

Tuck Everlasting Summary

- This book is about a girl named Winnie, who decided to run away one day with a family named the Tucks. The Tucks secret is that they're immortal. They drank water from a spring that was actually a fountain of youth (found in Winnie's family's woods). Till the end of time, they will stay this way. Winnie falls in love with one of the Tucks, Jesse, a "17" year old boy who shares the same feelings for her. Scared of death, Winnie must choose between being immortal and being with Jesse or following the circle of life and dying someday.

Summary of Carol Ann Tomlinson's How to Differentiate Instruction in Academically Diverse Classrooms, Third Edition Everest Media,2022-04-25T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 Differentiating instruction means shaking up what goes on in the classroom so that students have multiple options for absorbing information making sense of ideas and expressing what they ve learned In other words a differentiated classroom provides different avenues for acquiring content processing or making sense of ideas and developing products 2 While differentiated instruction can offer multiple avenues to learning it does not assume a separate assignment for each learner It focuses on meaningful learning and it ensures that all students engage with powerful ideas 3 The teacher should be able to control student behavior and differentiate instruction requires more leadership from the teacher While teachers who differentiate instruction may have to be more active leaders they are not doing so at the expense of student thinking 4 The hallmark of an effective differentiated classroom is the use of flexible grouping which allows students to work with a variety of peers and with tasks that are thoughtfully designed to draw on their strengths as well as address their weaknesses
