The Open Road Photography And The American Roadtrip:

The Open Road: Photography and the American Roadtrip (Signed Edition) David Company, 2014-09 After World War II the American road trip began appearing prominently in literature music movies and photography As Stephen Shore has written Our country is made for long trips Since the 1940s the dream of the road trip and the sense of possibility and freedom that it represents has taken its own important place within our culture Many photographers purposefully embarked on journeys across the U S in order to create work including Robert Frank whose seminal road trip resulted in *The Americans* However he was preceded by Edward Weston who traveled across the country taking pictures to illustrate Walt Whitman s *Leaves of Grass* Henri Cartier Bresson whose 1947 trip through the American South and into the West was published in the early 1950s in *Harper s Bazaar* and Ed Ruscha whose road trips between Los Angeles and Oklahoma formed the basis of *Twentysix Gasoline Stations* Hundreds of photographers have continued the tradition of the photographic road trip on down to the present from Stephen Shore to Taiyo Onorato Nico Krebs Alec Soth and Ryan McGinley *The Open Road* considers the photographic road trip as a genre in and of itself and presents the story of photographers for whom the American road is muse The book features David Company s introduction to the genre and 18 chapters presented chronologically each exploring one American road trip in depth through a portfolio of images and informative texts This volume highlights some of the most important bodies of work made on the road from *The Americans* to the present day

The American Roadside in Émigré Literature, Film, and Photography Elsa Court, 2020-01-06 *The American Roadside in migr Literature Film and Photography* 1955 1985 traces the origin of a postmodern iconography of mobile consumption equating roadside America with an authentic experience of the United States through the postwar road narrative a narrative which Elsa Court argues has been shaped by and through white male migr narratives of the American road in both literature and

visual culture While stressing that these narratives are limited in their understanding of the processes of exclusion and unequal flux in experiences of modern automobility the book works through four case studies in the American works of European born authors Vladimir Nabokov Robert Frank Alfred Hitchcock and Wim Wenders to unveil an early phenomenology of the postwar American highway one that anticipates the works of late twentieth century spatial theorists Jean Baudrillard Michel Foucault and Marc Aug and sketches a postmodern aesthetic of western mobility and consumption that has become synonymous with contemporary America
