The National Judiciary Quiz Answers:

The National Courts' Mandate in the European Constitution Monica Claes, 2006-03-31 The reform of the European Constitution continues to dominate news headlines and has provoked a massive debate unprecedented in the history of EU law Against this backdrop Monica Claes book offers a bottom up view of how the Constitution might work taking the viewpoint of the national courts as her starting point and at the same time returning to fundamental principles in order to interrogate the myths of Community law Adopting a broad comparative approach she analyses the basic doctrines of Community law from both national constitutional perspectives as well as the more usual European perspective It is only by combining the perspectives of the EU and national constitutions she argues that a complete picture can be obtained and a solid theoretical base constitutional pluralism developed Her comparative analysis encompasses the law in France Belgium Denmark the Netherlands Germany Ireland Italy and the United Kingdom and in the course of her inquiry discusses a wide variety of prominent problems The book is structured around three main themes coinciding with three periods in the development of the judicial dialogue between the ECJ and the national courts The first focuses on the ordinary non constitutional national courts and how they have successfully adapted to the mandates developed by the ECJ in Simmenthal and Francovich The second examines the constitutional and other review courts and discusses the gradual transformation of the ECJ into a constitutional court and its relationship to the national constitutional courts The contrast is marked these courts are not specifically empowered by the case law of the ECJ and have reacted quite differently to the message from Luxembourg leaving them apparently on collision course with the ECJ in the areas of judicial Kompetenz Kompetenz and fundamental rights The third theme reprises the first two and places them in the context of the current debate on the Constitution for Europe and the Convention taking the perspective of the national courts as the starting point for a wide ranging examination of EU s constitutional fundamentals In so doing it argues that the new Constitution must accommodate the national perspective if it is to prove effective

National Courts and Preliminary References to the Court of Justice Krommendijk, Jasper, 2021-10-26 This innovative book examines why national courts refer preliminary references to the European Court of Justice ECJ and what the referring court does with the answers Jasper Krommendijk highlights the three core stages in the interaction between national courts and the ECJ question answer and follow up shedding new light on this under explored area

Guide to LIC - HFL Exam 2019 with 3 Online Tests for Assistant, Associate & Assistant Manager Disha Experts, *The Role of National Courts in Applying International Humanitarian Law* Sharon Weill, 2014-03-06 International law is increasingly applied in domestic courts This can result in situations where the courts are being asked to rule on politically sensitive issues especially issues which involve actions during armed conflicts Domestic courts do not show a uniformity of approach in addressing cases concerning international humanitarian law and can often be seen to differ markedly in their response The book argues that different national courts demonstrate different functional

roles in different countries These can be situated on a scale from apology to utopia which can be set out as follows 1 the apologist role of courts in which they serve as a legitimating agency of the state s actions 2 the avoiding role of courts in which they for policy considerations avoid exercising jurisdiction over a case 3 The deferral role of courts in which courts defer back to the other branches of the government the responsibility of finding an appropriate remedy 4 the normative application role of courts in which they apply international humanitarian law as required by the rule of law and 5 the utopian role of courts in which they introduce moral judgments in favour of the protection of the individual beyond the requirements of the law The book investigates the rulings of five key domestic courts those of the UK the USA Canada Italy and Israel to understand how their approaches differ and where their practice can be placed on the methological scale This analysis has been assisted by the author s extensive field work notably in Israel and in the Occupied Palestinian Territories Providing a detailed understanding each court s function the book offers a critical analysis of the courts rulings in which both the legal arguments and the political context of cases they have ruled on are examined The book shows that the functional role of the national courts is a combination of contradictions and mixed attitudes and that national courts are in the process of defining their own role as enforcing organs of international humanitarian law
