Discursive Intersexions Michaela Koch, 2017-06-15 Life narratives and fiction that represent experiences of hermaphroditism and intersex are at the core of Michaela Koch's study. The analyzed texts from the 19th to the early 21st century are embedded within and contrasted with contemporary debates in medicine, psychology, or activism to reveal the processes of negotiation about the meaning of hermaphroditism and intersex. This cultural studies informed work challenges both strictly essentialist and constructivist notions. It argues for a differentiated perspective on intersex and hermaphrodite experiences as historically contingent, fully embodied, and nevertheless discursive subject positions. The Documentary Film Book Brian Winston, 2019-07-25 Powerfully posing questions of ethics, ideology, authorship, and form, documentary film has never been more popular than it is today. Edited by one of the leading British authorities in the field, *The Documentary Film Book* is an essential guide to current thinking on documentary film. In a series of fascinating essays, key international experts discuss the theory of documentary, outline current understandings of its history from pre-Flaherty to the post-Griersonian world of digital iDocs, survey documentary production from Africa to Europe and from the Americas to Asia, consider documentaries by marginalised minority communities, and assess its contribution to other disciplines and arts. Brought together here in one volume, these scholars offer compelling evidence as to why, over the last few decades,

documentary has come to the centre of screen studies. **Wrong-Doing, Truth-Telling** Michel Foucault, 2014-06-04 Three years before his death, Michel Foucault gave a series of lectures at the Catholic University of Louvain that have remained relatively unknown until only recently. Entitled *Wrong-Doing, Truth-Telling*, these lectures provide the missing link between Foucault's early work on sexuality and punishment and his later work on Greek and Roman antiquity. Ranging broadly from Homer to the 20th century, Foucault traces how the early ethical acts of truth-telling in ancient Greece gradually metamorphosed into acts of self-incrimination in monastic times and ultimately into the birth and rise of psychiatry as the foundation of modern penology, criminology, and criminal justice. For Foucault, self-incrimination no longer did the work necessary to quell justice because by the 19th century we wanted to know more than just the fact of wrongdoing; we wanted to know who the criminal was, not just whether the accused committed the crime but what it was about him that made him commit the crime. An avowal of wrong-doing was no longer sufficient; psychiatric expertise was now necessary, and that development marks the birth of discipline and modern criminal justice, made so famous by Foucault. *The Yankee Boy from Home* Joseph Battell, 1865 **The Infinitive, the Gerund and the Participles of the English Verb** Hendrik

Poutsma,1923 *Truth* ,1879 Sounds English Nabeel Zuberi,2001 Zuberi looks at how the sounds images and lyrics of English popular music generate and critique ideas of national belonging recasting the social and even the physical landscapes of cities like Manchester and London The Smiths and Morrissey play on romanticized notions of the white English working class while the Pet Shop Boys map a queer urban Britain in the AIDS era The techno culture of raves and dance clubs incorporates both an anti institutional do it yourself politics and emergent leisure practices while the potent mix of technology and creativity in British black music includes local conditions as well as a sense of global diaspora British Asian musicians drawing on Afrodiasporic and South Asian traditions seek a sense of place in Britain as commercial interests try to pin down an image of them to market Sounds English shows how popular music complicates cherished notions of Englishness as it activates cultural outsiders and taps into a sense of not belonging

interpretation in relation to social values craftsmanship hierarchical social structures violence irony humour and sexuality It concludes with a full list of previously proposed solutions to document the history of the ongoing argument that the Exeter Book riddles have provoked

Latin American Writers on Gay and Lesbian Themes David William Foster,1994-11-07 Gay and lesbian themes in Latin American literature have been largely ignored This reference fills this gap by providing more than a hundred alphabetically arranged entries for Latin American authors who have treated gay or lesbian material in their works Each entry explores the significance of gay and lesbian themes in a particular author s writings and closes with a bibliography of primary and secondary sources The figures included have a professed gay identity or have written on gay or lesbian themes in either a positive or negative way or have authored works in which a gay sensibility can be identified The volume pays

particular attention to the difficulty of ascribing North American critical perspectives to Latin American authors and studies these authors within the larger context of Latin American culture The book includes entries for men and women and for authors from Latin American countries as well as Latino writers from the United States The entries are written by roughly 60 expert contributors from Latin America the U S and Europe
