Queer Ink: A Blotted History Towards Liberation Katherine Hubbard, 2019-06-26 This historical interdisciplinary book contextualises the Rorschach ink blot test and embeds it within feminist action and queer liberation What do you see when you look at an ink blot The Rorschach ink blot test is one of the most famous psychological tests and it has a surprisingly queer history In mapping this history this book explores how this test once used to detect and diagnose homosexuality was later used by some psychologists and activists to fight for gay liberation In this book the author uses the test in yet another way as a lens through which we can reveal a queer feminist history of Psychology By looking closely at the lives and work of some women psychologists and activists it becomes clear that their work was influenced by their own often queer lives By tracing the lives and actions of women who used were tested with or influenced by the Rorschach a new kind of understanding of gay and lesbian history in Britain is revealed Pushing at the borders between Psychology Sociology and activism the book utilises the Rorschach to show how influential the social world is on scientific practice This is fascinating reading for anyone interested in the history of sexuality and Psychology

Gay Dads Abbie E. Goldberg, 2012-07-23 When gay couples become parents they face a host of questions and issues that their straight counterparts may never have to consider How important is it for each partner to have a biological tie to their child How will they become parents will they pursue surrogacy or will they adopt Will both partners legally be able to adopt their child Will they have to hide their relationship to speed up the adoption process Will one partner be the primary breadwinner And how will their lives change now that the presence of a child has made their relationship visible to the rest of the world In *Gay Dads Transitions to Adoptive Fatherhood* Abbie E Goldberg examines the ways in which gay fathers approach and negotiate parenthood when they adopt Drawing on empirical data from her in depth interviews with 70 gay men Goldberg analyzes how gay dads interact with competing ideals of fatherhood and masculinity alternately pioneering and accommodating heteronormative parenthood culture The first study of gay men s transitions to fatherhood this work will appeal to a wide range of readers from those in the social sciences to social work to legal studies as well as to gay adoptive parent families themselves

Productive failure Alpesh Kantilal Patel, 2017-07-21 This title sets out to write new transnational South Asian art histories to make visible histories of artworks that remain marginalised within the discipline of art history However this is done through a deliberate productive failure specifically by not upholding the strictly genealogical approach that is regularly assumed for South Asian art histories For instance one chapter explores the abstract work of Cy Twombly and Natvar Bhavsar The author examines whiteness the invisible ground upon which racialized art histories often pivot as a fraught yet productive site for writing art history This book also provides original commentary on how queer theory can deconstruct and provide new approaches for writing art history Overall this title provides methods for generating art history that acknowledge the complex web of factors within which art history is produced and the different forms of knowledge production we might count as art history

Resilience in the Post-Welfare Inner City Geoffrey DeVerteuil, 2016-08-17 Resilience has become one of the first fully fledged academic and political buzzwords of the 21st century Within this context Geoffrey DeVerteuil proposes a more critically engaged and conceptually robust version applying it to the conspicuous but now residual clusters of inner city voluntary sector organisations deemed service hubs The process of resilience is compared across ten service hubs in three complex but different global inner city regions London Los Angeles and Sydney in response to the threat of gentrification induced displacement DeVerteuil shows that resilience can be about holding on to previous gains but also about holding out for transformation The book is the first to move beyond theoretical works on resilience and offers a combined conceptual and empirical approach that will interest urban geographers social planners and researchers in the voluntary sector

Changing the Subject Srila Roy, 2022-08-29 In Changing the Subject Srila Roy maps the rapidly transforming terrain of gender and sexual politics in India under the conditions of global neoliberalism The consequences of India's liberalization were paradoxical the influx of global funds for social development and NGOs signaled the co-optation and depoliticization of struggles for women's rights even as they amplified the visibility and vitalization of queer activism Roy reveals the specificity of activist and NGO work around issues of gender and sexuality through a decade long ethnography of two West Bengal organizations one working on lesbian bisexual and transgender issues and the other on rural women's empowerment Tracing changes in feminist governmentality that were entangled in transnational neoliberalism Roy shows how historical and highly local feminist currents shaped contemporary queer and nonqueer neoliberal feminisms The interplay between historic techniques of activist governance and queer feminist governmentality's focus on changing the self offers a new way of knowing feminism both as always already co-opted and as a transformative force in the world
