John Townsend

Tsunami 2004 Still Wading Through Waves Of Hope:

Tsunami 2004 Holly Michael, 2015-01-05 December 26th 2014 marked the anniversary of the monster waves seen around the world. Is life restored back to normal on the shores of Nagapattinam South India? Will it ever be? We'll go to the most devastated remote villages where no one else has gone. Bishop Leo Michael promised a Northwest Arkansas Newspaper reporter. Like a sweeping wave, news of the tsunami fundraiser spread to a national level. Bishop Leo Michael became the ideal vehicle to collect then ferry aid across the sea. He had lived and worked in the now tsunami devastated region for many years, spoke the native language and had a counseling degree. Ten DAYS later trekking into impassable villages and decimated shorelines, the Michaels helped the widows and orphans and most affected by the Tsunami. Ten YEARS later the Michaels returned to the same villages and encountered surprising changes and a life threatening situation. **Waves of Hope** Bruce A. Elleman, 2007-01-01 The powerful underwater earthquake that occurred off the coast of Sumatra on 26 December 2004 generated the most destructive tsunami ever recorded, drowning more than 150 000 people without warning in exposed littoral areas from Indonesia to South Africa. The destruction was particularly severe in the Aceh Province of Indonesia. Humanitarian relief has long been recognized as a mission of the American armed forces and of the U.S. Navy in particular. U.S. Pacific Command PACOM immediately established an Operations Planning Team OPT at PACOM Headquarters at Camp H.M. Smith in Honolulu, Hawaii. On 28 December it formed Joint Task Force JTF 536 to plan and execute Operation UNIFIED ASSISTANCE. Working closely with the Indonesian government and military, the Navy delivered beginning within days of the disaster vast quantities of emergency food and other supplies and provided on the spot emergency medical treatment to thousands of injured and displaced persons along the Aceh coast. During UNIFIED ASSISTANCE, sea basing proved to be a culturally sensitive and politically flexible response to a natural disaster in a region dominated by Muslims and the scene of an active domestic insurgency. Hard power assets like the aircraft carrier and support ships provided by the U.S. Navy in conjunction with air support and personnel from the Army Marine Corps and Air Force provided tremendous soft power effects. This operation produced enormous goodwill in particular when compared to the experience of other powers in the region like China that could not send similar forces. This book tells the story of UNIFIED ASSISTANCE. The Gift of Hope Ellyn Sanna, 2006 In 2005 a Village Earth staff author and photographer traveled to Thailand to document the tsunami recovery efforts. Using donations from around the world and the Thai spirit, life was beginning to take on a new sense of normalcy. In late 2005 the pair visited Louisiana documenting hurricane recovery efforts. This book brings readers face to face with the sense of loss and of hope brought by these natural disasters. **Waves of Hope: The U.S. Navy's Response to the Tsunami in Northern Indonesia**, 2007 The powerful underwater earthquake that occurred off the coast of Sumatra on 26 December 2004 generated the most destructive tsunami ever recorded, drowning more than 150 000 people without warning in exposed littoral areas from Indonesia to South Africa. The destruction

was particularly severe in the Aceh Province of Indonesia Humanitarian relief has long been recognized as a mission of the American armed forces and of the U S Navy in particular U S Pacific Command PACOM immediately established an Operations Planning Team OPT at PACOM Headquarters at Camp H M Smith in Honolulu Hawaii On 28 December it formed Joint Task Force JTF 536 to plan and execute Operation UNIFIED ASSISTANCE Working closely with the Indonesian government and military the Navy delivered beginning within days of the disaster vast quantities of emergency food and other supplies and provided on the spot emergency medical treatment to thousands of injured and displaced persons along the Aceh coast During UNIFIED ASSISTANCE sea basing proved to be a culturally sensitive and politically flexible response to a natural disaster in a region dominated by Muslims and the scene of an active domestic insurgency Hard power assets like the aircraft carrier and support ships provided by the U S Navy in conjunction with air support and personnel from the Army Marine Corps and Air Force provided tremendous soft power effects This operation produced enormous goodwill in particular when compared to the experience of other powers in the region like China that could not send similar forces This book tells the story of UNIFIED ASSISTANCE

Tsunami Susan Blackhall, 2006-02-01 With the cruellest of timings the Tsunami of 2004 struck when the world was full of hope for a New Year Plans were being made for the future loved ones and families were warm in each other's company and friends were revelling in the exotic atmosphere of Southeast Asia Nothing should have marred the spirit of Christmas Nothing should have blighted paradise But then the wave came On Boxing Day as a new morning dawned for those in Southeast Asia and as those across the globe enjoyed the feelgood factor of that special time of year The seabed cracked and the forces of earth and sea killed tens of thousands and destroyed the lives of millions in their angry wake No one will forget the images of the dead or the dying and the devastation For many all those thoughts for the future were now gone crushed in moments without warning The 2004 Tsunami was the deadliest in recorded history The earthquake that preceded it was the fourth worst since 1900 It was many in the region believed the work of the devil when God had turned his back for a moment We must never forget the events of December 2004 We must never forget the aftermath and its far reaching consequences Above all we must never forget how human strength and compassion shines through when there is the greatest need For in an unprecedented response the world became a powerful ally to relieve suffering and restore hope People gave in all ways through their hearts through their prayers and through their presence in the stricken areas Throughout the world everyone from the youngest child to mightiest corporations made donations to the Tsunami Disaster Fund In this book we hope to provide a memorable record of The Tsunami as a humbling reminder to us all that ours is a very fragile world It is dedicated to all those whose lives were touched by the disaster

Surviving the Tsunami: Hear My Story Sarah Eason, 2020 In 2004 powerful waves from a tsunami in the Indian Ocean hit Indonesia killing hundreds of thousands of people and causing widespread devastation Based on the experiences of many tsunami victims this fictional story follows Aditya and his mother who survived the tsunami on the island of Sumatra but have no

home to return to and must rely on the help of charity workers Interspersed with facts and case studies about what causes tsunamis this narrative tells a story common to many people who have had to flee and rebuild their lives after losing their homes possessions and sometimes loved ones *Waves of Hope* Bruce Elleman, Naval War Press, 2012-08-08 The powerful underwater earthquake that occurred off the coast of Sumatra on 26 December 2004 generated the most destructive tsunami ever recorded drowning more than 150 000 people without warning in exposed littoral areas from Indonesia to South Africa The destruction was particularly severe in the Aceh Province of Indonesia at the northwestern tip of the island of Sumatra There entire villages were destroyed within minutes as waves of thirty feet or more advanced far inland while destruction of the main coastal highway made the entire region virtually inaccessible to Indonesian authorities ashore In these extraordinary circumstances of human suffering the U S Navy was able to play a key role in organizing what was to become a massive multinational humanitarian relief operation one based and executed virtually entirely from the sea Working closely with the Indonesian government and military the Navy delivered beginning within days of the disaster vast quantities of emergency food and other supplies and provided on the spot emergency medical treatment to thousands of injured and displaced persons along the Aceh coast Humanitarian relief has long been recognized as a mission of the American armed forces and of the U S Navy in particular The scale and complexity of the tsunami s impact however posed particular and in some respects novel challenges to the Joint Task Force 536 JTF 536 that was created to deal with the situation not least of them the requirement imposed on it to operate exclusively from an improvised sea base to use a term that has gained some currency in recent discussions of naval missions and capabilities In Newport Paper 28 *Waves of Hope* The U S Navy s Response to the Tsunami in Northern Indonesia historian Bruce A Elleman provides the first comprehensive history and analysis of what would become known as Operation UNIFIED ASSISTANCE Elleman a research professor in the Department of Maritime History at the Naval War College has produced a valuable and indeed unique study one that makes use of a variety of internal Navy documents oral histories and interviews with a number of senior naval officers including the then Chief of Naval Operations Admiral Vern Clark It is to be hoped that it will prove of immediate benefit to planners in the naval and joint worlds of the U S military as well as to those of other nations potentially interested in exploiting its lessons to improve their own capabilities in this frequently neglected yet vital indeed life saving military mission **Tsunami** James Goff, Walter Dudley, 2021-03-16 Tsunami unveils the science of disaster Building on personal stories and scientific research on these devastative waves James Goff and Walter Dudley arm readers with everything they need to survive a tsunami and maybe even avoid the next one Tsunami (Dec. 26, 2004) Joe Funk, 2005 Hope heroes and incredible stories of survival

Disaster in the Indian Ocean: Tsunami 2004 John A. Torres, 2020-02-04 The disaster in the Indian Ocean started with a massive undersea earthquake off the coast of Indonesia What followed was a surge of water called a tsunami that killed thousands of people in nearly a dozen countries Water rose up miles inland and destroyed everything in its path Children

were ripped from their parents arms family members were lost to each other forever This is their story But more importantly this is a story of hope of how people woke up to destroyed cities and missing children and did not give up They showed what they were made of by licking their wounds and then trying to find their lives again This is also the story of how the world responded with the biggest humanitarian effort in History Countries from all over the world sent money food water soldiers and doctors This moving account is based on the author s extensive research including his personal trip to Indonesia in January 2005 where he witnessed the devastation firsthand and spoke to dozens of survivors **The Asian Tsunami 2004** John Townsend,2006 On the morning after Christmas 2004 scientists detected a major earthquake in the Indian Ocean They had no idea it had triggered a deadly wave This tsunami would leave about 280 000 people dead and 1 5 million children homeless Learn about the largest aid operation in the history of the world and the miraculous survival of some of the people who were washed out to sea This book explains why tsunamis occur and what can be done to minimize their damage Timelines a glossary ideas for research and suggestions for future reading are included in this gripping read about this devastating natural disaster Rising Above the Wave Edward Muesch,2008-08 author and sailor Ed Muesch chronicles his and his wife Helen s terrifying experience resulting from the tsunami on December 26 2004 at Phi Phi Don Island in Thailand

Witness to Disaster: Tsunamis Judy Fradin,Judith Bloom Fradin,Dennis B. Fradin,2008 The words and photographs of people who have witnessed tsunamis along with the science history and protection efforts surrounding this watery disaster

Children of the Tsunami Robin Nagy,2005 This book is a culmination of an exciting and ambitious project in which children have helped children to help themselves and their own community The beautiful illustrations photographs and stories which are contained within this book have been collected translated and compiled by a team of 52 senior students from Bangkok Patana School Thailand All the artwork for this book was drawn by the children of four schools in Khao Lak and together with the stories tells the gripping and moving tale of how their community was shattered by the Tsunami which struck Khao Lak and how they are now re building their lives This project is a charity venture and is the creation and product of the hard work of more than 100 amazing children Robin Nagy who is a teacher at Bangkok Patana School as well as being a Head of Year edited the book Format Hardback with high quality matt art paper Price 30 00 Normal RRP would be approximately 50 All profits go towards educating and rebuilding schools of Tsunami affected regions of Thailand

Tsunami Stories of Survival and Hope Sondra A. LeGrand,2008-07-01 With so many images of the December 26 2004 Tsunami people understood the terrible tragedy No one could fully appreciate what it meant to have several hundred thousand people whisked away by this destructive ocean wave At one La Crosse school North Woods International Elementary School the curriculum revolves around an international theme a way to connect children with other cultures in the world This learning promotes global understanding and connections In La Crosse Wisconsin during the 2005 06 school year the theme at North Woods International School was to study India The Tsunami was an important learning opportunity

even though the suffering occurred 8 000 miles away Children reached out to each other using words and artwork They also raised money to help Tsunami survivors who lost families and childhoods along with their hopes and dreams for the future The Government Home School of Sirkali and the students of North Woods International School connected heart to heart through their words and artwork P 4 cover *Witness to Disaster: Tsunamis* Judy Fradin, 2011-05-04 It s another beautiful day of your paradise vacation in South Asia You look out onto a calm sea on this day after Christmas already looking forward to ringing in 2005 But why is the ocean receding so far from shore Are those fish flapping around in the sand Something is not right Your island getaway is about to be devastated with the 80 foot plus waves of one of the worst tsunamis in history The 2004 Asian Tsunami was the result of the second largest earthquake ever recorded Lasting over eight minutes it was also the longest on record The quake measured 9 0 on the Richter scale large enough to vibrate the entire planet violent enough to move an ocean Through eyewitness accounts and dramatic photography the first chapter of *Tsunamis* puts you in the terrifying path of the wave that washed ashore in many countries The tsunami wiped out whole communities and claimed an estimated 230 000 lives *Tsunamis* explores the science history and personal experience of tsunamis and shows kids what scientists are doing to develop early warning systems so we can survive such disasters in the future National Geographic supports K 12 educators with ELA Common Core Resources Visit www.natgeoed.org [commoncore](http://commoncore.org) for more information

Wave Sonali Deraniyagala, 2017 On the morning of December 26 2004 on the southern coast of Sri Lanka Sonali Deraniyagala lost her parents her husband and her two young sons in the tsunami she miraculously survived In this brave and searingly frank memoir she describes those first horrifying moments and her long journey since She has written an engrossing unsentimental beautifully poised account as she struggles through the first months following the tragedy furiously clenched against a reality that she cannot face and cannot deny and then over the ensuing years as she emerges reluctantly slowly allowing her memory to take her back through the rich and joyous life she s mourning from her family s home in London to the birth of her children to the year she met her English husband at Cambridge to her childhood in Colombo all the while learning the difficult balance between the almost unbearable reminders of her loss and the need to keep her family somehow still alive within her Publisher description *The 2004 Indian Ocean Earthquake and Tsunami* Charles River Charles River Editors, 2014-11-12 Includes pictures Includes accounts of the tsunami written by survivors Includes a bibliography for further reading Whenever an earthquake or tsunami takes thousands of innocent lives a shocked world talks of little else Anne M Mulcahy In the Christian world December 25 is a time of great rejoicing and celebrating the birth of Jesus Christ It is by far the most festive time of year marked by parties church services and giving gifts It is also a popular vacation time as families use the breaks given by offices and schools to travel often to exotic destinations That is why so many of those who witnessed the Great Tsunami of 2004 were not native to the areas struck but had traveled there to enjoy the sun during the dead of winter Most of them slept soundly on Christmas night and woke up the following morning with

plans to enjoy a fun day playing along white beaches or exploring dense jungles For many it was supposed to be the adventure of a lifetime but for everyone in the region it would instead become a fight for survival Around 8 00 a m on December 26 a massive earthquake registering a 9 1 9 3 on the Richter Scale struck off of Sumatra Indonesia making it the 3rd strongest earthquake ever recorded by seismographs On top of that the earthquake shook for nearly 10 minutes and generated incredibly strong tsunami waves some of which topped out at over 100 feet tall as they crashed inland in places like Thailand India and Indonesia Given the great distances traveled some of the tsunami waves didn't reach shore until 7 hours after the earthquake but thanks to the element of surprise people in the region had virtually no warning of what was coming With more energy than that generated by every weapon and bomb used during World War II combined the tsunami waves pulverized entire towns and swept away hundreds of thousands of people across Southeast Asia in addition to displacing more than a million people Given how calamitous the events were a massive outpouring of humanitarian support was sent to the affected areas and over 10 billion was poured into relief efforts Not surprisingly a better tsunami detection system was also designed to prevent against any similar occurrence even though it's believed that the last similar event in that region took place over 500 years earlier The 2004 Indian Ocean Earthquake and Tsunami The Story of the Deadliest Natural Disaster of the 21st Century chronicles the incredibly powerful earthquake and the deadly tsunami waves it triggered in Southeast Asia Along with pictures of important people places and events you will learn about the 2004 earthquake and tsunami like never before in no time at all

Carried Away on the Crest of a Wave David Yee, From the shore of Ko Phi Phi in Thailand to a suburb in Utah to a mysterious Kafkaesque hole in the ground carried away on the crest of a wave gives us brief glimpses into the lives of a sphinx like escort a grieving father a conflicted priest brothers of legend a felonious housewife an accountant of time an orphaned boy a radio shock jock and a man who finds things Each are connected primarily by the cataclysmic 2004 Indian Ocean tsunami that claimed the lives of over a quarter million people In a series of vignettes Carried Away on the Crest of a Wave illustrates the ripple effect of one of the deadliest natural disasters in recorded history and ponders what happens when the events that bind us together are the same events that tear us apart

Tsunami Events and Lessons Learned Yev Kontar, Vincente Santiago-Fandino, Tomoyuki Takahashi, 2013-11-27 This book is a collective effort by world experts bringing together assorted contributions presented during the Ocean Science Session OS 017 of the AOGS AGU Joint Assembly held in Singapore in 2012 the Asia Tsunami and Great East Japan Earthquake and Tsunami events The chapters cover assessment evaluation forecast and lessons learned as well as environmental and societal impacts of the latest tsunamis that occurred in the Indian Ocean in 2004 and the Pacific Ocean in Japan 2011 The book is aimed at experts scientists and decision makers seeking recent updated information knowledge and experiences to better understand quantify forecast and protect coastal water resources ecosystems communities and human settlements which are often affected by tsunamis
