The Problems of Contemporary Philosophy Paul Livingston, Andrew Cutrofello, 2015-12-08 This accessible new book provides a clear and wide-ranging introduction to the defining problems of contemporary philosophy. Its unique feature is to focus on problems that cut across the established divide between analytic and continental philosophical traditions. Instead of segregating the two traditions as is usually done, the authors offer a critical orientation and guide for readers who are not exclusively affiliated with either approach and who want to understand the increasingly shared questions philosophers are asking and addressing today. Each chapter starts with a fundamental overarching question: 1. What and how can we know? 2. What is the structure of the world? 3. What goes beyond the physical world? 4. What is to be done? 5. What does it mean to orient oneself philosophically? Under these headings, the authors critically examine the disciplines' most fundamental problems. Their approach reveals deep and unexpected connections across the analytic-continental divide and opens up new ways of thinking about critique itself. No other book about contemporary philosophy is as comprehensive and cosmopolitan. *The Problems of Contemporary Philosophy* provides newcomers and seasoned philosophers alike with an entertaining, engaging, and far-reaching portrait of today's philosophical landscape. It is an exemplary instance of thinking across and beyond the analytic-continental divide.

McTaggart's Paradox R.D. Ingthorsson, 2016-06-10 McTaggart's argument for the unreality of time, first

published in 1908 set the agenda for 20th century philosophy of time Yet there is very little agreement on what it actually says nobody agrees with the conclusion but still everybody finds something important in it This book presents the first critical overview of the last century of debate on what is popularly called McTaggart s Paradox Scholars have long assumed that McTaggart s argument stands alone and does not rely on any contentious ontological principles The author demonstrates that these assumptions are incorrect McTaggart himself explicitly claimed his argument to be dependent on the ontological principles that form the basis of his idealist metaphysics The result is that scholars have proceeded to understand the argument on the basis of their own metaphysical assumptions duly arriving at very different interpretations This book offers an alternative reading of McTaggart s argument and at the same time explains why other commentators arrive at their mutually incompatible interpretations It will be of interest to students and scholars with an interest in the philosophy of time and other areas of contemporary metaphysics

Kiarina Kordela, 2017-10-06 A Kiarina Kordela steps beyond extant commentaries on Marx's theory of commodity fetishism from A Sohn Rethel to L Althusser Balibar Slavoj Žižek and others to show that in capitalism value is the manifestation of the homology between thought and being while their other aspect power is foreclosed and becomes the object of biopower Using monistic Marxian Lacanian structuralism as an alternative to dominant models from Plato and Kant to phenomenological accounts deconstruction and other contemporary approaches Kordela expertly argues that Marx's theory of commodity fetishism is a reformulation of the Spinozian thesis that thought mind and things bodies or extension are manifestations of one and the same being or substance Kordela's link between Spinoza and Marx shows that being consists of two aspects value and power the former leading to structuralist thought the latter becoming the object of contemporary biopower Epistemontology in Spinoza Marx Freud Lacan intervenes between two dominant lines of thought in the reception of Marx today on the one hand an approach that relates Marxian thought to psychoanalysis from a Hegelian dialectical perspective and on the other hand an approach that links Marxism to Spinozian monism at the total exclusion of psychoanalysis This book will interest scholars and researchers who study Marxism post structuralism psychoanalysis critical theory ontology epistemology and theories of representation theoreticians of cultural studies and comparative literature aesthetic theory including the relation of art to economy and politics and biopolitics

The Inconspicuous God Jason W. Alvis, 2018-06-01 Dominique Janicaud once famously critiqued the work of French phenomenologists of the theological turn because their work was built on the seemingly corrupt basis of Heidegger's notion of the inapparent or inconspicuous In this powerful reconsideration and extension of Heidegger's phenomenology of the inconspicuous Jason W Alvis deftly suggests that inconspicuousness characterizes something fully present and active yet quickly overlooked Alvis develops the idea of inconspicuousness through creative appraisals of key concepts of the thinkers of the French theological turn and then employs it to describe the paradoxes of religious experience

[Linking Game-Theoretical Approaches with Constructive Type Theory](#) Nicolas Clerbout, Shahid Rahman, 2015-07-08 This title links two of the most dominant research streams in philosophy of logic namely game theory and proof theory As the work's subtitle expresses the authors will build this link by means of the dialogical approach to logic One important aspect of the present study is that the authors restrict themselves to the logically valid fragment of Constructive Type Theory CTT The reason is that once that fragment is achieved the result can

be extended to cover the whole CTT system The first chapters in the brief offer overviews on the two frameworks discussed in the book with an emphasis on the dialogical framework The third chapter demonstrates the left to right direction of the equivalence result This is followed by a chapter that demonstrates the use of the algorithm in showing how to transform a specific winning strategy into a CCT demonstration of the axiom of choice The fifth chapter develops the algorithm from CTT demonstrations to dialogical strategies This brief concludes by introducing elements of discussion which are to be developed in subsequent work
