The Multispecies Salon:

The Multispecies Salon Eben Kirksey, 2014-10-20 A new approach to writing culture has arrived multispecies ethnography Plants animals fungi and microbes appear alongside humans in this singular book about natural and cultural history Anthropologists have collaborated with artists and biological scientists to illuminate how diverse organisms are entangled in political economic and cultural systems Contributions from influential writers and scholars such as Dorion Sagan Karen Barad Donna Haraway and Anna Lowenhaupt Tsing are featured along with essays by emergent artists and cultural anthropologists Delectable mushrooms flourishing in the aftermath of ecological disaster microbial cultures enlivening the politics and value of food and nascent life forms running wild in the age of biotechnology all figure in this curated collection of essays and artifacts Recipes provide instructions on how to cook acorn mush make cheese out of human milk and enliven forests after they have been clear cut The Multispecies Salon investigates messianic dreams environmental nightmares and modest sites of biocultural hope For additional materials see the companion website www multispecies salon org Contributors Karen Barad Caitlin Berrigan Karin Bolender Maria Brodine Brandon Costelloe Kuehn David S Edmunds Christine Hamilton Donna J Haraway Stefan Helmreich Angela James Lindsay Kelley Eben Kirksey Linda Noel Heather Paxson Nathan Rich Anna Rodriguez Dorion Sagan Craig Schuetze Nicholas Shapiro Miriam Simun Kim TallBear Anna Engaging Donna Haraway Cynthia Huff, Margaretta Jolly, 2022-08-18 Engaging Donna Haraway Lives Lowenhaupt Tsing in the Natureculture Web explores the impact of major theorist Donna Haraway in such diverse areas as feminisms Marxism new materialism science studies posthumanism animal studies ecocriticism digital media and life narrative The book shows how Haraway's decades long career as a major theoretical voice and provocateur of thinking about new and complex connections across technology species and disciplines has generated bold experiments in writing from the perspective and senses of non human species in photographic self portraiture of bodily life in animating the lives of scientists in radical genealogy in playful teaching methods and much more Focusing on the ways in which Haraway's oeuvre have affected and will continue to challenge life narrative theory and practice the chapters in this book present cross disciplinary perspectives which are both personal and critical As scholars students and activists inspired by Haraway's work these essays together ask all of us to think about where we place ourselves in an age of environmental crisis and how to live in a natureculture web which is as fragile as it is beautiful The chapters in this book were originally published as a special issue of a b Auto Biography Studies Shadowlands: Expanding Being-becoming beyond Liminality, Crossroads and Borderlands Remi Calleja, 2020-05-19 This book aims to expand on the notion of being becoming and being becoming that manifests across the literature of liminality crossroads and borderlands Looking to overcome the limitations of these grounding concepts the metaphor of the shadowlands is proposed Moving away from dualities and binaries challenging the spatial metaphors which imply clear and defined boundaries and spring from an objective construction of reality and coping with the idea of

incompleteness unfinishedness are the challenges of the shadowlands Through the prism of this newly conceptualised analytical and epistemological tool the authors intend to grasp a fresh understanding of the processes of being becoming and being becoming in both their singular and multiple manifestations As an epistemological concept the shadowlands imply that anthropologists must not only identify these uncanny spaces of junction in their research but also shadowlands in the ethnographic papers that they produce In addition to a better understanding of the continuous fabrication of temporalities and being becoming the concept puts into perspective the discipline of anthropology itself Throughout the chapters the different authors permit to grasp the various applications of the shadowlands allowing to project the concept in particular contexts and through specific angles of analysis Arrivals and Departures Otto Latva, Heta Lähdesmäki, Kirsi Sonck-Rautio, Harri Uusitalo, 2024-05-13 Is a River Alive? Robert Macfarlane, 2025-05-20 A New York Times Bestseller A 1 Sunday Times UK Bestseller Finalist for the 2025 Banff Mountain Book Competition in Environmental Literature A New York Times New Nonfiction to Read This Spring Recommendation A Financial Times Best Summer Book of 2025 A Guardian Nonfiction to Look Forward To in 2025 Pick A Washington Post Book to Watch For in 2025 From the best selling author of Underland and the great nature writer of this generation Wall Street Journal a revelatory book that transforms how we imagine rivers and life itself Hailed in the New York Times as a naturalist who can unfurl a sentence with the breathless ease of a master angler Robert Macfarlane brings his glittering style to a profound work of travel writing reportage and natural history Is a River Alive is a joyful mind expanding exploration of an ancient urgent idea that rivers are living beings who should be recognized as such in imagination and law Macfarlane takes readers on three unforgettable journeys teeming with extraordinary people stories and places to the miraculous cloud forests and mountain streams of Ecuador to the wounded creeks and lagoons of India and to the spectacular wild rivers of Canada imperiled respectively by mining pollution and dams Braiding these journeys is the life story of the fragile chalk stream a mile from Macfarlane's house a stream who flows through his own years and days Powered by dazzling prose and lit throughout by other minds and voices Is a River Alive will open hearts challenge perspectives and remind us that our fate flows with that of rivers and always has Metamorphoses and the Environmental Imagination Giulia Sissa, Francesca Martelli, 2023-07-27 This book positions Ovid s Metamorphoses as a foundational text in the western history of environmental thought The poem is about new bodies Stones springs plants and animals materialize out of human origins to create a world of hybrid objects which retain varying degrees of human subjectivity while taking on new physical form In bending the boundaries of known categories of being these hybrid entities reveal both the porousness of human and other agencies as well as the dangers released by their fusion Metamorphosis unsettles the category of the human within the complex ecologies that make up the world as we know it Drawing on a range of modern environmental theorists and approaches the contributors to this volume trace how the Metamorphoses models the relationship between humans and other life forms in ways that resonate with the preoccupations

of contemporary eco criticism They make the case for seeing the worldview depicted in Ovid's poem as an exemplar of the premodern ecological mindset that contemporary environmental thought seeks to approximate They also highlight critical moments in the history of the poem's ecological reception including reflections by a contemporary poet as well as studies of Medieval and Renaissance responses to Ovid **Towards Critical Environmental Education** Aristotelis S. Gkiolmas, Constantine D. Skordoulis, 2020-11-03 This volume discusses theory philosophy praxis and methods in Environmental and Ecological education and considers the junction with the main visions and issues of Critical Pedagogy The volume and its separate chapters address four axes which can also be seen as the guidelines of the content as well as the central objectives of the book The first axis concerns the missing theoretical and practical pieces at this point in time The volume considers the issues that are not included in contemporary Environmental Education and thus deprive it from critical orientations This implies that in Environmental Education very little discussion exists about the political economic racial gender and class issues that in most cases govern the actions of leaders and stake holders. The second axis concerns what has been done so far and in what directions This involves descriptions of theoretical approaches or actual applied methodologies in the classroom such as curricula or syllabus used or the kind of actions certain educators have taken to infuse the issues of justice and critical reflection within the Environmental Education teaching agenda The third axis examines proposals It looks at ways to enrich domains of Environmental Education with the argumentations of Critical Pedagogy The fourth axis concerns the way in which proposals can be effectuated This part contains specific methodologies and teaching sequences depicting ways of including major aspects of Critical Pedagogy and Critical Education in Environmental Education Examples are Non anthropocentric ecological approaches in the classroom political activism in the Curricula mixture of field activities and political activities Kierkegaardian Essays Clare Carlisle, Steven Shakespeare, 2022-04-19 S ren Kierkegaard argued that the most essential truths come to light by asking How This innovative collection of essays by leading scholars focuses on this questioning How asking how we should relate to ourselves to others and to God how we should be in the world how we can become human The result is a searching original colloquium on what it means to be Kierkegaardian in the 21st century The adjective Kierkegaardian names many possibilities ways of philosophizing choosing loving looking listening reading writing teaching making art praying going to church or not going to church How gestures to subjectivity one of Kierkegaard s most fundamental philosophical categories while What signals an objectifying line of thought The authors of these essays suggest that the crucial Kierkegaardian question is not what we are and ought to do but how we can remain true to the finitude passivity and ambiguity of human existence While this Kierkegaardian how is often acknowledged by scholars it is rarely thematized directly Attending to it elicits new kinds of argument and reflection Kierkegaardian Essays proposes a fresh approach to Kierkegaard and is essential reading for experts and students alike The Virus Touch Bishnupriva Ghosh, 2023-03-06 In The Virus Touch Bishnupriya Ghosh argues that media are central to understanding emergent relations

between viruses humans and nonhuman life Writing in the shadow of the HIV AIDS and COVID 19 global pandemics Ghosh theorizes epidemic media to show how epidemics are mediated in images numbers and movements through the processes of reading test results and tracking infection and mortality rates Scientific artistic and activist epidemic media that make multispecies relations sensible and manageable eschew anthropocentric survival strategies and instead recast global public health crises as biological social and ecological catastrophes pushing us toward a multispecies politics of health Ghosh trains her analytic gaze on these mediations as expressed in the collection and analysis of blood samples as a form of viral media the geospatialization of data that track viral hosts like wild primates and the use of multisensory images to trace fluctuations in viral mutations Studying how epidemic media inscribe store and transmit multispecies relations attunes us to the anthropogenic drivers of pathogenicity like deforestation or illegal wildlife trading and the vulnerabilities accruing from diseases that arise from socioeconomic inequities and biopolitical neglect **Doing Anthropology** Simone Dennis, Andrew Dawson, 2022-12-30 This textbook is written by well established anthropology professors for and with their undergraduate students It explores what anthropological thinking is what anthropological approaches are and how these are applied in real world settings It provides a thorough introduction to key methods theories and the disciplinary value of contemporary anthropology This book deliberately steps beyond the standard textbook format Undergraduate students reveal the processes by which they came to understand and apply anthropological knowledge using everyday experiences and common life events as examples while also showcasing the practical learning that student authors produced as a result of understanding and operationalising those processes This fresh take showcases what can be done with anthropological knowledge not what you can do with anthropology when you ve achieved the rank of professor This book is accompanied by practical exercises and podcasts that relate to each of the chapters Podcasts extend beyond the textbook as live resources with episodes on a regular basis This is an accessible lively active text that prepares students to outbound disciplinary knowledge This unique and engaging textbook will be core reading for undergraduate anthropology students as well as a source of teaching inspiration for lecturers of undergraduate anthropology units It would also be a useful text for undergraduate students conducting Quinine's Remains Townsend Middleton, 2024-04-30 A free ebook version of this title is available ethnographic research through Luminos University of California Press s Open Access publishing program Visit www luminosoa org to learn more What happens after colonial industries have run their course after the factory closes and the fields go fallow Set in the cinchona plantations of India s Darjeeling Hills Quinine s Remains chronicles the history and aftermaths of quinine Harvested from cinchona bark quinine was malaria s only remedy until the twentieth century advent of synthetic drugs and it was vital to the British Empire Today the cinchona plantations and the roughly fifty thousand people who call them home remain Their futures however are unclear The Indian government has threatened to privatize or shut down this seemingly obsolete and crumbling industry but the plantation community led by strident trade unions has successfully resisted Overgrown cinchona

fields and shuttered quinine factories may appear the stuff of postcolonial and postindustrial ruination but quinine s remains are not dead Rather they have become the site of urgent efforts to redefine land and life for the twenty first century Quinine s Remains offers a vivid historical and ethnographic portrait of what it means to forge life after empire Biopolitics, Law Irus Braverman, 2015-12-22 Typically the legal investigation of nonhuman life and of animal life in particular is conducted through the discourse of animal rights Within this discourse legal rights are extended to certain nonhuman animals through the same liberal framework that has afforded human rights before it Animals Biopolitics Law envisions the possibility of lively legalities that move beyond the humanist perspective Drawing on an array of expertise from law geography and anthropology through animal studies and posthumanism to science and technology studies this interdisciplinary collection asks what in legal terms it means to be human and nonhuman what it means to govern and to be governed and what are the ethical and political concerns that emerge in the project of governing not only human but also more than human life Futures of Comparative Literature Ursula Heise, 2017-03-27 Futures of Comparative Literature is a cutting edge report on the state of the discipline in Comparative Literature Offering a broad spectrum of viewpoints from all career stages a variety of different institutions and many language backgrounds this collection is fully global and diverse The book includes previously unpublished interviews with key figures in the discipline as well as a range of different essays short pieces on key topics and longer in depth pieces It is divided into seven sections Futures of Comparative Literature Theories Histories Methods Worlds Areas and Regions Languages Vernaculars Translations Media Beyond the Human and contains over 50 essays on topics such as Queer Reading Human Rights Fundamentalism Untranslatability Big Data Environmental Humanities It also includes current facts and figures from the American Comparative Literature Association as well as a very useful general introduction situating and introducing the material Curated by an expert editorial team this book captures what is at stake in the study of Comparative Literature today **Hybrid Intelligence** Philip F. Yuan, Hua Chai, Chao Yan, Keke Li, Tongyue Sun, 2023-04-03 This open access book is a compilation of selected papers from Digital FUTURES 2022 The 4th International Conference on Computational Design and Robotic Fabrication CDRF 2022 The work focuses on novel techniques for computational design and robotic fabrication The contents make valuable contributions to academic researchers designers and engineers in the industry As well readers encounter new ideas about intelligence in architecture

The Cambridge Handbook of Material Culture Studies Lu Ann De Cunzo, Catharine Dann Roeber, 2022-06-09 Material culture studies is an interdisciplinary field that examines the relationships between people and their things the production history preservation and interpretation of objects It draws on theory and practice from disciplines in the social sciences and humanities such as anthropology archaeology history and museum studies Written by leading international scholars this Handbook provides a comprehensive view of developments methodologies and theories It is divided into five broad themes embracing both classic and emerging areas of research in the field Chapters outline transformative moments

in material culture scholarship and present research from around the world focusing on multiple material and digital media that show the scope and breadth of this exciting field Written in an easy to read style it is essential reading for students researchers and professionals with an interest in material culture The Palgrave Handbook of the History of Human Sciences David McCallum, 2022-08-27 The Palgrave Handbook of the History of Human Sciences offers a uniquely comprehensive and global overview of the evolution of ideas concepts and policies within the human sciences Drawn from histories of the social and psychological sciences anthropology the history and philosophy of science and the history of ideas this collection analyses the health and welfare of populations evidence of the changing nature of our local communities cities societies or global movements and studies the way our humanness or human nature undergoes shifts because of broader technological shifts or patterns of living This Handbook serves as an authoritative reference to a vast source of representative scholarly work in interdisciplinary fields a means of understanding patterns of social change and the conduct of institutions as well as the histories of these ways of knowing probe the contexts circumstances and conditions which underpin continuity and change in the way we count analyse and understand ourselves in our different social worlds It reflects a critical scholarly interest in both traditional and emerging concerns on the relations between the biological and social sciences and between these and changes and continuities in societies and conducts as 21st century research moves into new intellectual and geographic territories more diverse fields and global problematics Full Surrogacy Now Sophie Lewis, 2021-08-31 Where pregnancy is concerned let every pregnancy be for everyone Let us overthrow in short the family The surrogacy industry is estimated to be worth over 1 billion a year and many of its surrogates around the world work in terrible conditions deception wage stealing and money skimming are rife adequate medical care is horrifyingly absent and informed consent is depressingly rare In Full Surrogacy Now Sophie Lewis brings a fresh and unique perspective to the topic Often we think of surrogacy as the problem but Full Surrogacy Now argues we need more surrogacy not less Rather than looking at surrogacy through a legal lens Lewis argues that the needs and protection of surrogates should be put front and center Their relationship to the babies they gestate must be rethought as part of a move to recognize that reproduction is productive work Only then can we begin to break down our assumptions that children belong to those whose genetics they share Taking collective responsibility for children would radically transform our notions of kinship helping us to see that it always takes a village to make a baby The Unnaming of Aliass Karin Bolender, 2020 The Unnaming of Aliass performs a paradoxical quest for wildly untold stories in the company of one special donkey companion a femammal of the species Equus asinus and significantly a registered American Spotted Ass Beast of burden that she is this inscrutable companion helped carry a ridiculous load of human longings and quandaries into a maze of hot harrowing miles across the US South from Mississippi to Virginia in the summer of 2002 all the while carrying her own onerous and unreckoned burdens and histories Over two decades the original journey evolved from the cracking open of a quasi Western novel that never was by an

implosive pun into an ongoing philosophical and assthetic adventure a hybrid roadside and barnyard based living art practice wherein Aliass un names something much harder to grasp than the body of a lovely little ass protagonist setting and traditional Western narratives turn inside out around this name that ain t Through a deeply dug in questioning of its own authorial assumptions The Unnaming of Aliass makes space for untold autobiographies and bright dusty lacunae tracing ineffable tales through the tangled shapes and shadows that interweave in any environment **Cryopolitics** Joanna Radin, Emma Kowal, 2017-03-24 The social political and cultural consequences of attempts to cheat death by freezing life As the planet warms and the polar ice caps melt naturally occurring cold is a resource of growing scarcity At the same time energy intensive cooling technologies are widely used as a means of preservation Technologies of cryopreservation support global food chains seed and blood banks reproductive medicine and even the preservation of cores of glacial ice used to study climate change In many cases these practices of freezing life are an attempt to cheat death Cryopreservation has contributed to the transformation of markets regimes of governance and ethics and the very relationship between life and death In Cryopolitics experts from anthropology history of science environmental humanities and indigenous studies make clear the political and cultural consequences of extending life and deferring death by technoscientific means The contributors examine how and why low temperatures have been harnessed to defer individual death through freezing whole human bodies to defer nonhuman species death by freezing tissue from endangered animals to defer racial death by preserving biospecimens from indigenous people and to defer large scale human death through pandemic preparedness. The cryopolitical lens emphasizing the roles of temperature and time provokes new and important questions about living and dying in the twenty first century Contributors Warwick Anderson Michael Bravo Jonny Bunning Matthew Chrulew Soraya de Chadarevian Alexander Friedrich Klaus Hoeyer Fr d ric Keck Eben Kirksey Emma Kowal Joanna Radin Deborah Bird Rose Kim TallBear Charis Thompson David Turnbull Thom van Dooren Rebecca J H Woods The Bloomsbury Handbook of Posthumanism Mads Rosendahl Thomsen, Jacob Wamberg, 2020-07-23 As our ideas of the human have come under increasing challenges from technological change from medical advances from the existential threat of climate crisis from an ideological decentering of the human amongst many other things the posthuman has become an increasingly central topic in the Humanities Bringing together leading scholars from across the world and a wide range of disciplines this is the most comprehensive available survey of cutting edge contemporary scholarship on posthumanism in literature culture and theory The Bloomsbury Handbook of Posthumanism explores Central critical concepts and approaches including transhumanism new materialism and the Anthropocene Ethical perspectives on ecology race gender and disability Technology from data and artificial intelligence to medicine and genetics A wide range of genres and forms from literary and science fiction through film television and music to comics video games and social media
