

## SAMPLE FOR GRADUATE SCHOOL

# STATEMENT OF PURPOSE

When I agreed to take a school trip abroad, I was expecting it to be almost akin to a vacation. I imagined myself spending time at the beach and enjoying the sun. However, when I arrived, I was struck by what I saw – children sitting silently along the street as we passed in our official vehicle. Some tried to ask us for money, and we were instructed not to reach outside for any reason. It turns out this village was experiencing an epidemic of malaria, and we were there to help rebuild and implement stronger sanitation practices. The big difference between my reality and the reality of the children in the village shocked me and inspired me to delve deeper into the field of public health – and it has led me to apply to the Master's program in Public Health, where I can continue to make changes to better my community.

When I returned to the United States after my trip, I had been changed by what I had experienced. I began to volunteer as an addiction aide for my local community center, due to the increasing number of overdose-related hospital visits over the past few years. I realized that although infectious disease and addiction were different types of illnesses, each was endemic in its own region. As part of my college capstone project, I conducted a community event to raise awareness of the risks of overdose, as well as to equip members in the community with the knowledge they needed to respond to overdoses.

In the future, I hope to be able to continue my work in improving public health and safety through research and policy changes. This master's program in public health will give me the skills and knowledge to tackle challenges in the field, including how to improve education and funding for projects to address health concerns globally. This opportunity will give me hands-on training to make a difference in lives across the world, enabling better access to modern healthcare and improving education globally.
