Hammond,2007-01-04 With Beyond Rationality Kenneth R Hammond one of the most respected and experienced experts in judgment and decision making sums up his life s work and persuasively argues that decisions should be based on balance and pragmatism rather

than rigid ideologies Hammond has long focused on the dichotomy between theories of correspondence whereby arguments correspond with reality and coherence whereby arguments strive to be internally consistent He has persistently proposed a middle approach that draws from both of these modes of thought and so avoids the blunders of either extreme In this volume Hammond shows how particular ways of thinking that are common in the political process have led to the mistaken judgments that created our current political crisis He illustrates this argument by analyzing penetrating case studies emphasizing the political consequences that arise when decision makers consciously or unconsciously ignore their adversaries particular mode of thought These analyses range from why Kennedy and Khrushchev misunderstood each other to why Colin Powell erred in his judgments over the presence of weapons of mass destruction in Iraq For anyone concerned about the current state of politics in the U S and where it will lead us **Beyond Rationality** is required reading **Air Defense Artillery**, 1992 **Beyond Justice** Rebecca Wittmann, 2012-03-05 In 1963 West Germany was gripped by a dramatic trial of former guards who had worked at Auschwitz It was the country's largest most public trial and attracted international attention Using pretrial files and extensive trial audiotapes Wittmann offers a fascinating reinterpretation of Germany's first major attempt to confront its past *Beyond the Wall* Elizabeth Pond, 2010-12-01 *Beyond the Wall* is the first book in either English or German to tell the whole story of the extraordinary revolution that demolished the Berlin Wall ended the Cold war and tore apart the Soviet regime Elizabeth Pond former Moscow and European correspondent for the Christian Science Monitor was an eyewitness to the dramatic events of 1989-92 and to the fifteen years of relations between Germany and Eastern Europe leading up to them Pond weaves together in riveting prose the strands of events that are usually recounted separately Rather than looking just at the East German revolt or the process of unification that created a new nation she traces the interaction of these events and their diplomatic consequences for Europe Pond shows the political economic and social forces at work leading up to the unification during the transition process and in the aftermath Looking at the European framework she explains how significantly the European Community and its move toward integration both affected and were affected by German unification The book contains a wealth of new information from hundreds of interviews with top German and American policymakers East German Politburo members and average German citizens It also incorporates up to date research on such topics as the Stasi secret police and the midlife crisis of the German left Pond concludes with an assessment of the roles of the United States and a unified Germany in the new Europe Calling for a continued partnership between the United States and Germany who have come through a common baptism of fire since the fall of the Berlin Wall Pond casts an optimistic eye toward the future **Beyond the Modern Age** Bob Goudzwaard, Craig G. Bartholomew, 2017-05-23 Modernity according to Bob Goudzwaard and Craig Bartholomew is not a single ideology but rather a tension between four worldviews In conversation with students from around the world and drawing upon a variety of sources and disciplines the authors propose ways to transcend modernity and address global crises Beyond Right and

Wrong Harry K. Girvetz,1973 **Developmental States beyond East Asia** Jewellord T. Nem Singh,Jesse Salah Ovadia,2020-05-21 This comprehensive volume reviews recent scholarship regarding the role of the state in economic development With a wide range of case studies of both successful and failed state led development the authors push the analysis of the developmental state beyond its original limitations and into the 21st century New policies institutional configurations and state market relations are emerging outside of East Asia as new developmental states move beyond the historical experience of East Asian development The authors argue for the continued relevance of the developmental state and for understanding globalization and structural transformation through the lens of this approach They further this concept by applying it to analyses of China Latin America and Africa as well as to new frontiers of state led development in Japan and the East Asian developmental states This book expands the scope of research on state led development to encompass new theoretical and methodological innovations and new topics such as governance institution building industrial policy and the role of extractive industries This book was originally published as a special issue of the journal Third World Quarterly **Beyond Europe - Reconnecting Eurasia** Rafał Wisniewski,Tadeusz Wallas,Andrzej Stelmach,2019-11-20 Beyond Europe Reconnecting Eurasia provides a timely and nuanced account of the great powers policies towards Eurasia It explores the role of Central Asia and the trends that are shaping the politics of the Eurasian megaregion With the emphasis on the theme of reconnection this volume highlights the challenges of global and regional cooperation and excels in interpreting both the current realities of Eurasia and the driving forces behind them The volume provides a broad and critical analysis of Eurasia s emergence as a viable geopolitical and geoeconomic powerhouse and discusses the megaregion s standing in foreign and security policies of both global as well as regional powers Prof Marek Rewizorski University of Gdansk
