Farney, Guy Bradley, 2017-11-20 Although there are many studies of certain individual ancient Italic groups, e.g. the Etruscans, Gauls and Latins, there is no work that takes a comprehensive view of each

of them the famous and the less well known that existed in Iron Age and Roman Italy Moreover many previous studies have focused only on the material evidence for these groups or on what the literary sources have to say about them This handbook is conceived of as a resource for archaeologists historians philologists and other scholars interested in finding out more about Italic groups from the earliest period they are detectable early Iron Age in most instances down to the time when they begin to assimilate into the Roman state in the late Republican or early Imperial period As such it will endeavor to include both archaeological and historical perspectives on each group with contributions from the best known or up and coming archaeologists and historians for these peoples and topics The language of the volume is English but scholars from around the world have contributed to it This volume covers the ancient peoples of Italy more comprehensively in individual chapters and it is also distinct because it has a thematic section

Unbound from Rome John North Hopkins, 2024-01-01 An expansive look at ancient art and architecture over four centuries highlighting the diversity of makers and viewers within and beyond Rome s ever changing political boundaries Roman art and architecture is typically understood as being bound in some ways to a political event or as a series of aesthetic choices and experiences stemming from a center in Rome itself Moving beyond the misleading catchall label Roman John North Hopkins aims to untangle the many peoples whose diverse cultures and traditions contributed to Rome s visual culture over a four hundred year time span across the first millennium BCE Hopkins carefully reconsiders some of the period s most iconic works by way of the many practices and peoples bound up with them Some of these include the extraordinary and complex effort to build the Temple of Jupiter the creative actions and diverse encounters tied to luxury objects like the Ficoroni Cista and the important meanings held by sacred temple sculpture and votive offerings through their making and subsequent practices of devotion A key purpose of this book is to question an idea of Rome that has focused on elite production and the textual record Hopkins instead calls attention to the lesser known often silenced actors who were integral players The result is a deep understanding of a diverse and historically rich Italic and Mediterranean world as well as the myriad cultures communities and individuals who would have made and experienced art within and around the changing political boundaries of Rome

Killing Hercules Richard Rowland, 2016-12-08 This book offers an entirely new reception history of the myth of Hercules and his wife killer Deianira The book poses and attempts to answer two important and related questions First why have artists across two millennia felt compelled to revisit this particular myth to express anxieties about violence at both a global and domestic level Secondly from the moment that Sophocles disrupted a myth about the definitive exemplar of masculinity and martial prowess and turned it into a story about domestic abuse through to a 2014 production of Handel's Hercules that was set in the context of the war on terror the reception history of this myth has been one of discontinuity and conflict how and why does each culture reinvent this narrative to address its own concerns and discontents and how does each generation speak to qualify or annihilate the certainties of its predecessors in order to understand contain or exonerate the aggression with which their governors of state and of the household so often enforce their authority and the violence to which their nations and their homes are perennially vulnerable

Acting Gods, Playing Heroes, and the Interaction between Judaism, Christianity, and Greek Drama in the Early Common Era Courtney J. P. Friesen, 2023-07-07 Winner of the 2025 Canadian Society of Biblical Studies Beare Award While many ancient Jewish and Christian leaders voiced opposition to Greek and Roman theater this volume demonstrates that by the time the public performance of classical drama ceased at the end of antiquity the ideals of Jews and Christians had already been shaped by it in profound and lasting ways Readers are invited to explore how gods and heroes famous from Greek drama animated the imaginations of ancient individuals and communities as they articulated and reinvented their religious visions for a new era In this study Friesen demonstrates that Greek theater's influence is evident within Jewish and Christian intellectual formulations narrative constructions and practices of ritual and liturgy Through a series of interrelated case studies the book examines how particular plays through texts and performances scenes images and heroic personae retained appeal for Jewish and Christian communities across antiquity The volume takes an interdisciplinary approach involving classical Jewish and Christian studies and brings together these separate avenues of scholarship to produce fresh insights and a reevaluation of theatrical drama in relation to ancient Judaism and Christianity Acting Gods Playing Heroes and the Interaction between

planet or lived scattered in villages yet by the end of this century almost all of us will live in cities But that journey has not been a smooth one and urban civilizations have risen and fallen many times in history The ruins of many of them still enchant us This book tells the story of the rise and fall of ancient cities from the end of the Bronze Age to the beginning of the Middle Ages It is a tale of war and politics pestilence and famine triumph and tragedy by turns both fabulous and squalid Its focus is on the ancient Mediterranean Greeks and Romans at the centre but Phoenicians and Etruscans Persians Gauls and Egyptians all play a part The story begins with the Greek discovery of much more ancient urban civilizations in Egypt and the Near East and charts the gradual spread of urbanism to the Atlantic and then the North Sea in the centuries that followed The ancient Mediterranean where our story begins was a harsh environment for urbanism So how were cities first created and then sustained for so long in these apparently unpromising surroundings How did they feed themselves where did they find water and building materials and what did they do with their waste and their dead Why in the end did their rulers give up on them And what it was like to inhabit urban worlds so unlike our own cities plunged into darkness every night cities dominated by the temples of the gods cities of farmers cities of slaves cities of soldiers Ultimately the chief characters in the story are the cities themselves Athens and Sparta Persepolis and Carthage Rome and Alexandria cities that formed great families Their story encompasses the history of the generations of people who built and inhabited them whose short lives left behind monuments that have inspired city builders ever since and whose ruins stand as stark reminders to the 21st century of the perils as well as the potential rewards of an urban existence
