Bennett,2016-12-27 Continuing the milestone 50th anniversary celebration of Star Trek a brand new novel of The Original Series featuring James T Kirk Spock and the crew of the USS Enterprise Investigating a series of violent raids by a mysterious predatory species Captain James T Kirk discovers that these events share a startling connection with the First Federation a friendly but secretive civilization contacted early in the USS Enterprise's five year mission Traveling to the First Federation in search of answers the Enterprise suddenly comes under attack from these strange marauders Seeking refuge the starship finds its way to the true home of the First Federation an astonishing collection of worlds hidden from the galaxy beyond The inhabitants of this isolated realm are wary of outsiders and some accuse Kirk and his crew for bringing the wrath of their ancient enemy down upon them When an attempt to stave off disaster goes tragically wrong Kirk is held fully accountable and Commander Spock learns there are even deeper forces that threaten this civilization If Kirk and Spock cannot convince the First Federation's leaders to overcome their fears the resulting catastrophe could doom them all **Department of Temporal Investigations: Forgotten History** Christopher L. Bennett,2012-04-24 The agents of the Department of Temporal

Investigations are assigned to look into an anomaly that has appeared deep in Federation territory. It's difficult to get clear readings but a mysterious inactive vessel lies at the heart of the anomaly, one outfitted with some sort of temporal drive disrupting space time and subspace. To the agents' shock, the ship bears a striking resemblance to a Constitution class starship and its warp signature matches that of the original Federation starship Enterprise NCC 1701, the ship of James T. Kirk, that infamous bogeyman of temporal investigators whose record of violations is held up by DTI agents as a cautionary tale for Starfleet's recklessness toward history. But the vessel's hull markings identify it as Timeship Two, belonging to none other than the DTI itself. At first, Agents Lucsly and Dulmur assume the ship is from some other timeline, but its quantum signature confirms that it came from their own past despite the fact that the DTI never possessed such a timeship. While the anomaly is closely monitored, Lucsly and Dulmur must search for answers in the history of Kirk's Enterprise and its many encounters with time travel, a series of events with direct ties to the origins of the DTI itself.

Department of Temporal Investigations: Time Lock Christopher L. Bennett, 2016-09-05. An all new Star Trek e novella from the world of Deep Space Nine featuring the fan favorite Federation bureau, the Department of Temporal Investigations. The dedicated agents of the Federation Department of Temporal Investigations have their work cut out for them, protecting the course of history from the dangers of time travel. But the galaxy is littered with artifacts that in the wrong hands could threaten reality. One of the DTI's most crucial jobs is to track down these objects and lock them safely away in the Federation's most secret and secure facility. As it happens, Agent Gariff Lucsly and his supervisor, DTI director Laarin Andos, are charged with handling a mysterious space time portal device discovered by Starfleet. But this device turns out to be a Trojan horse, linking to a pocket dimension and a dangerous group of raiders determined to steal some of the most powerful temporal artifacts ever known.

Drawing Futures Bob Sheil, Frédéric Migayrou, Luke Pearson, Laura Allen, 2016-11-11. Drawing Futures brings together international designers and artists for speculations in contemporary drawing for art and architecture. Despite numerous developments in technological manufacture and computational design that provide new grounds for designers, the act of drawing still plays a central role as a vehicle for speculation. There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world. In reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world, the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation. Drawing Futures will present a compendium of projects, writings, and interviews that critically reassess the act of drawing and where its future may lie. Drawing Futures focuses on the discussion of how the field of drawing may expand synchronously alongside technological and computational developments. The book coincides with an international conference of the same name taking place at The Bartlett School of Architecture, UCL, in November 2016. Bringing together practitioners from many creative fields, the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas.
