The Supernatural in Short Fiction of the Americas Dana Del George, 2001-08-30 The continuing cultural encounters of the Americas between European and indigenous cultures and between scientific materialism and premodern supernaturalism have originated new narrative forms While supernatural short fiction of the Americas belongs to the broad category of the fantastic which is generally approached synchronically reading audiences of the past 200 years have shifted their beliefs about the supernatural several times While nineteenth century readers understood science as real and the supernatural as imaginary modern audiences recognize both as inaccurate a shift which allows authors of supernatural fiction to celebrate premodern indigenous beliefs which were once disdained by a materialist culture This book situates supernatural short fiction of the Americas within the changing cultural and epistemological contexts of the last 200 years and explores how authors have drawn upon a wealth of indigenous traditions The book begins with a discussion of theories of the supernatural and the fantastic It then looks at some of the first encounters of European and Native American supernatural beliefs and points to the common elements of these early traditions The volume next focuses on American literature of the nineteenth

century which has a complex fusion of materialist biases and metaphysical fascinations The final portion of the book gives greater attention to Spanish American literature and the blending of the supernatural with attitudes of nostalgia and uncertainty

Worlding America Oliver Scheiding, Martin Seidl, 2014-10-22 Worlding America explores the circulation of short narratives in the early Americas through a combination of neglected primary materials and scholarly commentary Building on recent reconsiderations of American literature in light of transnational and hemispheric approaches it follows the migration of stories from various backgrounds and demonstrates how forms and themes developed in a new literary market that spanned the Atlantic world While short narratives prior to 1800 have been largely excluded from critical discussions as well as anthologies they give insight into the conditions of publishing and writing as well as the demand for brief entertaining pieces that was met by a wide variety of sources including sermons letters diaries travelogues and eventually magazines and newspapers Breaking with traditional concepts of period authorship and genre Worlding America groups the different types of narratives it anthologizes according to key subject areas such as Life Writing Female Agency or the Cultures of Print Each section is introduced by a headnote that explains relevant historical and literary developments situating each narrative in its cultural context and providing its publication history Suggestions for further reading will also be appreciated by scholars and students wishing to pursue research in these underrepresented forms
