The Magic of Shapeshifting Rosalyn Greene, 2025-09-12 SHAPESHIFTERS are people with animal medicine people who can connect with and use their animal powers Those with access to this magical power can shift mentally astrally or even physically into their power animal or totem Rosalyn Greene's ability to shift both mentally and astrally combined with her extensive study of the secret shapeshifting folklore has resulted in this fascinating examination of all aspects and forms of shifting This unique book helps you realize your potential for being a shapeshifter giving detailed explanations about how the various forms of shifting occur She shows you how to distinguish powerful visions anxiety attacks and imagination from real shifting as well as how to recognize the warning signs of an imminent shift Since there can be dangers and risks on both the mundane and psychic levels when you pursue the path of a shifter many of the potential dangers associated with specific practices are carefully outlined Shapeshifting is a spiritual journey a very tough one but very rewarding linking us with both the fundamental power

of animals and with the higher self It has a purpose and reality far beyond simply using shifter abilities for earthly benefits it can lead us through the unseen veil that separates us from our Selves Magic's Translations Margaret J.

Wiener,2025-04-04 Do you believe in magic This familiar question suggests magic is easily recognized but unreal In Magic's Translations Margaret J Wiener argues that such views are shaped by historical power struggles especially in Europe's relations with the wider world Focusing on nineteenth and twentieth century Dutch interactions with Indonesians Wiener reveals how colonial agents framed unfamiliar practices practitioners and objects as magic rendering distinct phenomena fundamentally alike and advancing colonizing projects that deemed magic antithetical to reason and reality While colonial authorities including ethnologists mobilized the concept of magic to differentiate Europeans from Indonesians nature from culture reason from superstition and fact from fetish their efforts produced unexpected outcomes Some Indonesian artifacts and acts not only retained their power but invaded European experiences As anthropologists were among the key translators of magic throughout the world Wiener intersperses accounts of magic's translations in the Indies with reflections on anthropology's ongoing engagement with the concept She demonstrates that magic became an object of expert knowledge political control and popular fascination rather than a self-evident category or relic of naïve belief **Magic Protector -**
