Getting to Nuclear Zero in Northeast Asia Gregory Kulacki,Keiko Nakamura,Jae-Jung Suh,Tatsujiro Suzuki,2025-06-27 This book presents realistic alternatives to security policies based on nuclear weapons for the Northeast Asian region Northeast Asian governments and populations feel less secure than ever and the governments of the USA Russia China and North Korea are all expending considerable resources on increasing their nuclear arsenals This book presents realistic alternatives to security policies dependent on threats to use nuclear weapons and demonstrations of the resolve to use them in a war Those alternatives are grounded in the well established concept of common security The long term goal of these alternatives is the establishment of a nuclear weapon free zone in Northeast Asia This book demonstrates that lessons learned during the creation of existing nuclear weapon free zones can be successfully adapted using the proposed alternatives to nuclear threats to the considerably more challenging circumstances that exist in contemporary Northeast Asia More importantly it makes the case that the mere process of pursuing this objective even if the goal is not realized for many decades would help facilitate regional risk reduction measures and global nuclear arms control measures that could lead in the long term to the general and complete disarmament promised by the Nuclear Nonproliferation Treaty NPT and the Treaty on the Prohibition of Nuclear Weapons TPNW of 2021 This book will be of interest to students of nuclear proliferation Asian security foreign policy and International Relations

America for three years before the records were expunged *America the Great* Edward Hawkins Sisson,2014-06-22 America the Great is the result of five years research and writing that began in late 2009 in response to the contemporary American tea party movement and criticisms that the movement's participants did not know the history and theory of the original 1773 Boston Tea Party from which the modern movement takes its name The extensive library of original books newspapers magazines etc now available primarily via google books to anyone over the Internet means that researchers have available to them the university libraries of the world The availability of accurate original documents made it possible to expand the original scope of research into other historical events and into other countries primarily Great Britain and enabled the work to develop into a more general examination of theories of human dignity and of the differing conception of government that arises depending on the conception of human dignity that is characteristic of the people that is creating that government Toxic Exposures Susan L. Smith,2017-01-17 Mustard gas is typically associated with the horrors of World War I battlefields and trenches where chemical weapons were responsible for tens of thousands of deaths Few realize however that mustard gas had a resurgence during the Second World War when its uses and effects were widespread and insidious Toxic Exposures tells the shocking story of how the United States and its allies intentionally subjected thousands of their own servicemen to poison gas as part of their preparation for chemical warfare In addition it reveals the racialized dimension of these mustard gas experiments as scientists tested whether the effects of toxic exposure might vary between Asian Hispanic black and white Americans Drawing from once classified American and Canadian government records military reports scientists papers and veterans testimony historian Susan L Smith explores not only the human cost of this research but also the environmental degradation caused by ocean dumping of unwanted mustard gas As she assesses the poisonous legacy of these chemical warfare experiments Smith also considers their surprising impact on the origins of chemotherapy as cancer treatment and the development of veterans rights movements Toxic Exposures thus traces the scars left when the interests of national security and scientific curiosity battled with medical ethics and human rights **Soldiering On** Adam Powell,2019-09-09 A month after the Armistice Prime Minister David Lloyd George promised to make Britain a land fit for heroes At the time it was widely believed Returning soldiers expected decent treatment and recognition for what they had done yet the fine words of 1918 were not matched by actions The following years saw little change as a lack of political will watered down any reform Beggars in trench coats became a common sight in British cities Soldiering On examines how the Lost Generation adjusted to civilian life how they coped with physical and mental disabilities and struggled to find jobs or even communicate with their family This is the story of men who survived the trenches only to be ignored when they came home Using first hand accounts Adam Powell traces the lives of veterans from the first day of peace to the start of the Second World War looking at the many injustices ex servicemen bore while celebrating the heroism they showed in the face of a world too quick to forget **The Assessment of Emergent Bilinguals** Kate Mahoney,2017-02-20 A practical guide to

Dispatches from Dystopia Kate Brown, 2015-05-01 Why are Kazakhstan and Montana the same place asks one chapter of Kate Brown s surprising and unusual journey into the histories of places on the margins overlooked or erased It turns out that a ruined mining town in Kazakhstan and Butte Montana America s largest environmental Superfund site have much more in common than one would think thanks to similarities in climate hucksterism and the perseverance of their few hardy inhabitants Taking readers to these and other unlikely locales Dispatches from Dystopia delves into the very human and sometimes very fraught ways we come to understand a particular place its people and its history In Dispatches from Dystopia Brown wanders the Chernobyl Zone of Alienation first on the Internet and then in person to figure out which version the real or the virtual is the actual forgery She also takes us to the basement of a hotel in Seattle to examine the personal possessions left in storage by Japanese Americans on their way to internment camps in 1942 In Uman Ukraine we hide with Brown in a tree in order to witness the annual male only Rosh Hashanah celebration of Hasidic Jews In the Russian southern Urals she speaks with the citizens of the small city of Kyshtym where invisible radioactive pollutants have mysteriously blighted lives Finally Brown returns home to Elgin Illinois in the midwestern industrial rust belt to investigate the rise of rustalgia and the ways her formative experiences have inspired her obsession with modernist wastelands Dispatches from Dystopia powerfully and movingly narrates the histories of locales that have been silenced broken or contaminated In telling these previously unknown stories Brown examines the making and unmaking of place and the lives of the people who remain in the fragile landscapes that are left behind
